David Young

Decision happened right after Supreme Court decision on New York Times case.

-- Concern of President -- as he understands -- was to have a project set up to coordinate the work on the Pentagon papers in the various departments.

-- President said to Hoover that it be coordinated in the White House under Erlichman and Krogh.

-- Haig and Erlichman wanted someone from the NSC to look at the substantive aspects. HAK said no, then said yes for 90 days.

-- HAK, Erlichman, President discussed in helicopter.

Young takes it that the President and Erlichman asked him to work on it and HAK was concerned.

It was under Erlichman, Liddy, Hunt were hired by Erlichman, Colson. The SALT leak in August? Was when the President called in Krogh and that is when the polygraphs were given. Haig knew about this investigation.
