CALIFORNIA

**Dr. Luther T. Wallace, Jr., Director
Department of Food and Agriculture
Agriculture Building
1220 N. Street
Sacramento, California 95814
916/445-7126**

DR. LUTHER T. WALLACE, JR., education includes an A.B. in Economics from Harvard, an M.S. in Agricultural Economics from Oregon State University and the Ph.D. in Agricultural Economics from Purdue. A self-employed rancher and logger from 1949-1954, he has worked for the University of California since 1963 with the exception of a leave in 1968-1969 when he was senior economist for the President's Council of Economic Advisors as a specialist in agricultural policy analysis. Prior to his appointment as Director in February, 1975, he was an agricultural economist with the University of California Cooperative Extension Service in Berkeley.

*Ray
a good profile
of this Wallace
C.M.*

EVAN:

In case you and the Secretary haven't heard, the new Director of Agriculture for California is Tim Wallace, and here's some background provided today by Eric Thor:

Studied under the Secretary at Purdue (got his phd there around 1960). Dr. Cowden probably knows him also.

Grew up in Illinois. Got a bachelor's in ag econ from Harvard.

Went to Oregon and farmed a cattle-sheep operation for 6 years. The farm wasn't large enough so he went back to school and got a master's from OSU. Then went to Purdue for his phd and was on the staff there for a while.

University of California-Davis hired him from Purdue in 1962. At Davis, he has served as an ag economist for the Giannini Foundation specializing in land use.

(Somewhere in his career he spent two years in D.C. with the staff of Economic Advisors.)

Gov. Brown wanted someone acceptable to agriculture and labor. Labor wouldn't accept any of the farmer types offered so they compromised on Wallace. Also, Wallace had done some work for Mexican cooperatives in the state and therefore the Chavez types agreed on him. Brown was particularly interested in Wallace's land use background. Gov. Brown went to Davis the other day and spent 4 hours with Wallace and then hired him.

Wallace is a middle-of-the-roader, says Eric.

I imagine that if he tells farmers he studied under Secretary Butz then he won't have any trouble being accepted by the tillers of the soil.

Vern Highley

OFFICE OF THE GOVERNOR
Sacramento, California 95814
Bill Stall, Press Secretary
916-445-4571 2-3-75

RELEASE: Immediate

#22

Governor Edmund G. Brown Jr. announced the appointment today of Tim Wallace, a former rancher and logger, as director of the Department of Food and Agriculture.

Wallace, 46, most recently was an agricultural economist with the University of California Cooperative Extension in Berkeley.

From 1949-54, he was a self-employed rancher and logger in Oregon.

The Berkeley resident has worked for UC since 1963 with the exception of a leave in 1968-69 when he was a senior economist for the President's Council of Economic Advisers. He specialized in agricultural policy analysis in that position.

He received his A.B. in economics from Harvard, an M.S. in agricultural economics from Oregon State University and his Ph.D. in agricultural economics from Purdue.

Wallace is a Democrat. The post currently carries a salary of \$37,212 a year.

Former Director C. Brunel Christensen was asked to remain in the department for a brief period as a consultant.

The
COMMISSIONER
OF
AGRICULTURE

DOYLE CONNER

DOYLE [EDWARD] CONNER, Seventh Commissioner of Agriculture of the State of Florida, was born in Starke on December 17, 1928, the son of Mr. and Mrs. Leon Conner. The future Commissioner learned from boyhood of the problems of agriculture since his father was engaged in raising livestock and farming 400 acres.

Doyle Conner attended Bradford County Schools, and was active in farm youth organizations. In 4-H, he was president of his chapter. In the Future Farmers of America, he was Florida president in 1947 and National president in 1948-49.

In 1950, while 21 and a sophomore at the University of Florida, he was elected to the House of Representatives from Bradford County. He was re-elected before graduation in 1952 with the degree of bachelor of science in agriculture. He served a total of five terms in the House, and at 28 in 1957 was its youngest Speaker. In the 1959 session, he was chairman of the Committee on Rules and Calendar. He was first elected Commissioner of Agriculture in 1960.

Mr. Conner was active in campus affairs at the University of Florida. He was vice president of the Freshman Class and a member of the President's Cabinet. He was a member of Florida

Blue Key, of Alpha Gamma Rho and president of the Agriculture Club.

Commissioner Conner was selected by the Outdoor Writers of America as one of the nation's outstanding youth in 1947; voted by the Florida State Junior Chamber of Commerce as one of the state's top five young men in 1950, and chosen by the United States Junior Chamber of Commerce as one of the nation's top 10 young men in 1960.

In Starke, he was a member of the Junior Chamber of Commerce. He carried on and expanded the farming operations in Bradford County of his father, specializing in breeding Angus cattle. He also operated general insurance agencies in Starke and Miami.

Commissioner Conner served as President of the Southern and National Associations of State Departments of Agriculture and as a member of the National Food for Peace Committee.

He is a member of the Florida Chamber of Commerce, Farm Bureau and Florida Cattlemen's Association.

Commissioner Conner is a Baptist, an Elk, Mason (Scottish Rite), Shriner, and an honorary Kiwanian.

Mrs. Conner is the former Johnnie (Kitten) Bennett of Marianna. They were married on June 28, 1953, and have three children, Doyle, Jr., born October 28, 1955; Kimberly Ann, June 14,

The Commissioner of Agriculture

1958, and John Bryant, April 8, 1961. They reside in Tallahassee at 2902 Woodside Drive.

Legal basis for the office of Commissioner of Agriculture: Article IV, Section 4, Constitution of Florida, and Chapter 570, Florida Statutes. Method of selection: Election. Quali-

fications: An elector, not less than 30 years old, and a resident of the state for the preceding seven years. Term: Four years. May be re-elected to successive terms. Present term ends January 2, 1979. Method of removal: Impeachment. Compensation: \$40,000 a year.

HISTORY: 1868 Constitution created offices of Surveyor-General and Commissioner of Immigration. Surveyor-General and Commissioner appointed by Governor, confirmed by Senate. Constitution amended in 1871 to consolidate offices under name of Commissioner of Lands and Immigration. 1885 Constitution created office of Commissioner of Agriculture, absorbing duties of Commissioner of Lands and Immigration. Commissioner elected by people. 1968 Constitution, elected by people.

ILLINOIS

**Robert J. Williams, Director
Department of Agriculture
State Fairgrounds
Springfield, Illinois 62706
217/782-2274**

Governor Dan Walker appointed Robert J. (Pud) Williams director of the Illinois Department of Agriculture in May of 1973. Williams, a working grain and livestock farmer all his life, has been active in conservation and flood control as a member and former director of both the Wabash Valley Interstate Commission and the Wabash Valley Association.

During the past 15 years, the 48-year old farmer has served as a member of the White County Board. He has always been active in Democratic county politics and formerly served as the board's chairman.

Williams is the owner of a grain elevator company in Golden Gate. This business has been placed in a "blind trust" during his tenure as agriculture director. He will be informed only of any earnings for income tax purposes.

The director's home is a 1600 acre farm at Mill Shoals. There he lives within three miles of where he was born and raised, and there within five or six miles live his two brothers. All three are farmers. The younger brother also runs the grain elevator owned by them. There are three full-time employees to run the farm. Williams keeps 1000 acres planted in corn and soybeans and feeds about two hundred head of cattle.

Ten years ago Williams built a new home on the farm and put in a small lake in back of the house. He resides there with his wife Dorothy, and two children. Dorothy Williams handles all the bookkeeping for the farm.

Williams is well known throughout White County. He is a member of the Farm Bureau, the American Legion, the Veterans of Foreign Wars and is active in the First Presbyterian Church of Carmi.

NEBRASKA

**Glenn W. Kreuscher, Director
Department of Agriculture
State Capitol, P. O. Box 4844
Lincoln, Nebraska 68509
402/471-2341**

GLENN W. KREUSCHER, born and raised on a farm and operated his own livestock and feeding operations while being engaged for more than 25 years in state and national agricultural journalism and livestock promotion activities. Until recent years he owned Circle K Polled Herefords, a herd that furnished breeding stock to cattlemen in many states. From 1947 to 1958 he traveled nationally, covering at least 40 states per year as a fieldman and assistant to the national secretary of the American Polled Hereford Association. From 1959 to 1971, he was the farm and rural life editor for the Lincoln Journal and the Lincoln Star. In this capacity he covered both state, national and international writing assignments. He was Governor J. James Exon's first appointment in January, 1971 and has served since that time as Nebraska's Director of Agriculture. Kreuscher has averaged more than 150 speaking engagements each year for the past 25 years. In March of 1974 he became Chairman of the National Transportation Committee for NASDA. He received the 1973 booster award from the Nebraska Pork Producers Association and on April 1, 1974, he was named to the Board of Governors of the American Royal Association, Kansas City, Missouri. Kreuscher has served as president or chairman of many organizations including the presidency of MASDA. He has been awarded many honors for his agricultural activities, including Meritorius Public Service Award in the field of agricultural education presented by the Nebraska County Agents Association; distinguished service award from the Future Farmers of America; Honorary membership in Alpha Tau Alpha; and is an honorary member of the Nebraska Veterinary Medical Association. His writing achievements include the co-authorship of Nebraska's Centennial film, "Where the Cornbelt Meets the Range" which was narrated by Henry Fonda. He was awarded the 1970 National Photography Award by the Newspaper Farm Editors of America. He and his wife have three sons and a daughter.

OHIO

John M. Stackhouse, Director
Department of Agriculture
65 South Front Street
Columbus, Ohio 43215
614/466-2732

JOHN M. STACKHOUSE, accepted reappointment as Director of the Ohio Department of Agriculture in January, 1975. He had previously served as State Agriculture Director for eight years, from 1963-1970. During 1971-1972 he was Director of Regulatory Affairs for the National Agricultural Chemicals Association; in 1973 he served as Vice President of the Association. He is a lifelong resident of Wakeman, Ohio where he manages a 1200 acre farm which specializes in popcorn and certified seed grains. After graduating from Wakeman High School, he attended Ohio State University where he received his B.S. degree with an Agricultural Engineering major and minors in Agronomy and Animal Husbandry. He has done graduate work in Agronomy both at Ohio State University and at the Ohio Agricultural Research and Development Center in Wooster. He has served as Director of the Ohio Drainage Contractors Association and Director of the Ohio Forestry Association, as well as a member on the Board of Supervisors of the Huron County Soil and Water Conservation District. As Director of the Ohio Department of Agriculture he is State Sealer of Weights and Measures and an ex-officio member of the Ohio Expositions Commission, Board of Control of the Ohio Agricultural Research and Development Center, the Ohio Soil and Water Conservation Commission, and the Ohio Sewer and Water Commission. Memberships include the American Society of Agronomy, The Soil Science Society of America, the American Society of Agricultural Engineers, and the Ohio Society of Farm Managers and Rural Appraisers and others. He has been active in school, church and civic organizations in Wakeman.

Mrs. Stackhouse is the former Ruth Burdick of York, Pennsylvania. They have two teenage daughters.

Governor-elect James A. Rhodes today announced the appointment of key staff personnel and 12 members of his cabinet.

Staff personnel named were:

Roy A. Martin, Portsmouth, executive assistant.

John M. McElroy, Columbus, executive assistant.

Miss Emma Scholz, Columbus, administrative assistant.

Chan Cochran, Columbus, administrative assistant.

Cabinet members named were:

Administrative services -- Richard L. Krabach, Lima.

✓ Agriculture -- John M. Stackhouse, Wakeman.

Budget and Management -- Howard L. Collier, Toledo.

Commerce -- Gordon Peltier, Columbus.

Economic and Community Development -- James A. Duerk, Marysville.

Highway Safety -- Donald D. Cook, Bexley.

Industrial Relations -- Helen W. Evans, Marysville.

Insurance -- Harry Jump, Willard.

Liquor Control -- Clifford E. Reich, Westerville.

Natural Resources -- Robert W. Teater, Columbus.

Transportation -- Richard D. Jackson, Columbus.

Welfare -- Denver L. White, Athens.

Martin, McElroy and Miss Scholz served in similar capacities with Rhodes during the latter's previous administration.

Martin, 59, served as Rhodes' 1974 campaign manager and formerly was an assistant to U. S. Sen. William B. Saxbe.

McElroy, 65, an attorney, has been associated with the firm of Topper, Alloway, Goodman, DeLeone and Duffey, Columbus, since 1971.

Miss Scholz has been with Rhodes' industrial development firm, James Rhodes & Associates, since 1971.

Cochran, 32, has been a statehouse reporter with the Columbus Dispatch for five years. He formerly worked on the Youngstown Vindicator.

Krabach served as the first finance director in Rhodes' previous administration. He is a former city manager of Cincinnati, and more recently a practicing attorney in Lima.

Stackhouse, 45, served as director of agriculture under Rhodes from 1963-71 and since then as vice president of the National Agricultural Chemical Association in Washington, D. C.

Collier, 41, first budget director and later finance director in the previous Rhodes administration, has been a vice president of the Medical College of Ohio at Toledo since 1971.

Peltier, 57, commerce director under Rhodes from 1963-71, is an attorney and was a key campaign aide to Rhodes this year.

Duerk, 44, communications consultant for the Rhodes campaign and a former aide to U. S. Senator and Attorney General William B. Saxbe in Washington, served as press secretary to Rhodes from 1969-71. He also is a former public relations director for Republican State Headquarters.

Cook, 60, served as director of liquor control in the last Rhodes administration. Since 1971 he has operated as an industrial security consultant in Columbus. Cook is a former state highway patrolman, FBI agent and safety director for the City of Columbus.

Mrs. Evans, 69, was deputy director of industrial relations in the previous Rhodes administration. She has served as executive secretary of the Ohio Republican Council since 1952.

Jump, 59, clerk of the Ohio Senate since 1971, served as deputy insurance director under Rhodes during the last Republican administration. He previously

JAMES B. KENDRICK, JR.

Dr. James B. Kendrick is Vice President-Agricultural Sciences and Director of the Agricultural Experiment Station at the University of California. In this capacity he heads the University's Division of Agricultural Sciences which includes University and statewide research and extension programs conducted by personnel associated with the Agricultural Experiment Station and Cooperative (Agricultural) Extension Service. The Extension programs are conducted from the University Campuses at Davis, Berkeley, and Riverside, and the San Joaquin Valley Agricultural Research and Extension Center at Parlier, as well as in 54 of California's Counties. As Director of the Experiment Station, he is responsible for the research programs conducted by the Station personnel associated with the College of Agricultural and Environmental Sciences and School of Veterinary Medicine at Davis, the College of Agricultural Sciences and the School of Forestry and Conservation at Berkeley, and the College of Biological and Agricultural Sciences (and Citrus Research Center) at Riverside. The Agricultural Experiment Station, as an organization, also includes nine Field Stations located throughout California from Imperial County in the South to Siskiyou County in the North. Dr. Kendrick also represents the President's Office on the Universitywide Water Resources Center Coordinating Board as its permanent chairman.

Dr. Kendrick received his B.A. in a joint Botany-Genetics major in 1942 from the University of California at Berkeley and his Ph.D. in Plant Pathology from the University of Wisconsin in 1947 following two years of service in the United States Army during World War II. He was appointed to the University of California's Citrus Experiment Station staff at Riverside in 1947 as a Junior Plant Pathologist, advancing to Professor of Plant Pathology in 1961. He served as Chairman of the Department of Plant Pathology on the Riverside campus from 1963 to 1968

when he resigned to accept the position of Vice President-Agricultural Sciences in the President's Office in Berkeley. On July 1, 1973, the additional title of Director of the Agricultural Experiment Station was granted by The Regents in a move to streamline the administration of the Experiment Station.

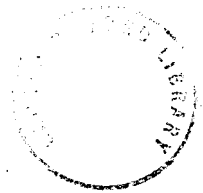

During his career with the University, he has served on and chaired numerous faculty and administration committees with both Campus and Universitywide responsibilities. Notable Universitywide responsibilities included service on Committees on Educational Policy, on Budget, on Capital Outlay, and on the Academic Senate's Academic Council. In 1967, he served as Vice Chairman of the Assembly of the University's Academic Senate.

Since 1968, he has been active in national agricultural affairs serving on several committees appointed by the Secretary of Agriculture as well as Chairman of the Council of Administrative Heads of Agriculture and Chairman of the Division of Agriculture both in the National Association of State Universities and Land Grant Colleges. He has been a member of the California State Board of Agriculture since 1968.

As a professional plant pathologist, Dr. Kendrick has authored numerous articles on the chemical treatment of plant diseases, air pollution damage to plants, and the nature and control of root diseases of vegetable crops. In 1961-62, he was selected as a National Science Foundation Senior Post-doctoral Fellow for studies at Cambridge University and the Rothamsted Experiment Station in England. He is a member of the American Phytopathological Society and has served that Society as an associate editor of its journal "Phytopathology", Chairman of its Constitution and By-Laws Revision Committee, and an at-large-elected member of the Governing Council. He is also a member of the International Society of Plant Pathology and one of the U.S. members on that Society's Governing Council. He is a member of the American Association for the Advancement of Science. He is a member of Sigma Xi (an honorary professional science research society) and Phi Beta Kappa (an honorary undergraduate scholarship society).

James H. Meyer Named UC-Davis Chancellor

UC-Davis

4/1/69

Bigg NASULGC

DAVIS—James H. Meyer, dean of the College of Agricultural and Environmental Sciences at the University of California, Davis, will succeed Emil M. Mrak as Davis chancellor on July 1.

"From the start, it was apparent that we would have to find a man of extremely high caliber to replace Emil Mrak as Chancellor at Davis and in James Meyer we have found that man." President Charles J. Hitch said.

Born in Fenn, Idaho, in 1922, Meyer graduated from the University of Idaho in 1947. He received his master's and doctor's degrees in nutrition from the University of Wisconsin in 1949 and 1951, respectively. In 1951, he joined the staff at Davis as an instructor in

James H. Meyer

animal husbandry. In 1962 he was promoted to professor of animal husbandry, and served as chairman of his department from 1960 to 1963, when he was named dean of the College of Agriculture. He served on the National Commission on Undergraduate Education in Biology in 1965-68, and as assistant editor of the Journal of Animal Science in 1963-64.

Since 1963, the College has undergone many changes, including a name change to Agricultural and Environmental Sciences.

"The major concern of the teaching and research program of the College is people—population pressure—and its impact upon food requirements and the quality of the

environment. These are all matters of public concern," said Meyer in describing the changes. "From this, the mission is to develop, integrate, and apply knowledge through teaching and research to—

- (1) insure an adequate food and fiber supply,
- (2) develop and conserve renewable natural resources, and
- (3) improve the quality of physical and social environment of California."

The teaching program changes have included expansion in the social sciences and humanities requirements and the addition of new teaching programs in resource sciences, agricultural sciences, and family and consumer sciences, with an increased emphasis on the environment.

"An example of courses expressing the College's interest in matters of social concern are such courses as agricultural labor; housing, community development; the disadvantaged—issues and innovations; man, work, and technology; protecting the quality of environment; and food habits and culture," said Meyer.

The College's research programs are a continuum from resources to production to processing to distribution to man, the user, he said.

Meyer's own research activities have included studies of the nutritional requirements of beef cattle, and he headed a team that has received national recognition for developing a new method of rapidly assaying the value of alfalfa hay through chemical analysis. He received the American Feed Manufacturers' Association Animal Industry Award in 1961.

Chancellor Mrak will retire July 1 after 10 years as UCD chancellor and 32 with the University. A native Californian, he graduated from UC-Berkeley in 1926 and also earned his master's and doctor's degrees there. He was a faculty member on the Berkeley campus until he moved to Davis in 1951 to serve as chairman of the food technology department, a position he held until he was named UCD chancellor in 1959. Mrak, a world authority on food problems, has received numerous awards for his work.

Chancellor Daniel G. Aldrich, Jr.
10/25/74

Biographical information of
CHANCELLOR DANIEL G. ALDRICH, JR.
University of California, Irvine

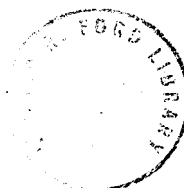

Dr. Daniel G. Aldrich, Jr., first Chancellor of the new University of California, Irvine, joined UC as a junior chemist in the Citrus Experiment Station at Riverside in 1943. He progressed to Professor of Soils and Chemist in the Agricultural Experiment Station, and Chairman of Soils and Plant Nutrition on the Davis and Berkeley campuses. In 1958 he was named Dean of the University of California's Division of Agricultural Sciences.

The Board of Regents of the University named Dr. Aldrich as Chancellor of UC Irvine on January 19, 1962, with responsibility for developing the campus from bare ground to a fully-operating institution by September 1965.

Dr. Aldrich was born at Northwood, New Hampshire, July 12, 1918. He is an alumnus of the University of Rhode Island College of Agriculture at Kingston, B.S., 1939; the University of Arizona, M.S., 1941; and the University of Wisconsin, Ph.D., 1943.

Among Dr. Aldrich's community interests are active participation in church and youth groups. He is a director of the Council of Arts of Orange County Coastal Area, the Orange Empire Boy Scouts, the Orange County Philharmonic Society, the Big Brothers of Orange County, and the Orange County Coast Association. He is an honorary sponsor of the Orange County Society for Crippled Children and Adults.

Other Profes-
sional Activities
(Illustrative)

Chairman, Division of Agriculture, National Association of
State Universities and Land Grant Colleges

Member, President's Science Advisory Committee on World Food
Problem (1966-1967)

Traveled in more than 50 countries. Served on key advisory
commissions and committees of the National Academy of Sciences,
the American Council on Education, the Southern Regional Educa-
tion Board, the National 4-H Foundation

(TAMPA, FLA.)--Dr. E. T. York, Jr. today (Jan. 11) was named by the Florida Board of Regents to succeed Robert Mautz as Chancellor of the State University System (SUS) of Florida. York's selection was announced at the Board's monthly meeting in Tampa.

According to Board Chairman Marshall Criser, York will continue as Interim President of the University of Florida until later this summer, after which he will serve as Chancellor-Designate. He will assume the office of Chancellor on July 1, 1975, the announced date for Mautz' retirement.

"Within our own system E. T. York has demonstrated that he is an effective administrator of exceptional ability and of the highest integrity. He enjoys state-wide respect and support from alumni of all the universities and the Board has utmost confidence in his ability," said Criser.

As Chancellor, York will be the chief administrative and executive officer of the SUS. He will be responsible for the overall program coordination and policy supervision of the System's nine member institutions, including the University of Florida, in Gainesville; Florida State and Florida A&M Universities, both in Tallahassee; the University of South Florida, in Tampa; Florida Atlantic University, in Boca Raton; Florida Technological University, in Orlando; Florida International University, in Miami; the University of West Florida, in Pensacola; and the University of North Florida, in Jacksonville.

In accepting the post, York said that higher education in Florida is facing one of its most challenging periods. He pointed to the likelihood of a leveling off in student numbers in colleges and universities during the next decade, and discussed some of the implications for the SUS.

"The absence of great pressures of the past to accommodate more students presents Florida with the opportunity to concentrate on further improving the quality of our institutions and their programs," York emphasized.

"This state can afford, and I believe the people of Florida want and deserve, a system of public higher education which ranks among the most outstanding in the nation," he added.

York said that as Chancellor-Designate he will spend several months studying Florida's State University System, as well as other systems and programs throughout the country, to gain the broadest possible perspective of higher education problems and potentials.

A native of DeKalb County, Alabama, York, 51, is a veteran administrator in both government and education. After serving as Administrator of the Federal Extension Service, U.S.D.A., he came to Florida in 1963 as Provost for Agriculture at the University of Florida. In 1971, his title was changed to Vice President for Agricultural Affairs. In March 1973, he was named Executive Vice President and since last September, York has served as Interim President of the University of Florida, following the retirement of Stephen C. O'Connell.

York holds B.S. and M.S. Degrees from Auburn University and the Ph.D. Degree from Cornell, and has studied law at George Washington University. He has also held teaching, research, and administrative responsibilities at both North Carolina State and Auburn Universities.

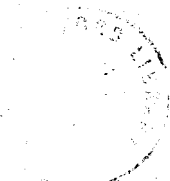

Generally regarded as one of the top educational administrators in the nation, York has been given major assignments by Presidents Kennedy, Johnson, and Nixon. He has traveled in more than 50 foreign countries and has served as a consultant for the U. S. State Department, the Agency for International Development, and foreign governments in the fields of education, agriculture, and economic development.

York has been a frequent advisor to many national scientific and educational groups and has extensive policy-making service on key boards, commissions, and committees of the National Academy of Sciences, the American Council on Education, the U. S. Department of Agriculture, the Southern Regional Education Board, the National Association of State Universities and Land-Grant Colleges, the National 4-H Foundation, the National 4-H Service Committee, and the Southern Interstate Nuclear Board.

York has received numerous awards of state, national, and international prominence, including the Gamma Sigma Delta Honor Society International Award for Distinguished Service. He is the author of more than 100 papers in educational and scientific journals, books, and periodicals, and has spoken or lectured in more than 40 universities in the United States and abroad.

In civic activities, York has served as president of the Gainesville Rotary Club, president of the Alachua County United Way, president of the Alachua County Voluntary Action Center, and as a board member of the Alachua County Chapter of the American Red Cross. He has also served as chairman of the Board of Deacons of the First Baptist Church of Gainesville.

York is married to the former "Vam" Cardwell of Evergreen, Alabama. The Yorks have two children: Lisa, 12; and Travis, 9.

SOUTHERN ILLINOIS UNIVERSITY
Carbondale, Illinois
Phone: (618) 453-2276

CARBONDALE, ILL., July --Gilbert H. Kroening, native of Altamont, Ill., will return to his alma mater, Southern Illinois University, Aug. 1 as associate professor of animal industries and assistant dean in the School of Agriculture. He will come to the new assignment from Washington State University, Pullman, where he has been assistant professor of swine production since 1964.

In his new assignment at Southern, Kroening will be concerned primarily with supervising the University Farms and also will do some teaching, research, and supervision of graduate students in animal industries. In the supervisory work he will take over the duties of William Doerr, instructor of agricultural industries, who is moving into a teaching and research assignment.

Kroening is a 1959 graduate of Southern Illinois University, majoring in animal industries. While at Southern he was active in student organizations, was a member of Alpha Zeta, honorary scholastic fraternity in agriculture, and was chosen the outstanding senior in agriculture. He received his master's degree in animal industries at SIU in 1960, holding a research assistantship. He continued graduate study at Cornell University, Ithaca, N.Y., holding a graduate assistantship and specializing in animal nutrition. He received his Ph.D. degree at Cornell in 1965 after taking his present position at Washington State.

He is a member of the American Society of Animal Science, Sigma Xi, scientific society, and other organizations. He and his wife, Jean, have one son, three years old, and two daughters, five and one years.

CARBONDALE, ILL., Apr. --Gilbert H. Kroening, a native of Altamont, Ill., has been approved by the Board of Trustees of Southern Illinois University to become dean of the School of Agriculture at SIU at Carbondale July 1, 1974, succeeding Dean Wendell E. Keepper who has announced his retirement after 24 years at SIU.

Kroening joined the SIU faculty in 1969 as assistant dean for research and associate professor of animal industries in the School of Agriculture. In that assignment he has been concerned mainly with the School's research programs and with supervising the University Farms. He came to SIU from Washington State University at Pullman where he had been a swine production specialist and assistant professor since 1964.

Kroening received his bachelor's and master's degrees in agriculture from SIU-C in 1959 and 1960, respectively. He received a Ph.D. degree in 1965 from Cornell University with specialization in animal nutrition.

KOLMER, DR. LEE R., Dean College
of Agriculture
IOWA STATE UNIVERSITY (Ames, Iowa)

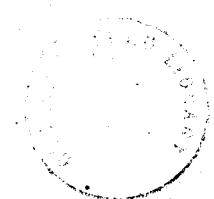

LEE R. KOLMER

June, 1974

Dr. Lee R. Kolmer is dean of the College of Agriculture at Iowa State University. He assumed his duties in March of 1973, coming from Oregon State University, Corvallis, Oregon, where he had been associate dean of the College of Agriculture since 1971.

He was born in Waterloo, Illinois. He received the bachelor of science degree from Southern Illinois and the master's degree from Iowa State University, both in 1952, and the Ph.D. degree in 1954 from ISU.

Dean Kolmer was on the staff of Southern Illinois University before returning to Iowa State in 1956. At ISU, he has been an extension economist and assistant dean, University Extension. He left Iowa State University in 1971 to become associate dean of the College of Agriculture and Director of Cooperative Extension, Oregon State University.

November, 1971

W. ROBERT PARKS

W. Robert Parks became the 11th president of Iowa State University when he assumed the position on July 1, 1965.

Dr. Parks first came to Iowa State in 1948 and served as professor of government until 1956. After two years as professor of agricultural economics at the University of Wisconsin, he returned to Iowa State in 1958 as dean of instruction. At Wisconsin he also was chairman of graduate training in the National Agricultural Extension Center for Advanced Study.

In 1961 he became vice-president for academic affairs. In that capacity he coordinated and administered the academic program of the University.

Dr. Parks received the B.A. degree from Berea College in Kentucky in 1937, the M.A. from the University of Kentucky in 1938 and the Ph.D. from the University of Wisconsin in 1948. All degrees were awarded in political science, with a minor in economics.

The University of Kentucky presented a Distinguished Alumni Award to him in 1965 and Berea College awarded him an honorary doctor of laws degree in 1966. Westmar College conferred an honorary doctor of humane letters and Drake University awarded an honorary doctor of laws in 1968.

At spring commencement exercises in 1969, Iowa State students made him an honorary member of the graduation class in recognition of his completion as four years as University president. Two weeks later the Alumni Association designated him as an honorary alumnus of Iowa State, the second person ever to receive the honor.

From 1940 to 1948, with the exception of nearly three years in the U. S. Navy, he served in a research and administrative capacity in Washington, D. C., with the Bureau of Agricultural Economics. He attained the rank of Lt. (j. g.) in the Navy.

Dr. Parks is the author of a book on soil conservation, contributor to several other books and author of a number of professional articles and monographs in the general areas of educational policy and agricultural economics and public policy.

Dr. Parks was president of the Mid-America State Universities Association in 1966 and serves on the executive committee of MASUA. He is a member of Phi Kappa Phi national honorary scholastic fraternity, Pi Sigma Alpha national political science fraternity, Pi Gamma Nu national honorary social science fraternity, American Political Science

Association, Midwest Political Science Association and American Farm Economics Association. Cardinal Key, men's honorary at Iowa State tapped him for membership in 1966.

In 1971, he was named president-elect of the National Association of State Universities and Land-Grant Colleges. He will become president at the organization's annual meeting in 1972.

In 1966, President Parks was appointed to a national committee sponsored by the National Association of State Universities and Land-Grant Colleges and the U. S. Department of Agriculture, to make a study of the Cooperative Extension Service. For his work as co-chairman of the study, Dr. Parks was cited by Epsilon Sigma Phi, national extension fraternity. In 1967, he was elected to the board of directors of the Northwestern Bell Telephone Co.

He is a past chairman of the Council of Presidents, National Association of State Universities and Land-Grant Colleges, and a member of the executive committee of that association.

He is a director of the National Center for Voluntary Action established by President Nixon and chairman of the Vocational Rehabilitation and Education Advisory Committee appointed by Donald E. Johnson, administrator of the Veterans Administration. Dr. Parks is a member of the Board of Directors of the Farm Foundation and former president of the Association of Iowa College Presidents.

In 1970, the Government of the Student Body presented a President's Award to him for "outstanding contribution to the educational, social and cultural well-being of the students of Iowa State University."

He was born Oct. 13, 1915, in Lincoln County, Tennessee, and is married to the former Ellen Sorge of Madison, Wisconsin. The day on which he became president, July 1, 1965, also was the 25th wedding anniversary for Dr. and Mrs. Parks. They have two daughters, Andrea, a 1965 graduate of Iowa State, who is married and lives at Ithaca, New York, and Cindy, an Ames high school student.
