From: Terry O'Donnell ^{TOO}

BACKGROUND

You, Mrs. Ford and Jack Ford will proceed by helicopter to Andrews AFB, departing the South Lawn at 8:05 a.m. The VP and Secretary Kissinger will accompany you. Upon arrival at Andrews, you proceed to an "airport stand" located in front of the press area to make departure remarks. Following your remarks you will board AF-1 for departure en route Bonn, Germany. Flying time: 7 hours 15 minutes. Time Change: +5 hours. Distance: 4,100 miles.

BONN ARRIVAL CEREMONY

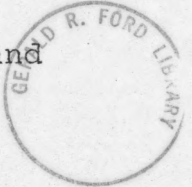

The arrival at Bonn/Cologne Airport will be at 8:45 p.m. local. You will be met by Chief of Protocol and Mrs. Franz-Joachim Schoeller and Ambassador and Mrs. Martur J. Hillenbrand. Ambassador Schoeller will serve as your escort throughout your visit in Germany. There will be no formal ceremony and no remarks at the airport. The formal "arrival ceremony" will take place Sunday morning. After passing through a cordon of troops you will board a helicopter for the 35 minute flight to the Noervenich helopad where you will board a motorcade for a 15 minute ride to Schloss Gymnich, your residence. The remainder of the evening is free. Jack is scheduled to go boar hunting at 3:00 a.m. with Baron von Harrlach.

SCHLOSS GYMNICH

Schloss Gymnich is a moated castle with beautiful grounds which dates back to the Twelfth Century. The present owner and occupants, Baron Joerg Holzschuher von Harrlach, and

his wife, the Baroness, are distant relatives to the original Baron of feudal times. The castle has been leased to the Federal Republic of Germany for a period of eight (8) years, and is used alternatively between the Baron and his family, and visiting dignitaries. It is also the site of international conferences. The castle was "volunteered" to the German Third Reich during World War II, and on VE Day was occupied by the German High Command for the Luftwaffe. The property was returned to the Baron and his family after post war adjustments.

The Castle has been destroyed and rebuilt several times and today combines Gothic, Baroque and Rococo elements. The Knights of Gymnich, named after their Castle, won fame during the crusades and played a key role.

CITY OF BONN - The city originated at the time of the Roman general, Drusus, in 12 B.C. The city rights were confirmed in 1244. Afterwards, it was the residence of the Cologne Electors -- Archbishops. Important Baroque buildings originate from this period, e.g. today's university buildings and the Poppelsdorf Schlob. In 1815, Bonn became Prussian, after a short period of French rule. The Rhenish Friedrich Wilhelm University was founded three years later. The city was badly damaged by air raids during the Second World War. The Parliamentary Council met in Bonn from September 1948 to May 1949. This body passed the Basic Law for the Federal Republic of Germany on May 8, 1949, and in the same year, Bonn became the provisional Federal capital. Bonn is noted for the Beethoven Festival, which is held every year, and has the most modern theatre building in Germany, opened in 1965. The population of Bonn is 300,000.

Attached at TAB A are maps of Europe, Germany and Bonn.

THE PRESIDENT AND MRS. FORD'S VISIT
TO THE FEDERAL REPUBLIC OF GERMANY,
POLAND, FINLAND, ROMANIA, AND YUGOSLAVIA

SUNDAY - JULY 27, 1975

DAY #2

From: Terry O'Donnell

BACKGROUND

SUMMARY

Sunday morning at 8:45 a.m., you and Mrs. Ford will depart the Residence, motorcade to the helopad, then fly to the Palais Schaumburg for the arrival ceremony (no remarks). Following the ceremony, you proceed inside the Palais to meet first with Chancellor Schmidt, then in an expanded session, meet with the U.S. and German counterparts. At the conclusion of the expanded counterparts' meeting, you and the Chancellor will step outside to the terrace to deliver remarks.

After the ceremony, Mrs. Ford will attend a tea with Mrs. Schmidt at the Tea House near the Palais, then attend a luncheon hosted by Mrs. Scheel at the Villa Hammerschmidt.

You proceed from the Palais to Kirchgoens via helicopter to attend the 3rd Armored Division Joing FRG/US Military picnic where you will also deliver remarks. Following the picnic, you return to your residence, dress for dinner (Black Tie) and depart via motor cade and helicopter for Villa Hammerschmidt for a brief meeting (courtesy call) with President Scheel. After the courtesy call, you depart via motorcade for the President's dinner cruise down the Rhine River (Toast required), then return to your residence and remain overnight.

PALACE SCHAUMBURG

Built in 1859 as the retirement residence of a banker, the Palace was purchased in 1890 by Prince Adolf Wilhelm Victor of Schaumburg-Lippe, who was married to the Princess Friderike Amalie Wilhelmine Viktoria, the sister of Emperor Wilhelm II. The building was bought by the German government shortly before the Second World War. After the war the Palace served temporarily as a Belgian staff headquarters. Two days after Bonn had been chosen as the provisional Federal capital, the Palace was designated as the official residence of the Federal Chancellor and remodeled to serve this purpose.

VILLA HAMMERSCHMIDT

Built in 1860 as the residence of a millionaire and changed hands several times. After the war the villa was taken over by the occupation authorities. The property was purchased in 1950 by the Federal Republic of Germany. It was remodeled and in 1951 occupied by the first Federal President, Professor Theodor Heuss. Since that time the building has been the official quarters of the Federal President, and its current occupant is Federal President Walter Scheel.

KIRSCHGOENS - JOINT FRG/US MILITARY PICNIC

The history of the First Brigade Summer Picnic can be traced back to the early formation of the U.S. Land Armed Forces. As early as the 18th Century, units celebrated the organization of their unit. The gathering became more formalized with the establishment of the Regimental Unit System. Following World War II, the Regimental System was disbanded in the Army with the exception of the Cavalry Regiment. The elements that were left after the Regiment was split were referred to as Battalions. These Battalions continue the tradition of holding an organization day, though it may not, in some cases, be held on the exact day of founding. From this tradition comes the 1st Brigade, 3rd Armored Division Summer Picnic. It is an annual event which allows the members and families of all the Battalions in the Brigade to "get together".

The stated goal of "Project Partnership" is to increase mutual understanding among NATO soldiers by increasing soldier-to-soldier contacts. Some 150 NATO units are involved in the Project's "sister unit" program.

AYERS KASERNE

The 1st Brigade, 3rd Armored Division, is the major unit located at Ayers Kaserne in Kirschgoens, Germany. The kaserne was built on what was Hessian farmland until it was taken over by the German Luftwaffe (Air Force) in the 1930's as an airfield. The air strip and support facilities were completely destroyed in air raids during World War II. Ayers Kaserne, built in 1952, under the direction of the US Army, was named in honor of SSG Lovel E. Ayers of Company B, 22nd Infantry Regiment. He was killed in action near Prum, Germany, and was posthumously awarded the Distinguished Service Cross.

RHINE RIVER CRUISE

President Sheel's dinner will be held on the MS DRACHENFELS, owned by the Cologne-Duesseldorfer Company. The MS DRACHENFELS was built in 1961 in Cologne and cost about \$3 million. It is one of the largest passenger boats in Europe and can carry 3,200 passengers standing, or 1,200 seated. The ship is 297' long, 51' wide, and has a draft of 4.8'.

When President Scheel was inaugurated in 1974 an inauguration party was held aboard the MS DRACHENFELS. In 1965 when Konrad Adenauer died the ship carried the former Chancellor's body from Cologne to his home at Rhoendorf. Other highlights of the DRACHENFELS' history include a meeting of the European Economic Council on board in 1961 and a cruise by President De Gaulle of France in 1962.

The Captain of the MS DRACHENFELS is Captain Holst VON DER WERTH. Capt. von der Werth was born in East Germany and is 43 years old. He has worked for the Cologne-Duesseldorfer Company since 1953 and first held the position of Captain in 1965. He is married, has 1 son and his family lives in Cologne.

The Koeln-Duesseldorfer River Company, owner of the MS DRACHENFELS, is based in Cologne and next year will celebrate its 150th anniversary. The company operates 24 passenger boats plus a hydrofoil build in Russia. K/D employs about 500 people and is the largest firm of its type in the FRG.

- From Bonn upstream to Bad Breisig (the turnaround point):
 - . Bad Godesberg on right, with castle on hill. (The US Embassy is located in Bad Godesberg and can be seen near the river edge.)
 - . Konigswinter on left, the most popular tourist region of the Rhine. Famous for hiking; several castles on hills; most famous one is ruins of Drachenfels (same name as boat on which tour is being made) which was Snow White's castle; also Petersburg castle, used for state visit residence.
 - . Bad Honnef on left, famous watering spot for persons with stomach and intestinal disorders and circulation problems.

- . Nonnenwerth island on right across from Bad Honnef, with an old (from 1122) monastery.
- . Banks of river on left (eastern side), from Drachenfels upstream, begin the famous Rhine vineyards. Drachenfels area is farthest north vines can be cultivated in Germany.
- . Unkel on left, a famous resort spot with important vineyards and an impressive view from the tops of the Seven Hills.
- . Remagen, on right, a Romanic-origin town, famous for the bridge that was the first to fall into the hands of the Allies in 1945 and led to a major Rhine crossing during the assault on the German heartland. The bridge has been since destroyed but its pilings and towers remain and are obvious.
- . Erpel, on left, across from Remagen is notable for the 153-foot high cliff that towers over the river and stands above the spot where the bridge connected to the eastern bank.
- . Linz on left, the spot of a Presidential stop, is a famous town known for the remains of many middle ages and 17th-18th century buildings. It is 1,100 years old (1974). Remains of the old city walls can be seen. The church on the hill was begun in the 14th century. The population of Linz is about 6,000.

THE RHINELAND

The Rhine River originates in Switzerland and flows for 820 miles along the French-German border, through Germany and Holland before emptying into the North Sea. It is one of the most beautiful and popular tourist regions in the world, particularly the portion which passes through Germany. It is navigable for 500 miles and is the greatest European artery of waterborne traffic. Since the Treaty of Vienna in 1815 it has been an international waterway. The Rhine is the heart of the FRG's 3,700 miles of inland waterways and carries 75% of her inland water transport. Barges of up to 1,500 tons utilize it.

The Rhine is the largest major river in the world which flows from south to north, so that when one refers to going "upstream" on the Rhine he is talking about going south toward the Swiss border. The current is extra strong and runs about 9 knots with increased velocity in the narrow turns, of which there are many. The river winds like a snake throughout Germany.

Because of the current, industrial development which has contributed to pollution, and the vast amount of commercial barge and tourist boat traffic on the river, swimming is not advisable. Small boating is not the rule either, except for kayaks. One of the most colorful sights on the river, therefore, is the picture of long barges (on which families live) from Switzerland, Germany, and the Netherlands and other European countries plying the waters with their trade. An onlooker will note the difficulties many boats have in traversing the current upstream and the relative ease with which they head north.

The Rhine wines are world famous (most notable the Reislings, Sylvaners, and Traminers) and are somewhat sweeter in taste than the Mosels. The Mosel River meets the Rhine at Koblenz, further upstream from Remagen and not visited on the Presidential trip. Of interest is the fact that in German the Mosel is a "female" river (die Mosel) and the Rhine is "male" (der Rhine). When they meet at Koblenz you have what may be the world's only river marriage.

At Linz, it is expected that the wine offered the President will be a local (Linzer) wine in the city's large ceremonial cup. It is expected that President Scheel will also be offered wine from the same cup.

THE WHITE HOUSE

WASHINGTON

THE PRESIDENT AND MRS. FORD'S
VISIT TO THE FEDERAL REPUBLIC OF
GERMANY, POLAND, FINLAND, ROMANIA
AND YUGOSLAVIA

MONDAY - JULY 28, 1975
DAY # 3

From: Terry O'Donnell

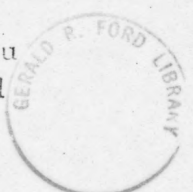

BACKGROUND

Your first day in Poland will be an extremely active day involving a back-to-back sequence of events and meetings with little personal time. The pace of the schedule will be maintained throughout your visit to the non-aligned countries and is reflective of their desires to maximize your exposure throughout their countries and to their people.

ARRIVAL CEREMONY

The arrival ceremony, similar to the others in which you have participated throughout Europe, will include Anthems, review of the troops, introductions and remarks. Unique at this ceremony will be an opportunity to greet several thousand citizens who will be on hand to witness the ceremony.

From the arrival ceremony, you will proceed to Wilanow Palace (your residence) for a brief ceremonial gathering of the official parties. En route, the motorcade will stop in two or three crowd locations where you and the First Secretary will have an opportunity to get out of the car and greet the citizens. After spending five or ten minutes with the official parties at Wilanow, you will escort Mrs. Ford to your quarters for a moment prior to your departure for the Wreath-Laying Ceremony at the Tomb of the Unknown Soldier. This separation from your guests is necessary to enable First Secretary and Mrs. Gierek to leave the Palace grounds prior to your departure.

TOMB OF THE UNKNOWN SOLDIER

Of the three principal monuments of the city, only the Tomb of the Unknown Soldier pays tribute to all Poles. The other two which you will not visit, the Nike Monument and the Ghetto Monument, pay tribute to the Warsaw Resistance Movement and the Jewish Ghetto resistance. The Tomb stands beneath the shattered remnants of the former Ministry of Defense Building which was totally destroyed during World War II. The Tomb contains symbolic samples of earth from the forests and cities of Poland as well as from the battlefields of the second World War.

FIRST SECRETARY GIEREK'S LUNCHEON

Following the Wreath-laying Ceremony, you will rejoin Mrs. Ford at the Palace of the Council of Ministers where you will participate in an official reception and luncheon. A toast will be required. Following luncheon, you proceed to the garden area for a concert featuring traditional Polish songs and dancing.

TOUR OF OLD TOWN

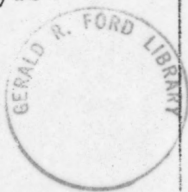

After the luncheon, accompanied by Mrs. Ford, you proceed directly to Old Town where you will take a walking tour of this historic Market place and stop by a gift shop on Market Square where you may wish to purchase some traditional Polish handicrafts. Old Town dates back to the earliest foundations of the city of Warsaw. As was much of Warsaw, it was almost totally destroyed during the Second World War and was subsequently rebuilt in its original style based on photographs, paintings, and architectural designs from the city's archives.

MEETING WITH FIRST SECRETARY GIEREK

After the tour of Old Town, you will meet with the First Secretary at the Parliament Building (SEJM). Your initial head-to-head meeting will expand to include counterparts and culminate in a Signing Ceremony.

WILANOW PALACE DINNER

You and Mrs. Ford will host an official dinner at your residence for approximately 36 guests. Toasts will be included. In bidding farewell to the First Secretary and Mrs. Gierek, you might make mention of the fact that you will be greeting them upon your arrival at Krakow.

TUESDAY - JULY 29, 1975
DAY # 4

From: Terry O'Donnell

BACKGROUND

Since the First Secretary and Mrs. Gierek will have departed by plane at 8:40 a.m. in order to be in Krakow to receive you upon arrival, there will be no Warsaw departure ceremony. You will merely ride to the airport with Chairman of the Council of State Jablonski who, along with Mrs. Jablonski, Chairman of the Council of Ministers Jaroszewicz and Mrs. Jarosewicz, and Ambassador Lewandowski will accompany you aboard Air Force One to Krakaw.

ARRIVAL CEREMONY - KRAKOW

This will be an informal ceremony. You will be greeted by First Secretary and Mrs. Gierek and other Polish officials. You and the First Secretary then board your helicopter en route Oswiecim. (O-SHFIN-SIM).

WREATH-LAYING CEREMONY AT OSWIECIM INTERNATIONAL MONUMENT

In referring to this International Monument, you should remember to use the Polish name OSWIECIM, not the German name Auschwitz. You will lay a wreath, observe a moment of silence, view the memorial plaques along the departure route, and sign the visitor's book. You then bid the First Secretary goodbye, board your helicopter and depart en route the Institute of Pediatrics of the Medical Academy of Krakow. Chairman Jablonski will accompany you.

Of the suffering and tragedy of World War II, Oswiecim has been preserved by the Poles as a reminder of the four million persons, representing 28 nationalities, who died after the concentration camp opened in June, 1940. Actually, Oswiecim consisted of three camps and 39 sub-camps. Over 12,000 persons died daily at the peak of the Nazi exterminations, a "Martyrdom Museum" exists along with other graphic exhibits of the human devastation which occurred there. The Monument "to the victims of Warsaw" created by Polish and Italian architects and unveiled in 1966, is located at Camp "Birkenau". The nearby city of Oswiecim is a small industrial center (Population: approximately 50,000) at the confluence of the Sola and Vistula Rivers, about 35 miles from Krakow.

TOUR INSTITUTE OF PEDIATRICS OF THE MEDICAL ACADEMY OF KRAKOW

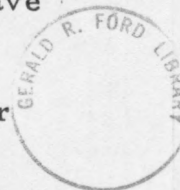

The Krakow Pediatrics Hospital, constructed with the assistance from private American groups and with funds from the Agency for International Development, celebrates its 18th anniversary late this year. The 300-bed pediatric Hospital and Research Center was opened in 1965 under the director of the Medical Academy in Krakow. Last year, AID funds made it possible to open a new research wing at the hospital. Since its opening over 500,000 patients have been treated and the research wing is conducting studies and researching serious childhood diseases. It is anticipated that additional American assistance will support the construction of a 300-bed rehabilitation center in the future.

Upon your arrival at the Institute, you and Chairman Jablonski will be greeted by a delegation of hospitalized children who will present you with flowers, and Rector Popiela will present a medal and scroll. You then tour a ward and proceed to your motorcade, and depart en route Market Square.

En route the Square, you will stop at a designated point to meet Secretary Gierek who will then accompany you in your car.

MARKET SQUARE

This main square is the center of the commercial and cultural life in Krakow and is associated with many important events in Poland's history. You will arrive and travel around the periphery of the Square in your vehicle. Following an introduction by First Secretary Gierek, you make remarks to the crowd and depart.

LUNCHEON AT WAWEL CASTLE

Following your remarks at the Square, you depart via motorcade en route Wawel Castle where you rejoin Mrs. Ford and Jack Ford and attend a luncheon hosted by Chairman of the Council of Ministers and Mrs. Jaroszewicz. Following your introduction by Chairman Jaroszewicz, you will offer a toast.

Wawel is the largest and most impressive of all Polish Castles. The former residence of Polish Royalty combines a Gothic Renaissance castle and a Gothic Cathedral erected on a fortified Hill (781 feet high) overlooking the Vistula River. A settlement has existed at this location since prehistoric times. In the 12th century, the area became an aristocratic and royal residence. The present Cathedral building (the third in succession) and the Castle were constructed in the 15th century. The Cathedral, encircled by 18 chapels, contains the sepulchres of many Polish Kings, as well as those of the Polish literary masters Adam Mickiewicz and Juliusz Slowacki.

DEPARTURE CEREMONY

Upon conclusion of the luncheon, you and the First Secretary board your car and depart en route Krakow Airport. The departure ceremony includes the playing of the anthems and review of the honor guard. You then bid farewell to First Secretary and Mrs. Gierek and the other Polish dignitaries, board Air Force One and depart en route Helsinki.

(No response by President Kekkonen is expected.) You then take your leave of President Kekkonen, board your motorcade and depart en route the American Embassy Residence.
