H.S. Knight, Director
United States Secret Service
Suite 800

Washington, D.C. 20223

Dear Mr. Knight:

Tom Wolf, my Special Assistant for Presidential Materials, has reported to me regarding the meeting of this date with Mr. Casselman and representatives from your office. At that time, mutually agreeable arrangements regarding the security of the Nixon Presidential Materials which are under GSA custody but are stored in the Old Executive Office Building were developed. I understand these arrangements are subject to my approval and our formal request for your participation.

GSA will implement the following steps:

1. Put a medeco lock system on all doors leading to the Nixon Presidential Materials. Two keys will exist. One will be in the possession of Mr. Wolf; the other will be "under glass" with the EPS, as in the past.
2. Two members from the Office of Presidential Materials, which is under the supervision of Mr. Wolf, will check all doors leading to the Nixon Presidential Materials under GSA custody at approximately 9 a.m. and 5 p.m. each day and maintain a signature log of these checks.

Once GSA has initiated the twice-a-day door checks as described above, the Executive Protective Service would then assume responsibility for monitoring and immediately reporting to GSA (Mr. Wolf or Mrs. Karabatsos) any tampering with or opening of any of the doors described above which might occur

between 5:30 p.m. and 9 a.m. on weekdays and during any time on the week-ends or holidays. Since approximately 50 percent of the rooms containing Nixon Presidential Materials are currently EPS-alarmed or will shortly be alarmed (per your memo to Mr. Casselman of April 30, 1975), there would only be five suites (a total of 11 doors) which will require this type of monitoring. A coded identification for these doors will be established.

At the time that EPS assumes responsibility for this night-time and week-end monitoring, we would, of course, withdraw our current FPS patrols, which all parties agree are most cumbersome and expensive.

The above-outlined procedures meet with my approval, and I hereby request your participation as outlined. Thank you for your continued cooperation.

Sincerely yours,

Arthur F. Sampson
Administrator

Dear Mr. Sampson:

I have reviewed your letter of April 2, 1975, and am pleased that you have agreed to a more practical and inexpensive method of satisfying your security needs for storage of the Nixon Presidential Materials.

As agreed upon in a meeting with Mr. Wolf, no overt monitoring actions will be taken by EPS once FPS officers are withdrawn. They will be instructed to contact Mr. Wolf immediately if during their routine course of business they note, or it is brought to their attention, a room containing Presidential Materials under Mr. Wolf's control is not secured.

Sincerely,

FROM: Thomas P. Wolf *Thomas P. Wolf*
Special Assistant to the Administrator
for Presidential Materials

SUBJECT: Security of Nixon Presidential Materials

This will confirm the meeting held with Mr. Dennis Brosan earlier today.

As of the delivery of this memo to you, all the rooms containing Nixon Presidential Materials under the custody of GSA in the Old Executive Office Building have been "signed" so that EPS officers making their normal patrols will be automatically conscious of which rooms require particular surveillance.

Those rooms identified "PP*" are EPS-alarmed and probably require no additional attention since any unauthorized access would immediately set off alarms in the Control Center (058).

The rooms identified "PP" (15 doors) are not alarmed because of the lower level of sensitivity of the materials contained in these rooms. However, they are also under court order. Consequently, these are the rooms which particularly require the attention of the EPS patrols.

Upon delivery of this memo to you, we are withdrawing our FPS patrols, but we will continue our twice-a-day (on normal working days) door checks at 9 a.m. and 5 p.m. The log verifying these checks will be maintained in the Office of Presidential Materials, Room 487, Old Executive Office Building and are available for your inspection at any time during working hours.

Dear Mr. Knight:

This is to inform you that Special Agent Jack Reedy has purposely and maliciously interfered with this unit's work on behalf of Counsel to The President, Philip W. Buchen.

Since 9:30 a.m., May 8, 1975, he has prevented myself and authorized archivists from obtaining access to the vault in room 84. He has failed to keep his appointments with us or to return our phone calls.

Consequently, it has become impossible for us to perform work assigned to us, which he knew was of the utmost sensitivity and urgency.

I hereby request that you take immediate action to eliminate interference with our authorized work.

Sincerely,

MEMORANDUM TO: Philip W. Buchen

FROM: Thomas P. Wolf *Tom Wolf*

Bill Casselman said to me last night that "Phil was hopping mad about your memo to the Secret Service; after all, you are his agent in this project."

Assuming he characterized your reaction correctly, I would greatly appreciate the opportunity of:

1. Filling you in on the background that lead to my action.
2. Explaining to you how I perceive my role as a manager, based on training and experience.

If you do not feel it is necessary to discuss this further, I at least want you to know that my action, whether popular or not, did achieve its purpose of getting our project back on track and that we are now proceeding with the work requested by the Special Prosecutor.

Please be assured that my sole objective in my present position is to be responsive and cooperative to the needs of the present administration. There is no one in the White House for whom I have more respect and admiration for than yourself, I would never purposely do anything to embarrass or upset you. I'm sorry if I did.

Thank you.

Attached is a report by Tom Wolf on the recent pre-hearing conference in Nixon v. Sampson, et al. Note that the court apparently rejected an attempt by the Department of Justice to proceed by deposition and affidavit rather than by informal discovery.

MEMORANDUM TO: The Administrator (A)

FROM: Thomas P. Wolf *Tom Wolf* (AX)
Special Assistant to the Administrator

SUBJECT: Pre-Hearing Conference, Nixon vs.
Administrator (74-1852)

On Thursday afternoon, May 29, 1975, Judge Aubrey Robinson of the U.S. District Court held a pre-hearing conference on behalf of the panel (himself, Judge Tamm, Judge McMahon) with all the lawyers involved in this case. Sixteen lawyers, representing the plaintiff, the defendants, and the intervenors were present.

In spite of this mob, some results were achieved. The most important ones were:

1. Judge Robinson has tentatively rejected Nixon's request for an evidentiary hearing. Plaintiff Nixon is to attempt to achieve his objectives first with affidavits and then, if necessary (and it will be), with depositions.
2. A tentative schedule has been set and agreed to. Plaintiff Nixon is to prepare a consent order incorporating this schedule. In the meantime, the key dates are:

6/30/75	Nixon to complete all affidavits and forward to all parties
7/31/75	Completion of all evidence for the record
8/19/75	Plaintiff's brief
9/8/75	Defendant's brief
9/15/75	Plaintiff's reply brief
9/22/75	Hearing
3. Judge Robinson made it quite clear that the only issue before this panel is whether the Congress has the right, under the Constitution, to pass the Act it did taking the papers away from Mr. Nixon. It will not deal with any of the matters covered in the consolidated cases. In fact, Judge

Robinson emphasized that he has not opened the record on the consolidated cases (which have also been assigned to him), and that he will not do so until this case is decided. He further indicated that it would be up to the Congress to deal with questions as to which materials fall into which categories and which should be released or restricted. I interpret this to mean that the regulations (and Congress's approval or rejection thereof) would control this matter.

4. Nixon indicated that a substantial part of his new evidence would involve testimony from government employees and asked for permission to interview these individuals and get affidavits for them in the presence of Mr. Goldbloom of the Justice Department. The intervenors objected and Judge Robinson granted them permission to be present, but not to interfere or ask questions. The parties agreed, after the hearing, that this procedure would undoubtedly lead to the necessity for depositions, and consequently, it may be impossible to keep to the schedule. Also, it may still become necessary to have an evidentiary hearing.
5. It became quite obvious during the conference and as a result of conversations held with the parties after the conference that there is a considerable difference among the intervenors as to how this case should be handled. Although the court has ordered that the intervenors should present their case as a consolidated group, it does not appear likely that the various intervenors will come to an agreement. This may create a considerable problem and possible delay.

At the conference I met with Irv Goldbloom of Justice and Dave Anderson, who has been selected to handle the litigation for Justice. I pointed out that some of the potential witnesses (Jacobs, the archivists in this office, and myself) have signed special confidentiality statements at Mr. Buchen's request. This problem will have to be worked out prior to the taking of affidavits.

SUBJECT: Project for Special Prosecutor

The Watergate Special Prosecutor's Office and counsel for Mr. Nixon have informed us that for the present there are no further files to be searched in connection with the research project we have been working on since February 24, 1975. Some of the documents selected are still in process. The last documents should be delivered to the Special Prosecutor within the next few days after review by counsel for Mr. Nixon and Mr. Casselman. Also, at some date in the future, when the Special Prosecutor indicates that the research project is totally completed, the various parties will need to assemble to participate in the selection of those documents and documentation which are to be retained by the Special Prosecutor as agreed by all parties at the outset.

In the meantime, as you requested, I am attaching hereto a list of those individuals who were involved in this project as your agents or in some other capacity.

I want to particularly call your attention to Miss Mary Filippini who assumed day-to-day responsibility for supervision of the archivists, assignment of the work, maintenance of all documentation, and the pulling and refileing of the materials to be reviewed. The fact that all the parties were apparently satisfied with the manner in which this project was handled is primarily due to the outstanding job performed by this young lady.

Dear Mr. Teasley:

Many, many thanks for your outstanding performance as a member of the professional staff working on the research project for the Special Prosecutor. The regular reports which I received indicated that you and your colleagues handled your duties in a most able and professional manner. You had a difficult task requiring superior discretion and judgment, and you demonstrated both qualities in the highest degree.

My best wishes go to you in your Government career and future life.

Sincerely,

*Special Watergate

July 21, 1975

Dear Mr. Ruth:

This is to confirm our telephone conversation of last Friday.

As we discussed, the Research Project conducted under the direction of this office is nearing conclusion. Accordingly, it is the intention of the Department of Justice to file appropriate motions in the United States Court of Appeals for the District of Columbia, and, subsequently, in the United States District Court for the District of Columbia, seeking modification and/or amendment of outstanding court orders to permit the transfer of a substantial portion of the "Presidential materials of the Nixon Administration" from the Old Executive Office Building to the Federal Records Center at Suitland, Maryland. These materials have been in the custody of the Administrator of General Services since August 9, 1974, and are subject to the access procedures provided in the Order of the United States District Court for the District of Columbia, entered October 21, 1974, as amended, in Nixon v. Sampson, et al. (C.A. No. 74-1518).

Upon motion of the Government in the above-cited case, both the Court of Appeals and the District Court previously entered orders on May 13 and May 22, 1975, respectively, permitting the transfer of materials of the lowest sensitivity from the OEOB and the National Archives to the Federal Records Center. This transfer was completed on June 9.

We are now seeking to transfer a second installment of materials of limited sensitivity, in which your Office has to date expressed no interest in reviewing. Attached hereto is an inventory list of the materials in question. These materials are identified as the "White House Central Files" and constitute 168 pallets of approximately 24 cubic feet each (4,000 cubic feet). They are currently located in nine rooms (approximately 3,200 sq. ft.) on the 4th floor of the Old Executive Office Building. Removal of these materials will make available much needed office space for assignment to White House Office functions.

The materials would be maintained in an area of the Federal Records Center having security equivalent to that under which they were maintained within the EOB. They would continue to be under the custody and control of the Administrator and would be subject to standing access procedures in accordance with outstanding court orders. If required, and under normal conditions, any or all of these materials can be returned to downtown Washington within 24 hours.

For purposes of filing the appropriate motions, your approval or other views regarding the proposed transfer is respectfully requested.

Your continued cooperation is appreciated.

Sincerely,

William E. Casselman II

Dear Mr. Buchen:

We have received the attached request from Mr. Leonard Garment, a former member of the White House Staff, for materials which he indicates are personal and/or pre-date January 20, 1969. Such items are not subject to the court orders issued by Judge Richey on October 21 and 22, 1974, or covered by the Presidential Recordings and Materials Preservation Act (P.L. 93-526).

Consequently, subject to approval by you and Mr. Nixon's attorneys, we propose to inspect two sets of boxes labeled #5 and #6, currently in our custody, to determine whether these materials are in fact in our possession. If we do locate them and determine that they pre-date January 20, 1969, we propose to return them to Mr. Garment.

We plan to make this inspection at a time ten (10) days subsequent to the date shown on this letter which is convenient for both you and Mr. Nixon's attorneys or your agents, unless you waive your right to be present, in writing.

I would appreciate your prompt response to this request.

Sincerely yours,

Referencing your letter to me of August 1, 1975, concerning the request of Mr. Leonard Garment for the return of materials which are either clearly personal or which predate January 20, 1969, I have no objection to your returning the requested materials to Mr. Garment, provided the other parties in Nixon v. Sampson, et al. do not object to this request. For your information, Mr. Garment joined the White House staff on June 16, 1969, as Special Consultant to the President. Thus, the personal chron file he describes in his letter would appear to fall outside the scope of the Court Order. I recommend that you raise this point with the Department of Justice.

I hereby waive my right to be present during the search for these materials.

Dear Mr. Wolf:

I hereby request that the material listed below be released from the official custody under which it is now being held by the General Services Administration. This material was intermingled with my official files at the time I left the White House in December 1974, but is, in fact, personal rather than official in nature. In addition, most of this material predates my service in the White House, and accordingly should not be considered to fall in the category of "Presidential Papers" or "Nixon Administration Material." For the record, I served in the White House from June 1969 through December 31, 1974.

1. Litigation files - Hill v. Time (These are files on the litigation on the subject case handled by the firm of Mudge, Rose, Guthrie & Alexander of which I was a partner and all predate 1969).
2. Files on my personal residence at 20 Willow Place, Brooklyn Heights, New York (These are files which include material on the construction of the residence, papers on leasing arrangements, etc.)
3. File on my personal residence at Green Spring Road, Virginia. (This file contains material relating to the leasing to me of the property at Green Spring Road, Virginia, during my tenure in Washington and although dated 1969 and later, there is no material in the file relating to my official duties at the White House.)
4. January to May 1969 Chronological Files. (This file is my chronological record for this period and relates to personal and firm business; again it predates my date of appointment to the White House.)

Would like to know that you have authorized this. Yes. No

If there's any paperwork on it, he'd appreciate a copy --

The attached memo from Joan Howard, senior archivist of the Nixon Library staff, is self-explanatory.

I have discussed this memo with Stan Mortenson, Counsel for former President Nixon, who informed me that with the exception of the search for the three missing boxes of WHCA audio tapes, he has no problem with our proceeding with this project. Once we determine the amount and exact location of the non-presidential materials referred to in paragraph 1, we would move them to an area not containing other Presidential materials under the authority of your letter of October 31, 1974, which permits us to move materials for the purpose of space efficiencies.

If we find that the White House photographic collection requires preservation work, we will request permission in writing prior to proceeding.

Your acknowledgement of this memo and approval to proceed will be appreciated. I assume you will send a copy of it to Mr. Nixon's counsel.

SUBJECT: Survey of non-Presidential Historical Materials on 2W2

In order to determine accurately the amount and condition of the non-Presidential Historical Materials presently located in 2W2 of the National Archives Building, I would like permission to enter 2W2. From statistics compiled earlier there appears to be approximately 157 cubic feet of personal papers, which are not Presidential Historical Materials and could be processed by the MLN staff. I would like to survey these papers to see what space on 1W2 we would need to allocate for them. Once we determine the amount and exact location of the non-Presidential materials, I will make arrangements to move these materials to 1W2.

Dick McNeill needs to enter 2W2 to place some Presidential Historical Materials he has located on 1W2 with the other Presidential Historical Materials. The materials he has found are approximately 2 inches of cartoons from Wanda Phalens, Executive Office of Communications.

Dick McNeill would like to check to see if three missing boxes of WHCA audio tapes are located in 2W2. I would like to have Dick examine the White House Photographic Collection to see if there are any preservation problems. If there are problems, it may be necessary for Dick to return and initiate a preservation program for these photographs and films.
