WASHINGTON

June 18, 1975

Dear Tom:

The President has passed on to me several of your recent notes to him.

On the subject of House Concurrent Resolution No. 187 which proposes Grand Rapids as the site for the Ford Library, I have given some thoughts to this problem because of the numerous comments we have had concerning the subject. Dr. Warner, who heads the Bentley Library at the University of Michigan and who is in charge of the Ford materials already transmitted there, makes a strong case for having the University be the site of the total collection of documents.

The experience with other Presidential libraries indicates that any library of this type which is away from large university centers gets relatively little use. He contrasts the Eisenhower Library in Abilene and the Truman Library in Independence with the Johnson Library in Texas. Scholars do like to congregate where there are other scholars and they like to work with a specialized collection in a location where ample general materials are available. Therefore, I am trying to encourage people in the Grand Rapids area to think in terms of having only a museum would be of greater general interest to people of the Grand Rapids area and to visitors traveling into the community.

At present the Federal legislation does not allow for operation at Federal expense of a museum separate from a library of Presidential materials. However, it may be possible to get the legislation changed, or if that is not possible, Grand Rapids may be willing to operate the museum for the Ford memorabilia as part of the Grand Rapids museum. If you agree with these ideas, you may be able to influence public and legislative opinion accordingly, as I have tried to do.

On the matter of the tax treatment of the State allowance to legislators for expenses while at the State Capitol, I think it desirable to await the decision by the Sixth U. S. Court of Appeals on Representative Montgomery's appeal from the Tax Court. If that appeal is adverse to the taxpayer, I would think it would be possible to seek a change in legislation by the Congress. Although, it may not be appropriate for the President to propose such a change, I am sure the Congress would take heed to efforts by State legislators to accomplish the desired objective.

It is always a delight for me to see Janet when she is here, and I hope I will have a chance to see you also in the near future.

Warmest personal regards.

Sincerely,

Philip W. Buchen Counsel to the President

Dear Phil:

I'm sorry I have not responded to your letter before this. Some of us were hopeful that the legislature could meet a deadline. Now that that dream has collapsed there is a little less pressure.

Regrettably Jerry was not raised in either a log cabin or the abundance of Hyde Park. The old house at 649 Union is simply not large enough to accommodate even a reasonable number of visitors if it were renovated.

Jerry Roe of the Republican State Staff is well known as an amateur historian. He called last week and said there is constant pressure to "do something" with the house. I gathered no civic organization wants it without an appropriation to refurbish it. At the same time there is an indication from some sources that if the house goes back on the market it might be bought by a private individual who would fix it up and charge admission to "the only" Jerry Ford Museum.

I suggested that, perhaps, FHA could inter-agency transfer it to the Park service who in turn might donate the living room, dining room, and Jerry's bedroom which could be reconstructed within a suitable structure run by the Grand Rapids Museum. Obviously, this eliminates any sharp dealer capitalizing on the purchase at the same time provides an opportunity for those who feel future generations might want to see the "original" where Jerry was raised.

I fully agree that all Jerry's papers are best served by being held in Ann Arbor. His momentos and such physical items he wants to donate belong in Grand Rapids. I am told there is some push and shove now between the U of M, G.R. Museum and National Archives regarding these items. Janet tells me Jerry agreed to let the G.R. Museum have what it wanted of the momentos. Later I was told that when Frankforter went down to look them over he was told very few were available and shown about the same amount. If this is correct, then I can understand the museum's lack of enthusiasm for pushing for any new Jerry Ford addition.

Mr. Philip Buchen July 11, 1975 Page 2

I really believe Jerry should give consideration to a flat all out statement where he says once and for all that all his papers will be donated to the U of M. At the same time he will, over a period of time, donate his momentos and certain possessions to any organization now formed or might be formed in Grand Rapids to permanently make them available for display. To get them off dead center in Grand Rapids he could set a deadline for acceptance of January 1, 1980.

This same group, if not the museum, could reconstruct the selected rooms for the Union Avenue home.

The Bentley museum could, by prearrangement, come through the University to the State if they need additional space. I feel confident the Joint Legislative Capital Outlay Committee would, after the economy picks up, give the request serious consideration.

In return the U of M could waive rights to any claim that it was "the" Ford Library. Possibly this would release federal funds to the Grand Rapids memorial.

Naturally, any gifts by Jerry should be protected from resale to help maintain the memorial.

Very sincerely,

Thomas G. Ford

Dear Tom:

After receiving your letter of July 11, I wrote to Bob Warner at the University of Michigan and he supplied me with copies of correspondence between him and W. D. Frankforter and likewise a covering letter of explanation to me, copies of which are enclosed.

As Bob Warner points out, we are somewhat handicapped in developing a firm course of action until after Congress deals anew with the question of Presidential Papers and Historical materials.

Although legislation may not have a retroactive effect, it would seem important that the Congressional and Vice Presidential Papers should be dealt with in a way that keeps them at the same location as the later Presidential Papers.

In the meantime, any assistance you can give toward keeping the citizens of Grand Rapids at peace with the University of Michigan will be much appreciated.

DATE August 11, 1975

TO: Mr. Philip W. Buchen
Counsel to the President
White House - West Wing
1600 Pennsylvania Ave.
Washington, D.C.

Thank you for your note of July 29, 1975.

One thing for sure, there are enough people involved that you do not need another person running around muddying the waters. Therefore, unless specially asked for comment, this is my concluding letter on this subject.

I feel badly, however, because having been involved in higher education budgets for the last ten years, it is obvious the University of Michigan has set their sights on the federal funds normally allotted to Presidential "Libraries". Education in general has become almost unbelievably efficient in finding available federal and state monies. In fact it is almost unfair to pit the amateur from other governmental units against them.

In short, it galls me that they obviously have grabbed both momentos and papers and will "loan" some momentos to the Grand Rapids group.

Jerry spent nine months out of four years and a couple of months out of two years in Ann Arbor. For the rest of his 62 years, he was living in or at least representing Grand Rapids.

I fully agree the University of Michigan should have his papers and I am almost sure that with alumni contributions for the capital investment, the state would pick up in the regular budget request the operating cost. In fact, the Legislature's Joint Capital-Outlay Committee would give serious consideration to the capital investment too.

Obviously, this would release the federal government fee to support any unit in Grand Rapids where a memorial and his momentos belong.

August 11, 1975 Mr. Philip M. Buchen Page 2

To have his friends, family and political associates from Grand Rapids traveling to Ann Arbor, Michigan to any memorial, other than a library, appears to me to be too absurd to deserve further comment.

I am glad, "Solomon", you have the ball and not I. Substituting a couple of words "Don't let the 'education' grind you down".

Very Sincerely,

Thomas G. Ford
