COMMITTEE FOR THE RE-ELECTION OF THE PRESIDENT

MEMORANDUM

October 3, 1972

~~CONFIDENTIAL/EYES ONLY~~

MEMORANDUM FOR: THE HONORABLE CLARK MacGREGOR

FROM: ROBERT M. TEETER

SUBJECT: Verbatim Responses about McGovern

Attached are some representative verbatim comments from our open-end question on the wave three polls which asked the first thing that comes to mind about George McGovern. These responses are similar to all states in Wave III.

The significant point is that the greatest majority of comments have to do with McGovern personally rather than his position on any issue. Generally McGovern is not seen as a credible candidate. Many comments are directed to his lack of experience, his qualifications, and personal dislikes.

The implication from this data is that we should concentrate our attack on his general lack of ability to handle the Presidency, his inability to think through solutions to problems, and his inconsistencies.

It is becoming increasingly clear that the key to voter choice during this election is the comparative qualifications of the two candidates. Therefore, in making our attack on McGovern we must continue to make our comparisons to the long experience of the President and the rational and reasonable way he makes decisions.

Determined to be an
Administrative Marking
