THE WHITE HOUSE

STATE OF THE UNION SPEECH  
INCLUDES TOP MINORITY ISSUES

President Ford, in his State of the Union Message, dealt with a number of issues of critical concern to the Nation's Black citizens.

Appearing before a joint session of the 94th Congress, the President appealed for action in such areas as the economy, job creation and employment, crime control, tax cuts, health care improvements and aid to the unemployed and elderly.

John Calhoun, Special Assistant to President Ford, said that the President's "down to earth" speech covered a broad area of issues that will be further explained in the new Federal budget.

Throughout his address, President Ford proposed recommendations on subjects like energy, housing assistance and child nutrition -- subjects which bear directly on the lives of all the country's citizens, especially its minorities and poor.

Basic to overall progress across the Nation is the general State of the Union. Monday night, the President declared:

(more)

"Just a year ago, I reported that the State of the Union was not good. Tonight I report that the State of the Union is better -- in many ways a lot better -- but still not good enough."

Characterizing the American economy as "well on the way to recovery from the deepest recession since the 1930's", the President outlined policies designed to keep the economy on an upward path toward two central long-term objectives: (1) sustained economic growth without inflation, and, (2) jobs for all who seek work.

An improving economy is often the key factor in the determination or disposition of countless programs of major importance to Blacks. As one economist has put it, "When the general economy catches the sniffles, specific but worthwhile programs may come down with pneumonia."

To further bolster the economy, the President called on Congress to reduce Federal taxes and curb Government spending and to work toward a balanced budget in Fiscal Year 1979.

In job creation and unemployment, the President pointed out that 85.5 million Americans were at work in December, 1.7 million more than at the low point in March, 1975. He reported on measures to deal with unemployment, then proposed four new programs to promote additional investment and create new jobs, including one to immediately benefit the construction industry -- one of the most depressed industries in the economy.

consistency among program requirements, greater equity among recipients, preserved and strengthened work incentives, and targeting on those with greatest need.

In urging a "new realism" that is true to the great principles on which our Nation is founded, the President underscored his faith in the common sense of the country's people and their representatives.

"In all that we do," he declared, "we must be more honest with the American people, promising them no more than we can deliver and delivering all that we promise."

MEMORANDUM FOR: JAMES T. LYNN  
THROUGH: WILLIAM J. BAROODY, JR.  
FROM: JOHN CALHOUN

The proposed cut in the Department of Commerce Office of Minority Business Enterprise budget of \$3.2 million in the FY '77 budget, coupled with the transfer of 10 slots, would have an almost disastrous political impact on the communities of Blacks, Hispanics and other minorities.

OMBE is undoubtedly the most popular and visible program started by a Republican Administration geared specifically to minorities. The minority business program is viewed as the single domestic program positively identified within minority communities as a Republican brainchild.

Unlike Democratic efforts, it is not a handout program but rather an initiative toward self-help and greater participation in the economic system of our Nation.

Any budget cut, on the eve of an election, would be tantamount to an admission of lack of concern and sensitivity and would offset previously made gains in this area among minorities.

OMBE has advised that 17 States and the District of Columbia would be adversely affected by a budget cut. (see attachment)

There is strong Congressional support within these States for OMBE.

I strongly urge careful consideration of the programmatic value and political losses that would be imminent.

Subject: Brief of Factual Data on Minority Business Development  
Under Executive Orders 11458 and 11625

As you know, Minority Business Enterprise is an area where opinions are plentiful but hard facts are scarce. My ten years of minority business in the U. S. Department of Commerce enables me to provide a distillation of essentials in this important field and to share them with you.

Precis

In March 1969, The President created OMBE

- - To establish, strengthen and preserve minority firms by providing access to markets, finance and expertise.
- - To accomplish this goal through an alliance of government, the private sector and minority business interests.
- - To utilize appropriations provide in attachment #1: FY 70--FY 77. (Appropriations - FY 70 thru FY 73 = \$198,152,000.)
- - To obtain accomplishments supportive of minority business enterprise growth as shown below:

- FY 70 - FY 1975
  - 106,057 clients served.
  - 10,932 procurements for \$812.8 million.
  - 15,487 packages for \$734.4 million.
  - 1,723 start-ups and buyouts.
  
- FY 69 - 1975
  - Grants, bonds, loans & guarantees \$3,141,961,167
  - Direct & subcontracts \$1,770,993,223
  - 9,036 8(a) contracts \$1,047,425,955
  
- Private procurement - FY 72-74 \$650 million
- Aleyeska Pipeline \$210 million

Attachment #2 furnishes additional details. Voluminous documentation is available at OMBE to support data herein. With your overwhelming schedule, I believe this quick-study presentation may be more relevant and useful.

PROJECTED DEFUNDINGS

While any projections of cuts are somewhat speculative, the cuts projected below are essentially in those whose present funding allocation is above the OMBE average. This is calculated by multiplying minority population by a state's 1980 gross business receipts projections. The projections presume an attempt to maintain equity in service between minority communities within a state.

Pennsylvania

\$400,000 cut would be concentrated on projects in Philadelphia and Pittsburgh areas, oriented largely toward a black constituency.

Tennessee

\$100,000 cut probably from the Memphis area. Senators Baker and Brock have been strong advocates for funding of Tennessee services, as has Representative Harold Ford.

Florida

\$200,000 cut would be likely to mean elimination of two assistance organizations serving predominantly black constituency in the Sanford and Palmetto areas. Service would be ended in large areas of the state.

Kansas

\$100,000 cut could be achieved by eliminating services in Topeka. Senator Dole would, however, be likely to object to such a curtailment of services outside Kansas City.

Missouri

\$100,000 cut would involve reduction of services in either St. Louis or Kansas City.

Illinois

\$100,000 cut would perhaps be achieved by curtailing services in Rockford. Congressman John Anderson represents the area that would suffer by the loss of services.

2.

Ohio

\$200,000 cut could be achieved by reducing services in Cleveland and eliminating program coverage in Canton.

Wisconsin

\$100,000 cut would necessitate elimination of organization in Milwaukee, OMBE's resource commitment to this state would be cut in half.

Nebraska

\$100,000 cut in Nebraska would require elimination of an assistance organization serving Omaha. Congressman John McCollister would be most displeased with such a curtailment of services to his constituents.

Oklahoma

\$100,000 cut would entail elimination of an organization providing construction services in Oklahoma City. Senators Bartlett and Bellmon both could be expected to take a negative view of such service curtailment.

Arizona

\$300,000 cut would entail defunding of two Mexican American organizations, a construction organization in Phoenix and a business development organization in Gaudalupe. In addition, one Indian project serving a large part of the state would be likely to be defunded. Senators Goldwater and Fannin as, well as the Arizona's Congressional delegation, could be expected to be unreceptive to these defundings.

New Mexico

\$200,000 cut would be achieved through defunding of two Mexican American organizations, a construction organization in Albuquerque and a business development organization in Las Cruces. Senator Domenici and Congressman Lujan have both pressed for increased OMBE program activity for New Mexico.

Colorado

\$100,000 cut would result in elimination of organization serving largely Mexican American constituency in the Durango area.

California

\$300,000 in cuts would impact largely on black organizations in the Southern California area. Representatives Burke, Corman, Hawkins, Charles Wilson, and Glenn Anderson could be expected to press for reinstatement of funds.

3.

Washington

\$100,000 cut in Seattle would provoke reaction from Senators Jackson and Magnuson, as well as area Congressmen.

Massachusetts

\$200,000 cut in Boston area projects serving a largely black constituency. Note: Senator Brooke has been a strong supporter of minority business activity in Massachusetts.

Connecticut

\$100,000 cut in projects serving the Hispanic community. Opposition could be anticipated from the Congressional delegation and Governor Grasso.

District of Columbia

\$200,000 cut in funding of local projects; would probably generate adverse comment from Washington area media.

The attached fact sheet is provided for  
your information and future reference.

February 1976

HIGHLIGHTS OF ADMINISTRATION INITIATIVES  
IN CIVIL RIGHTS AND RELATED SOCIAL PROGRAMS

(NOTE: All years without months refer to fiscal years)

A. Civil Rights

1. Total outlays for civil rights activities will increase from \$2.9 billion in 1975 to \$3.9 billion in 1977.
2. Outlays for civil rights enforcement will grow to \$430 million in 1977, an increase of 24% over 1975.
3. In 1977, outlays for equal opportunity in the military services, including the U.S. Coast Guard, will total more than \$40 million. An additional \$19 million will be expended for contract compliance, fair housing and title VI activities.

B. Equal Employment Opportunity

1. As of November 30, 1974, over one fifth (21%) of Federal employees were from minority groups. Recent surveys have reflected a continuing trend of more minorities in the middle and upper grade and pay levels.
2. Outlays for Federal civil service equal employment opportunity programs (including upward mobility) will increase by 29% in the years, 1975 to 1977, to \$188 million.
3. The budget of the Equal Employment Opportunity Commission will increase from \$56 million in 1975 to \$68 million in 1977.
4. Executive Order 11246, as amended, prohibits the practice of discrimination in Federal contracts, sub-contracts, and on federally assisted construction projects. In 1977, Federal agencies responsible for implementing this order will spend \$40 million compared to \$18.1 million in 1972. Approximately 570,000 new hires and promotions will be effected by such affirmative action goals.

### C. Minority Enterprise

1. Small Business Administration's (SBA) direct and guaranteed loans to minority enterprises have increased from \$41.3 million in 1968 to \$226 million in 1975. As a part of the Administration's continuing strong support of efforts to expand minority participation in private enterprise, SBA expects to provide over \$465 million in loan and loan guarantees to about 8,600 minority enterprises in 1977.
2. The Office of Minority Business Enterprise (OMBE) will continue to provide financial assistance at a level of \$50 million to support efforts to create and expand business ownership opportunities for minorities and stimulate private, State and local initiatives in this area.
3. SBA will expand its management assistance program for minority firms by \$3 million in 1977. SBA will also increase procurement subsidies by \$3 million for minority contractors to facilitate participation in the 8(a) program.
4. Under SBA's 8(a) procurement program, sole source contracts with minority firms are expected to increase from \$322 million in 1975 to \$350 million in 1977.
5. 74 Minority Enterprise Small Business Investment Companies (MESBICs) are currently in operation with Federal matching funds of \$43 million and private capital investment of \$40 million.
6. A combined private-sector/Government program has resulted in a substantial increase in the deposits of the Nation's 71 minority-owned banks. These deposits totalled \$1.3 billion as of June 30, 1975, compared with \$396 million in 31 minority-owned banks at the start of the program, September 30, 1970.

### D. Educational Opportunities

1. Under the emergency school aid program, Federal aid will be continued to help overcome the effects of minority group isolation in school systems. In 1977, this program is proposed for operation at a requested level of nearly \$250 million, including some \$35 million for civil rights advisory services.

2. About 1.3 million needy college students will receive \$1.1 billion in basic education opportunity grants. By the 1977-78 school year, every eligible disadvantaged student will receive up to \$1400.
3. In 1977, \$110 million will be obligated in order to support the improvement of developing institutions, including Black colleges.
4. In 1977, \$1.9 billion will be provided for disadvantaged students at the elementary and secondary levels.
5. Office of Child Development activities -- primarily in the Head Start Program -- will receive \$434 million in 1977 and serve more than 430,000 children.

#### E. Housing

1. Expenditures for the enforcement of laws against discrimination in housing will increase to more than \$18 million in 1977.
2. An experimental program will carry on its test of the effectiveness of direct cash assistance programs as a means of dealing with the fundamental problem -- inadequate income -- in achieving the goal of a decent home for all Americans.
3. The lower income housing assistance program will continue to provide a more flexible form of housing assistance. In 1977, support will be provided for 400,000 units.

#### F. Health Care Services

1. A \$10 billion Financial Assistance for Health Care program will be initiated which consolidates 16 health grant programs including Medicaid, and better targets funds on meeting the health care needs of the low income.
2. Protection against catastrophic health care costs will be provided to the elderly and disabled through Medicare, by limiting an individual's payments to \$500 per year for hospital and nursing home care and \$250 annually for doctor's fees.
3. Medicare expenditures will increase from \$17.4 billion in 1976 to \$19.6 billion in 1977, and provide health insurance protection to almost 25 million aged and disabled Americans.
4. 7,000 new community based drug abuse treatment slots will be funded in 1977 to insure adequate treatment capacity for those in need.

5. Federal obligations for drug abuse prevention and treatment will be \$482 million in 1977, compared to \$455 million in 1976.

G. Anti-Poverty and Other Social Programs

1. Authorization for the Community Services Administration, formally the Office of Economic Opportunity, has been extended and provision made for increasing State and local involvement in community action programs for the poor through increased non-Federal matching.
2. The Legal Services Corporation has been successfully established as an independent, non-profit private corporation to administer legal services programs for those who cannot afford legal counsel.
3. In 1977, a \$2 billion Child Nutrition Reform program will provide more benefits for feeding poor children than under existing programs. By consolidating overlapping and administratively complex categorical programs, States will be given more flexibility and responsibility in meeting the needs of poor children.
4. The proposed reform of the Food Stamp program would simplify and improve program administration and assure that benefits are targeted towards the poor.

A key feature of this reform would provide each participating household a standard deduction of \$100 per month in computing net income, with an additional \$25 allowed for the elderly, to replace the present complex itemized deductions and provide increased benefits to poorer households who currently are not able to afford these deductible items.

The Thrifty Food Plan also provides a nutritionally adequate diet for specified sex-age groups of people resulting in higher average food stamp allotments than previously provided.

5. Under the Work Incentive (WIN) program, 175,000 welfare recipients will be placed in unsubsidized jobs.
6. Some 515,000 training and employment opportunities for the disadvantaged and unemployed will be provided under the Comprehensive Employment and Training Act in 1977.

MEMORANDUM FOR: FOSTER CHANNOCK

FROM: JOHN CALHOUN *JC*

It would be a real plus for the Administration to go ahead and appoint Weldon Latham (OMB) to the General Counsel Post at SBA.

He could attract a large percentage of the growing numbers of young lawyers, Black and white to our camp for the big race ahead.

He has the experience, is very capable, and deserves the opportunity.
