THE WHITE HOUSE

WASHINGTON

December 3, 1975

MEMORANDUM FOR: THE PRESIDENT

FROM: JIM CANNON

SUBJECT: STATUS REPORT - URANIUM  
ENRICHMENT HEARINGS

The second day of hearings ended on a favorable note. Frank Zarb was the principal Administration witness.

Attention has focused principally on the question of Congressional review and approval of contracts with prospective private uranium enrichment firms. On this question, Chairman Pastore and Zarb agreed that staff should meet as soon as possible to try to work out acceptable procedures. We are working with ERDA, FEA, OMB and Phil Buchen's staff on alternatives and will then meet with staff of the Joint Committee on Atomic Energy.

Frank Zarb's discussion with the Committee indicated that other issues that have been raised by various members (such as foreign participation in private ventures) should not be serious problems, if acceptable review procedures for contracts can be worked out.
