10. Albert Quie Recommends Eugene Trumble as Vice Chairman of the National SBA Advisory Council.
11. Dante Fascell Says that after the Commission on Security and Cooperation in Europe was created by P.L. 94-304 on June 3, he was appointed by the Speaker as Chairman of the Commission. Says he is distressed by the delay in the appointment of representatives of the Executive Branch. Notes he was assured on August 24 that the appointments would be forthcoming. Also says the Secretary of State promised to meet with the Commission at an early date to report on the implementation of the Helsinki Final Act and he has not.
12. Jack Kemp Sends three-page letter concerning the need to restore the economy of the Northeast States. Says he is outlining a three-step State-level effort. Also calls upon the President to appoint a blue-ribbon Presidential Commission "to ascertain the biases in all Federal grant-in-aid, revenue sharing, and other formulae, whether those biases benefit the Sunbelt or the Snowbelt, and to tell us how the various types of Federal programs. . . create advantages for different regions. I believe the Commission should be appointed at the earliest date. Now would not be too soon."
13. Paul Rogers Writes on behalf of Lloyd Haig concerning the relocation of the St. Louis, Missouri, airport to Illinois.
14. Floyd Fithian Sends detailed letter concerning what he says a congressional subcommittee has referred to as a "mini-Watergate" within the FEA. "I therefore urge you to seek the immediate resignations of FEA Administrator Frank Zarb and Deputy Administrator John Hill. I have reached this inescapable conclusion: in the administration of their bureaucracy, Mr. Zarb and Mr. Hill have circumvented the will of Congress and lied to the public; in the policy course they have set at the FEA, they are nothing more than puppets of Big Oil."
15. John Murphy Sends four-page letter and related material about S. 521, to reform the procedures for the leasing, management, and exploitation of our offshore resources on the Outer Continental Shelf. Urges that it be signed.

House

16. Keith Sebelius Sends his congratulations on the President's performance in the first debate. Says he is proud to be on the Ford-Dole ticket. Also writes in detail about the political situation in the Wheat belt, describing it as grim. "The Ford-Dole ticket may carry Kansas. But, today unusually reliable polls put you and Bob eight points down, 50-42-8. The Ford-Dole ticket is trailing in Bob's old home district." Further comments: "In all of my 57 counties, I will be asked to explain why Bob Dole and Keith Sebelius cannot get fair treatment for agriculture. The short term price crisis combined with the false but believed embargo issue will dominate my entire campaign. I will try my best to listen and suggest the real issue is what kind of agriculture policy the farmer wants down the road. They do not want a return to a subsidized agriculture nor do they trust Jimmy Carter. But the short term price problem totally obscures that fact. In the past we have lost Republicans like Catherine May, Tom Kleppe, Wiley Mayne, Bob Price, and John Kyl, all good wheat, feed grain and cattle representatives, in part due to a lack of understanding and sympathy to grass root farm politics. I am now an endangered species. . . I realize that Secretary Butz and those who are advising you within the White House feel a loan increase would appear to be election year politics and a \$2.25 level would be contrary to the Secretary's free trade philosophy. I have been told raising the loan to \$2.25 would make it impossible to write a new farm bill. My point is, without some action soon to reverse the current market and political trend, we will not be writing the new farm bill. Bob and I will be about the only Republicans left in the Senate and House that will know the difference between wheat and peanuts."

Senate

- 1S Edward Brooke Expresses appreciation for the President's September 14 note regarding the foreign assistance appropriations bill. Hopes the legislation will be signed. Also writes about the southern Africa situation and Secretary Kissinger's efforts. "Anticipating that some form of success will occur, I believe it is crucial that we begin now to formulate policy guidelines that will bring some long-term coherency into our relations with the various states in the area. Our present ad hoc approach, while perhaps necessary in light of past errors, if efficacious at all, will only be so for a short time. What is desperately needed is a U.S. policy that clearly indicates what the countries in southern Africa can expect of us and what we, in turn, expect of them."
- 2S James Abourezk Urges signing of H.R. 15194, the Public Works Employment Appropriations bill. Says it would provide a much needed economic stimulus to South Dakota, which is suffering from a drought.

- 4S Harry Byrd Says he has reviewed the Revised Single Negotiating Text issued by the Third UN Law of the Sea Conference on May 7. "I am fearful that if a final treaty is prepared along the lines of this draft, it may raise serious opposition in the Senate. I am particularly concerned about the lack of free access to the deep seabed for all nations, and the proposed production and price controls."
- 5S Robert Taft Writes on behalf of Margaret E. Douglass to present the CAB recommendations in the Transatlantic Route Proceeding.
- 6S Thomas Eagleton Urge approval of the CAB's recommendation to grant Trans World Airlines' certificate for Route 147 providing direct transatlantic service to St. Louis, Kansas City and four other cities. Urge such approval even if this recommendation has to be separated from the more controversial recommendations.

I recommend this strongly as Pinellas County is one of the major population centers of the State and one where the people vote in large numbers."
2. James Abdnor Sends detailed letter strongly urging the signing of H.R. 10339, the Direct Producer to Consumer Marketing Act. "The worst possible thing you could do, in my opinion, of course, is to veto H.R. 10339 and take no further action administratively with respect to the drought."
3. Spark Matsunaga Writes on behalf of Francis Sur Lee, a prisoner seeking a transfer from McNeil Island, Washington, to Terminal Island, California.
4. James Collins Endorses request of the National Taxpayers Union that the President ask Congress for a 5% across the board reduction in FY 77 appropriations. 9. Bill Alexander Sends telegram urging the signing of the Tax Reform Act of 1976 before Congress adjourns.

- 1S Jennings Randolph Sends telegram urging the signing of the Public Works Employment Appropriations Act.
- 2S Robert Morgan Sends detailed letter urging that the Antitrust legislation not be vetoed. "This is not hastily drawn legislation designed to torment small businessmen. It is the result of years of experience with predatory anti-business law violation antithetical to the spirit of free enterprise."
- 3S Paul Fannin Sends detailed letter saying that, as he prepares to retire, "one area of federal activity where I regret that more has not been accomplished is that of international trade . . . There remains much to be done in this area. I hope that more success is realized during your next term of office either through multi-lateral trade negotiations or otherwise." Cites examples.
- 4S Strom Thurmond Urges immediate signing of H.R. 15068, an emergency bill allowing, for this year only, the cross-county leasing of tobacco quotas in areas adversely affected by weather conditions. 1. Richard Kelly Strongly urges signing of H.R. 11337, the mid-decade census bill. Says it is necessary "to provide for fair and equitable distribution of Federal funds to State and local government in many areas. . . and will be of help to the Congress in studying legislation."
2. Bill Brodhead Writes in detail about the inadequacy of the budget for the National Institute on Drug Abuse to fight heroin and how this might force Detroit's Neighborhood Services Department Drug Abuse Program to drastically reduce its treatment slots, even though this program is "well run and effective." Talks about Detroit's high unemployment rate contributing to heroin use while at the same time reducing the revenues the city can provide for this problem. Urges additional Federal support.
3. Berkley Bedell Writes in detail about the necessity to impose a prohibition on beef and veal imports as provided by the 1964 Meat Import Act. Discusses the effects such imports are having and projections for the future.
4. John McCollister Sends detailed letter urging the President "to cut off meat imports immediately for the balance of 1976." Says a Federal court ruled that USDA does not have this authority and points out that Congress "failed to provide that authority in its rush for adjournment. . . Unless we have action before next year, many cattle producers will be driven out of business with consequent higher supermarket prices for beef and veal. You are the only person who can provide effective relief for American cattlemen. In 1975, 27 million pounds of beef and veal entered the country above the quotas. This has contributed to the decline in the market this year. We must restore the meaning of this quota protection to the cattle industry. I urge you to act with all dispatch."
5. Floyd Fithian Requests that no funds for the Army Corps of Engineers Lafayette Lake project be included in the FY 78 or succeeding budgets, since the State of Indiana has withdrawn its support for the Project.
6. James Howard Writes in detail about the Department of the Army's study of alternatives for the realignment of its electronics research and development activity. Says the present Electronics Command in his Congressional District is being considered for the new command headquarters, as is the Harry Diamond Laboratories in suburban Washington, D.C. "It is my firm belief that the selection of the Army's 'preferred alternative' to locate the command headquarters at Harry Diamond Labs would violate both Congressional and DoD goals. . . Every indication I have to date suggests that the Army intends not to heed Congressional and DoD directives in this matter." Encloses the New Jersey Congressional Delegation's recommendation on this realignment, as well as other material, for the President's review and comments.

House

7. George Hansen      Writes in detail to strongly urge the signing of H.R. 9719, which "would provide long overdue payment to local governments for federal lands which could be tax-revenue bearing if they were privately owned." Says the majority of this land is in the Western States. "I certainly agree with the national policy to retain federal ownership of certain lands for the public benefit, but do not feel the burden of this policy should fall on a small number of citizens."
8. Silvio Conte      Urges immediate dismissal of Earl Butz.
9. Peter Peyser      Sends detailed letter with campaign recommendations.
10. Bob Lagomarsino      Forwards letter from Dr. Robert Hawkins on SALT.

- 3S J. Glenn Beall Writes on behalf of W. Clyde Helms, Jr., Director of Operations and Training of a new Cooperative Education and Training Program in Paraprofessional Medical and Health Occupations being conducted at the George Washington University and Marymount College, regarding problems he is having with this Federally designated model program.

6. John Krebs                      Sends three-page letter regarding meat imports. "I feel strongly that limitations on the importation of processed meats and meats exceeding the trigger level are vital, not only to assist in the recovery of our American livestock industry . . . but, indeed, to comply with the law. There is little that can be done about rising costs of production, but unfair market competition can be lessened if the Meat Import Act of 1964 is enforced as it was intended to be . . ."
7. John Conyers                    "I strongly urge you to launch immediately an independent investigation of the Agriculture Department's discriminatory practices in the rural housing, agricultural production and marketing assistance programs."
8. John Melcher                    "American farmers are in the middle of a financial crisis and deserve a fully competent, fulltime Secretary of Agriculture . . . John A. Knebel is a nice young lawyer, but he has demonstrated his complete lack of awareness of the crisis in agriculture by immediately leaving his post after his promotion to campaign. It is urgent you appoint a real American farmer as Acting Secretary immediately and order him to work exclusively on farm problems--not campaigning." Says there are problems with wheat and feed grains, meat imports, honey imports and sugar import quotas.
9. Lionel Van Deerlin             Urges the President to order a review of proposed plans to assign all future naval shipbuilding to the Navy Yard. Says that several costs analyses have shown that "the cost of building in government shipyards ranged as high as 124 percent greater than construction in private yards. . . I ask your personal intervention because I feel that a matter so fundamental as a change in government shipbuilding policy should take place only through action by Congress, acting on independent studies and executive studies and executive recommendation."
