The Women Stockbrokers' Association, Incorporated was founded in 1964 in New York City, and incorporated in the state of New York. It is the first and only professional organization for women who are fully registered with the New York Stock Exchange and who are associated with a New York Stock Exchange Member Firm. The purpose of this group is to meet and exchange ideas, to continually strive for the improvement of the standards of professionalism in the brokerage community, to enhance the image of the woman broker, and to inform the investing public that women are qualified by the New York Stock Exchange to advise on investments. The qualifications for membership are to be fully registered with a NYSE member firm. Compensation is not required to be on a commission basis; however, most of our members are involved in the sales division of these firms. The membership is small because so few women are in this field. It is estimated there are less than 200 women in the United States who are NYSE stockbrokers. Naturally, it is an unusual group and the members are well qualified for their profession.

In addition to many meetings over the years, and visiting publicly-held companies; the organization has participated in several trips. In April 1973, members from New York and California met in Chicago. We attended the opening of the Chicago Board of Options Exchange; and had Mr. W. Clement Stone, (Combined Insurance Company) as our guest speaker. The California contingent went to the Hawaiian - Islands that year to visit the publicly-held companies - Del Monte, Amfac, Cinerama, Continental Airlines, C. K. Brewer, etc. The membership is concentrated in New York and Los Angeles with some members in Chicago and San Francisco.

1975-International Women's Year is an appropriate time to visit the major stock exchanges in Europe. Time and money prevent a world-wide visit. Some of our members have visited foreign exchanges as tourists. We think now is the time for an official visit to promote economic goodwill for the United States and the American free enterprise system. It will be very educational and productive to learn how various stock exchanges operate and to compare differences. The development of capital and the investment opportunities in the world are what we are all interested in as well as the participation of women in the business world of the USA and Europe. State Department sponsorship would enhance the value of such a tour. We would be able to talk directly with people important to our purpose.

The entree to the European business women and men as well as the political figures with economic responsibilities would be possible with State Department sponsorship. About eight to twelve women will take this trip on ~~October 1~~^{Sept 5}. We will pay our own expenses and make our own itinerary and accommodations subject to State Department suggestions. A trip such as this could be viewed from the standpoint of improving the American economy and would demonstrate the full participation of women in the business world. The knowledge gained would be tremendously beneficial and useful in this very demanding

Dear Mrs. Ford:

Because of your special interest in the activities of women, especially during International Women's Year, the Women Stockbrokers' Association, Inc. would like to have an appointment with you!

*200 in USA,

Europe*

This is the first and only professional organization for women who are fully registered with the New York Stock Exchange and who are associated with a New York Stock Exchange Member Firm. There are less than 200 in the USA, and ten of us are going to visit the major stock exchanges in Europe in September. We are going to study these capital markets to compare with ours and to focus on the development of capital which is so needed today in all western countries. The State Department is arranging some meetings for us with the European business men and women who have economic responsibilities and would be helpful in our survey. Senator Alan Cranston's office arranged our contact with The State Department. His office has also written to you concerning an appointment with you on September 8 a.m. (Monday). This would be on our departure from the United States. We could return via Washington, D.C. and be there Wednesday, September 24 or Thursday A.M. September 25. Any of those days are fine, and we hope that one of the three times would fit in your busy calendar!

Our plans for our itinerary depend on your schedule. We certainly hope we will be in Washington in September to meet you and to tell you, briefly, about what women are doing in the field of financial planning! Of course, if President Ford is able to "join us" it would be marvelous!

It is a real pleasure to have a First Lady who is interested in what women of the United States are doing, and a First Lady who voices her opinion and who is visiting through out this country doing something about what she believes in! Thank you for that! We hope to hear favorably from your office for September 8 (a.m.) or September 24 or 25 (a.m.)! Thank you again.

Here are some thoughts about our association and the members.

Some of us are married, divorced, mothers, heads of family, — and we are all successful in one of the most difficult professions there is! There was not one organization for women under existence. I was shocked. It took a year to gather 50 charter members for our 1964 1st meeting at Oscar's Delmonico Restaurant - I was with a small firm - Winslow, Cook, & Stratton at the time. We used to meet at the Bankers' Club after 5:30 - because women were not allowed there before 5:30 P.M. We met to exchange ideas, practice speaking about our favorite stock, compare notes, etc. and would have a outstanding analyst speaker occasionally. We have also visited the plants of some companies - and this is always very interesting. The main activity right now is of course the visit to the capital markets of Europe! and our visit with Men. SUGGESTED QUESTIONS:

*ONE QUESTION I MUST ASK . . . I CAN'T HELP BUT WONDER HOW THE AVERAGE AMERICAN CAN THINK ABOUT THE STOCK MARKET IN A TIME WHEN MOST PEOPLE ARE JUST WORRYING ABOUT MAKING ENDS MEET?

*IS THE STOCK MARKET A RISKY PLACE FOR A SMALL INVESTOR?

*HOW IS BUSINESS THESE DAYS? WHAT'S THE PUBLIC MOOD? DO PEOPLE FEEL NERVOUS?

✓ *YOU'VE JUST RETURNED FROM EUROPE. DID YOU FIND EUROPEAN WOMEN MORE ACTIVE OR LESS ACTIVE THAN AMERICAN WOMEN IN FOLLOWING THE MARKET AND IN INVESTING?

*IN THE UNITED STATES IT SEEMS MEN ALWAYS PICK UP THE FINANCIAL PAGE. VERY FEW WOMEN DO. WHY DO YOU THINK WOMEN HAVE TRADITIONALLY STAYED AWAY FROM INVESTING AND FOLLOWING THE MARKET?

*ARE YOU FINDING MORE AND MORE WOMEN ARE BECOMING INTERESTED IN MAKING INVESTMENTS?

*WHAT CAN BE DONE TO ENCOURAGE OTHERS? WHAT ARE YOU DOING?

✓ *I'D LIKE TO HEAR A FEW STORIES ON HOW SOME OF YOU BECAME INTERESTED IN THE MARKET.

Clement Stone, (Combined Insurance Company) as our guest speaker. The California contingent went to the Hawaiian - Islands that year to visit the publicly-held companies - Del Monte, Amfac, Cinerama, Continental Airlines, C. K. Brewer, etc. The membership is concentrated in New York and Los Angeles with some members in Chicago and San Francisco.

1975-International Women's Year is an appropriate time to visit the major stock exchanges in Europe. Time and money prevent a world-wide visit. Some of our members have visited foreign exchanges as tourists. We think now is the time for an official visit to promote economic goodwill for the United States and the American free enterprise system. It will be very educational and productive to learn how various stock exchanges operate and to compare differences. The development of capital and the investment opportunities in the world are what we are all interested in as well as the participation of women in the business world of the USA and Europe. State Department sponsorship would enhance the value of such a tour. We would be able to talk directly with people important to our purpose.

The entree to the European business women and men as well as the political figures with economic responsibilities would be possible with State Department sponsorship. About eight to twelve women will take this trip on October 1. We will pay our own expenses and make our own itinerary and accommodations subject to State Department suggestions. A trip such as this could be viewed from the standpoint of improving the American economy and would demonstrate the full participation of women in the business world. The knowledge gained would be tremendously beneficial and useful in this very demanding

profession where we must continue to learn and expand information and our expertise all of the time! We would be thrilled and delighted to visit President and Mrs. Ford in the White House prior to our departure or upon our return to introduce them to the women stockbrokers who make the ownership of equities in our wonderful capitalistic society possible for our many American investor clients!
