- 2:00 P. M. Motorcade arrives Bergstrom  
2:10 P. M. Sheels up
- 5:55 P. M. EST C-9 Arrives Andrews Air Force Base.

## BACKGROUND

### SAN ANTONIO FIESTA RIVER PARADE, April 19, 1976

Mrs. Ford will be Grand Marshall of the San Antonio Fiesta River Parade. The illuminated floats of the parade snake their way down the San Antonio river through the heart of the city with King Antonio leading the procession. The parade begins with a ceremony at Arneson Theatre in which King Antonio presents the Grand Marshall to the city and proclaims a week of fun for everyone to set the tone for the fiesta. The Fiesta San Antonio is an annual 10-day spectacular with more than 50 events. It is dedicated to "the memory of the heroes of Texas" and to encouraging pan-American friendship, understanding, and solidarity. The dates this year are April 16 through 25. This is the 81st annual Fiesta.

### SAN JACINTO DAY CEREMONY, April 21, 1976 (Houston)

MONUMENT -- The San Jacinto Monument is located on San Jacinto Battleground, a State Park of 460 acres located on the Houston Ship Channel near Houston. It is the site of the famous battle between the Texas and Mexican armies which won independence for Texas on April 21, 1836. Led by General Sam Houston, about 920 Americans routed Mexican forces numbering more than 1200 under the command of General Santa Anna. The battle lasted 18 minutes. Texas' freedom from Mexico led to annexation and to the Mexican War, resulting in the acquisition by the United States of Texas, New Mexico, Arizona, Nevada, California, Utah, and parts of Colorado, Wyoming, Kansas, and Oklahoma. This acquisition was nearly a million square miles of territory, almost one-third of the present size of the United States.

The San Jacinto Monument, constructed in 1936 and 1939, commemorates the heroes of the battle of San Jacinto and all others who helped win the independence of Texas. It was constructed with Federal and State funds at a cost of about one million five hundred dollars. It is 570 feet high and built of reinforced concrete faced with Texas fossilized buff limestone.

BATTLE SHIP TEXAS -- The site of the San Jacinto Ceremony is the Battle Ship Texas moored at the battleground since San Jacinto Day, 1948. The USS Texas is a veteran of two world wars and many campaigns. The State of Texas was the first to save its namesake battleship from the scrap-heap. The states of North Carolina, Alabama, and Massachusetts have followed suit.

### GLADYS CITY , April 21, 1976 (Beaumont)

The Beaumont Bicentennial Commission has asked Mrs. Ford to accept the recreated boom-town of Gladys City as Beaumont's Bicentennial gift to the nation. A reconstructed cluster of wooden buildings, Gladys City sprang up around Spindletop oil field in the early 1900's. It is located in Beaumont about a mile north of the site of Lucas Gusher, the first well in the Spindletop field. The reconstructed city consists of clapboard buildings and businesses typical of the era, oil derricks, wooden storage tanks, and oil field equipment displays.

BACKGROUND

REACT-- April 21, 1976

REACT International (Radio Emergency Associated Citizens Team) is a world-wide non-profit organization of more than 3000 volunteer teams who use citizens band radio equipment to monitor emergency Channel 9. The teams provide emergency aid and road assistance in response to calls for help that come over CB frequencies.

San Jacinto REACT was organized in October 1975 and is representative of the outstanding volunteer service. C.B.'ers are providing throughout the country. With about 55 members, the San Jacinto REACT group attempts to monitor calls seven days a week, a minimum of ten to twelve hours a day, in the Houston/Harris County, Galveston County, Brazaria County area. In the first three months of 1976, members monitored 575 calls for emergency assistance and many feel they can be credited with saving between 15 and 20 lives. Calls included 115 major accidents and such emergencies as vehicle fires and 26 medical emergencies. Because South Houston is without emergency medical service, San Jacinto REACT works in conjunction with other community services to dispatch ambulances or send its own emergency medical service.

San Jacinto REACT consists of five divisions to handle emergencies:

1. Monitoring Division: With base stations to cover incoming calls.
2. The Marine Division: Specially trained to handle the small boat marine emergency and to assist the Coast Guard in helping the vessel in distress.
3. The Medical Division: Specially trained personnel work with the various local and county authorities during disasters and special situations providing medical assistance under the direction of the American Trauma Society.
4. The Search-Dog Division: Specially trained personnel work with the Houston Schutzhund Working and Training Club (SWAT) in four-man teams to do light search and rescue with trained tracking dogs.
5. The Air-Spotter Division: Members work with experienced pilots to operate out of small airplanes as spotters and couriers.

Statistics indicate that a total of 5,200,000 emergency calls are made annually by CB radio operators. Four million plus citizens two-way radios are in use in the U.S.A. alone. About 27 percent of these calls are auto accidents, with one out of every five involving injuries to someone. With one out of every 25 vehicles and one out of every 10 recreational vehicles equipped with CB radios, it greatly increases the chances of an accident being reported as soon as possible after the accident.
