# the Presidents Club

## The Purposes

To stimulate the interest and to encourage participation of alumni and friends in the affairs of the University.

To establish a comprehensive pattern of constant support to the University by alumni and friends.

To sponsor a meeting of its members and University representatives to discuss the plans, problems, and objectives of the University of Michigan.

To provide recognition to devoted alumni and friends who become members.

## The Reasons

For the sake of the past and for the future of Michigan we must agree that we can be called simply a Michigan tradition. It is our duty today, not as it was, but as it should be, to live with honor and glory.

So it is our tradition and our mission to work. They are the men and women of Michigan, the men and women of distinction and achievement in education, research, and public service. They are the men and women who have made Michigan what it is today. It is our duty to live up to the tradition and to the record of achievement and growth and progress of Michigan. It is our duty to live up to the tradition and to the record of achievement and growth and progress of Michigan. It is our duty to live up to the tradition and to the record of achievement and growth and progress of Michigan.

## The Purposes

To stimulate the active interest and to encourage participation of alumni and friends in the affairs of the University.

To establish an exemplary pattern of substantial giving to the University by alumni and friends.

To sponsor meetings of its members and University representatives to discuss the plans, problems, and objectives of The University of Michigan.

To provide recognition to devoted alumni and friends who become members.

## The Reasons

Perhaps the spirit that first enabled The University of Michigan to achieve greatness can be called simply a Michigan tradition. It still exists today—just as strong, just as imbued with fervor and glory.

So spirit and tradition are not meaningless words. They concisely sum up the reason for Michigan's record of distinguished achievement in education, research, and public service. They also are the reasons why a group of dedicated alumni, who desired to help the University maintain its traditional record of academic growth and pioneering research, established The President's Club.

### From the President

This Annual Report provides a welcome occasion for me to express my deepest thanks for the loyal support given to The University of Michigan by members of The Presidents Club.

As members of The Presidents Club, Sally and I enjoy the camaraderie and the sincere interest in the University that we find expressed at the Annual Meeting and as we meet with various members throughout the year.

As president of The University of Michigan, I can assure you that your gifts endow us with the financial flexibility that is essential to maintain the unique enrichment and expanded opportunities that make Michigan a leading institution of higher education.

The national reputation of our Presidents Club is in keeping with the traditional standard of excellence set by the University. Each year, the enthusiasm of club members seems to grow, as does our membership. The exceptional growth of The Presidents Club during times of economic fluctuation is a great tribute to the University.

In a period when higher education faces new trials, new challenges, and growing criticism, and when the importance of higher education itself is being questioned by some, the financial resources and the dedicated volunteer services you devote to your University emphatically affirm the value that you place on your education.

We are most grateful for your continuing interest and for your desire to maintain your University "among the leaders and the best."

*R. W. Fleming*

Mr. and Mrs. Charles Stilec from Detroit arriving at the Museum of Art for the business meeting.

Mr. and Mrs. Norris Host from Bloomfield Hills, Michigan. Margaret Host is the president of the Alumni Association.

## Chairman's Report

The occasion of this fifteenth Annual Report is a good time to take stock of our program. The Presidents Club continues to prosper. By all accounts, there is no doubt that this is the finest organization of its type in the country. Our membership has grown by 230 since the last Annual Meeting, our largest spurt in growth ever, to reach a total of 1,776. Many of these new members were recruited by Paul Goebel. But many were also enlisted by other volunteers who are participating more and more, following the outstanding example set early in our club's history by Paul Goebel and Fred Vogt. A special thanks goes to each member who solicited or suggested new members.

In fact, our volunteer program is of such high quality and has attracted so much national attention that it recently won the Grand Award in the "Special Constituencies Giving Program of the Year" category in the recognition program sponsored by the Council for Advancement and Support of Education.

Attendance at the 1975 Annual Meeting remained high, as close to 500 people participated in the festivities. The meeting opened in the Museum of Art where its director, Bret Waller, addressed the group. Later, members toured the museum, which contains many works of art donated by members of The Presidents Club. It was followed by a luncheon featuring a "Profile of Today's Students" presented by club member and Vice-President for Academic Affairs Frank H. T. Rhodes, Vice-President for Student Services

Henry Johnson, Director of Undergraduate Admissions Clifford Sjogren, and Director of Career Planning and Placement Evart Ardis.

Another highlight was the panel "A Showcase of Some of the Latest Research Projects" chaired by club member William Haber, adviser to the executive officers of the University. We heard stimulating reports on research accomplishments from Angus Campbell, former director of the Institute for Social Research; Robert B. Zajonc, professor of psychology; A. Rees Midgley, Jr., chairman, Biomedical Research Council, and Frederick C. Neidhardt, chairman, Department of Microbiology. The traditional tea at the home of President and Mrs. R. W. Fleming and the president's address at the banquet also were highlights.

Most of us owe our start to The University of Michigan. Upon graduation our diplomas said to the world, "Look, I know something. Now give me a chance." Because of the quality of education at The University of Michigan, more than the usual number of opportunities have been opened to us.

Having experienced various affiliations with the University over many years, I have been gratified to see the University grow and consistently maintain its leadership throughout the world. It has been thrilling to participate in and to witness the growth of private gift support as increasing numbers of alumni and friends have chosen to invest in the future of The University of Michigan by providing supplemental financial support.

Indeed, financial flexibility has been an essential element enabling the University to remain in the forefront of higher education. Often, a relatively small amount of capital, judiciously applied, can yield bountiful dividends in the enrichment of University life. Both designated and undesignated gifts are of great value, but undesignated dollars are becoming increasingly important, especially since they become the seed money for new or little known research and educational frontiers.

During the last three years, undesignated funds have provided emergency financial aid, research internships, and rewards for outstanding teaching. They have also made it possible for the University to become a center for the exchange of information in study conferences on women's sports, alternative careers for doctoral candidates, and the economic outlook.

The University Values Program attracted wide attention and was supported by undesignated gifts. The role of the University in a controversial genetic research area, "moderate risk" recombinant DNA, was thoroughly examined in a number of nationally recognized programs sponsored by these funds.

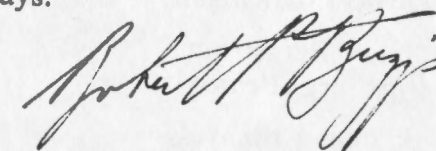

International Women's Year activities were underwritten by undesignated giving, as were a number of special lectures. Unique opportunities were made available, such as the residency of exiled Russian poet Joseph Brodsky.

The University's need for undesignated gifts is great. Such gifts

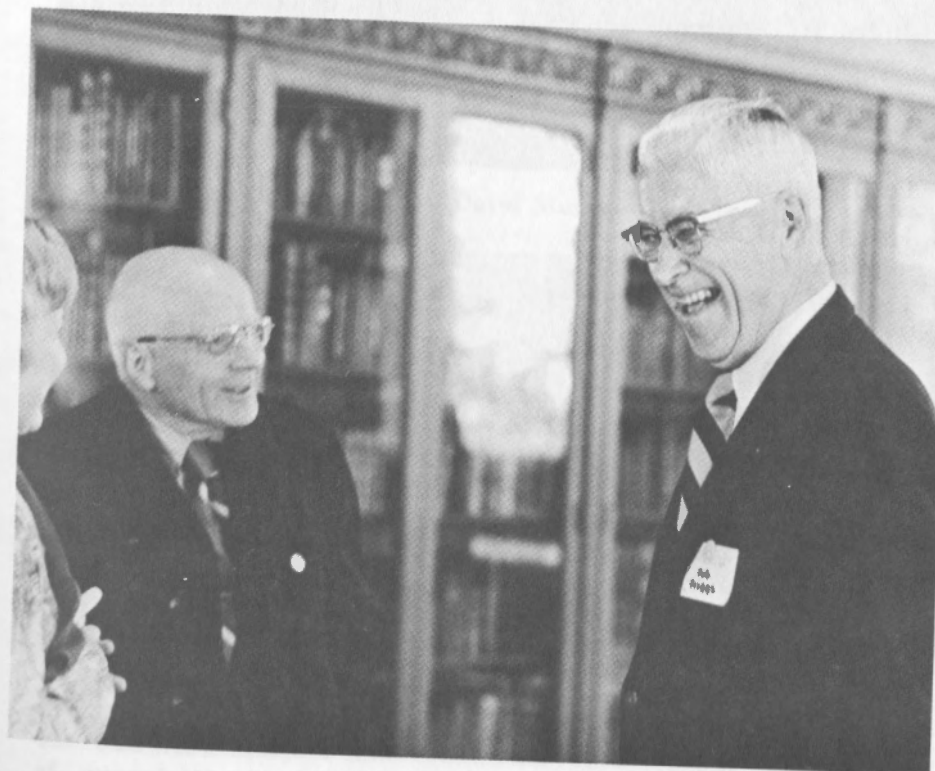

can be made with confidence that they will be husbanded and used wisely to further the enhancement of the leadership of The University of Michigan.

On behalf of the Executive Committee permit me to extend a hearty welcome to all new members. To all members, the committee extends the hope that each of you is proud of your contributions to the club which is dedicated to making a unique investment in the future of mankind.

Serving as chairman of the committee has been a privilege and honor which I shall cherish always.

Robert P. Briggs

Robert P. Briggs of Elk Rapids, Michigan. Mr. Briggs is the chairman of the 1976 Executive Committee of The Presidents Club.

Joseph Linder and his sister, Miss Rose Linder, from Bayonne, New Jersey.

## Qualifications for Membership

Eligibility for membership in The Presidents Club is not confined to alumni of The University of Michigan. At present there are 192 members who did not attend the University but who feel that its demonstrated financial needs justify their generous contributions.

Qualifications for membership can be arranged by signifying an intention to contribute to The University of Michigan through a choice of four different ways, none of which are legally binding on a donor's estate:

1) a gift—in cash, securities, real property, or gifts-in-kind—totalling \$10,000 or more payable immediately, or at the rate of \$1,000 a year for ten years, or within and over ten years; or,

2) a deferred gift of \$15,000 or more payable through a bequest, a life income or Unitrust agreement, an insurance policy (other than term insurance) on the life of the donor (or his spouse), a trust agreement, or another deferred giving instrument acceptable to the University; or,

3) a cash/bequest gift combination of \$5,000 outright or over 10 years at a rate of \$500 annually, and a minimum bequest of \$7,500; or,

4) a matching gift arrangement that qualifies a donor for Presidents Club membership—whereby a gift of \$7,500 by an individual is combined with a corporate matching gift of \$7,500.

Gifts to The Presidents Club qualify as charitable contributions which, under present laws, entitle a donor to federal and state income and estate tax deductions as appropriate to type, amount, and conditions of the gift and age and residence of donor.

At the close of June 1976, a profile of the means by which members have joined The Presidents Club since its founding in 1961 shows nearly three-fourths in cash gifts, with the balance in deferred gifts and a combination of cash and deferred giving.

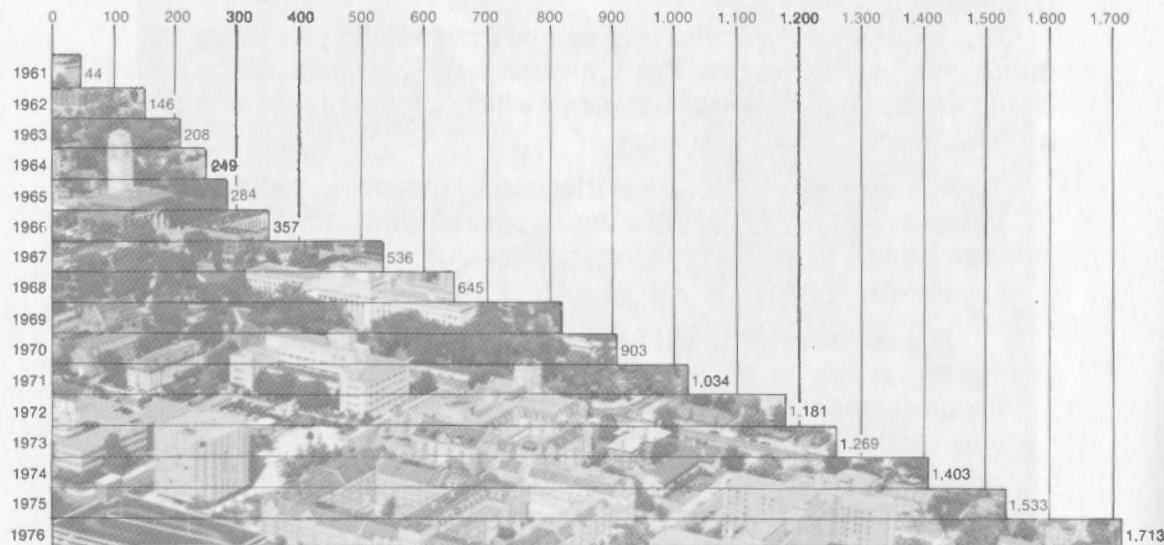

A conservative total estimated value of gifts to the University through the Club since its inception is \$50,000,000. The charts on page 15 illustrate the percentages of gifts in cash (74%), deferred gifts (24%), and cash/deferred gift combinations (2%).

Marian Jones (Mrs. Ernest A.) addresses the business meeting at the 1975 Annual Meeting. Mrs. Jones served as chairwoman of the Executive Committee of 1975.

## How You Help the University

Members of The Presidents Club have contributed nearly six million dollars to The University of Michigan during the past financial year.

Through designated and undesignated gifts you have aided programs and projects that frequently lack other significant sources of support. Your undesignated gifts, which go into the Presidents Fund, enable the president and executive officers to support many worthwhile programs that are not covered by the budget. The president allocates funds for new programs as "seed" money to help them get under way.

Below is a list of projects that received gifts from Presidents Club members during the past year. It stands as just a sampling of the many activities your gifts assist. The University and those individuals whom you help say a sincere "thank you!"

- Museum of Art
- President's Fund
- Surgery Burn Research
- Athletic Scholarships
- Student Loan Fund
- Clements Library
- School and College Funds
- Michigan Historical Collections
- Endowed Chairs
- Memorial Scholarship Funds
- University Musical Society
- Paton Accounting Center
- Power Center for the Performing Arts
- Mott Children's Hospital
- Continuing Education for Women
- Cancer Research
- Engineering Capital Campaign
- Washington Intern Program
- Law School Fund
- Medical School Fund

Mr. and Mrs. Garry B. Curtiss from Shaker Heights, Ohio.

Mr. and Mrs. John Laird from Ann Arbor.

Dr. Jay J. Seaver traveled from Green Valley, Arizona, for the Annual Meeting.

Mr. and Mrs. Carl White from Westlake, Ohio, brought their grandsons along to the President's Tea.

Gardner Parsons from Houston, Texas.

## The Presidents Club Membership Roster

The latest total of Presidents Club memberships was 1,760 as of August 31, 1975, when this roster went to press. Financial data in the report cover the period of July 1975 through June 1976. Total membership at the end of June 1976 was 1,713. Several members of The Presidents Club are not listed because they prefer to remain anonymous.

## It Costs Less to Give Now

If you are planning a bequest to Michigan in your Will, you may achieve more lifetime as well as estate planning goals by giving now to The University of Michigan Donor Pooled Income Fund. A gift of *long-term, low-cost, low-yield* securities offers these lifetime benefits:

- More spendable income
- Lower income tax
- A larger estate for your surviving spouse
- Diversification without capital gains tax
- Professional investment management
- Regular quarterly income from a pool of diversified holdings of stocks, bonds and cash.

### Example:

John X. Adams, LSA '30, a pharmaceutical company executive, had planned to make a \$100,000 gift by Will to the University.

He owned many shares of a stock that had cost about \$25,000. At today's market, its value was \$100,000 and paid dividends averaging about \$3,000 annually. With that and other earnings, his adjusted gross income was about \$50,000 annually. He normally had deductions of about \$6,000.

By making a gift of that stock during his life (instead of a bequest) to the Donor Pooled Income Fund (if the Pooled Fund returns 6%), John X. Adams could achieve the following:

1. Increased spendable income by at least \$24,000 over the first years because of a substantial income tax deduction plus more income from the Pooled Fund.
2. Converting a low-yield, low-cost stock into the higher-yielding Pooled Fund (if it yields 6%), his annual income continues higher even after he has had the full income benefit of his charitable income tax deduction.
3. More income to him increases the maximum amount he can leave to his surviving spouse free of estate tax.
4. He has diversified without a tax penalty.

For more detailed information on The University of Michigan Donor Pooled Income Fund, please write to:

Robert E. Debrodt  
Director for Deferred Giving  
University of Michigan  
3532 SAB Building  
Ann Arbor, Michigan 48109

(Temporarily, the University is unable to acknowledge responses to this information from those residing in Connecticut and North Dakota.)

## It Costs Less to Give Now

If you are planning a program to Michigan in your Will, you may achieve more efficient as well as estate planning goals by giving now to The University of Michigan Donor Pooled Income Fund. A gift of long-term, low-cost, low-risk securities offers these benefits:

- More appreciable income
- Lower income tax
- A larger estate for your surviving spouse
- Dividends without capital gains tax
- Professional investment management
- Regular quarterly income from a pool of diversified holdings of stocks, bonds and cash.

## Example: To illustrate, let's assume that you have a \$100,000 estate and a \$100,000 gift to the University of Michigan Donor Pooled Income Fund.

John K. Adams, L.S.A., a pharmaceutical company executive, has been married 25 years. He and his wife, Mary, have three children. John's net worth is \$1,000,000 and Mary's is \$500,000. John's annual income is \$100,000 and Mary's is \$50,000. John's estate is estimated at \$1,000,000 and Mary's at \$500,000. John's will provides that his estate is to be divided equally between Mary and the University of Michigan Donor Pooled Income Fund. Mary's will provides that her estate is to be divided equally between John and the University of Michigan Donor Pooled Income Fund. John's will also provides that his estate is to be divided equally between Mary and the University of Michigan Donor Pooled Income Fund. Mary's will also provides that her estate is to be divided equally between John and the University of Michigan Donor Pooled Income Fund.

1. Converting a long-term investment into the higher yielding Pooled Fund (a 10% yield) will increase income contrast higher even after he has had the full income benefit of his charitable income tax deduction.
2. More income to him increases the maximum amount he can leave to his surviving spouse free of estate tax.
3. He has diversified without a tax penalty.

For more detailed information on The University of Michigan Donor Pooled Income Fund, please write to:

Robert E. DeBrodt  
Director for Donor Giving  
University of Michigan  
1111 SSB Building  
Ann Arbor, Michigan 48109
