## Committee for the Re-election of the President

May 8, 1972

MEMORANDUM

MEMORANDUM FOR:                   RON WILES

FROM:                               DAN EVANS

SUBJECT:                           Information Requests

The format for our county and precinct analysis of ticket-splitting is now finalized. Subsequent to our discussion, the format will closely resemble the format of April 27. The changes we will discuss. The counties/precincts are to be ranked according to their contribution to total presidential vote in 1968.

We would like the first pass to include all the counties in all 50 states. For selected counties the precinct statistics should be computed. These counties comprise selected metropolitan areas. The attached list will give you a breakdown of these counties.

The entire project should be completed by July 1. Each completed state is to be delivered on an as-ready basis.

As soon as possible I will provide you with a list of ticket-leaders and base races. For those states that had no base race in '68 we will use another year with the same formula.

Much of the data we need is either here or in Detroit. I will provide you with a list of what is available.

By Friday, I need the entire run on Pennsylvania by county and selected precincts. Also by that time, I need a firm cost estimate realizing that some acquisition costs cannot be anticipated at this point.
