POSTAL RATE COMMISSION

Memorandum

May 19, 1976

TO: THE PRESIDENT
FROM: PAUL A. MILTICH *PAM*
SUBJECT: POSTAL RATE MATTERS

Mr. President, congratulations on your big wins in Michigan and Maryland. Sylvia and I dodged the raindrops to get to the polling place and cast our two votes for you. I feel confident you will prevail not only in August but in November.

With regard to Postal Service finances, please rest assured that the Postal Rate Commission will provide the Service with every penny they applied for when they filed their latest rate request.

This rate revenue will include \$207 million as the first installment toward "recovery of prior year losses," inasmuch as the Postal Service is obligated to pay back \$1 billion in borrowing over a period of five years to cover their operating deficit.

As this deficit may increase in future years, the Commission will deal similarly with Postal Service requests for debt service money needed to pay off operating debt.

There is, therefore, no need for a doubling of the Postal Service's public service appropriation, as contemplated by S. 2844, Sen. McGee's pending bill.

I hope you will continue your opposition to an increase in the public service subsidy. The Postal Service and the postal unions are urging an increase in the subsidy solely because this is the easy road. What they should be doing is stepping up efficiency and productivity and relying on the rate structure for the bulk of their revenue.

Our decision in the current rate case should be out by the end of June.
