**Basic Speech**

**April 7, 1976**

Introduction—Big name guests, table, etc.

1. Gag about the Virgin of the Governors Island.

2. Joke about the ruggered individualist filing his income tax return—("Don’t write in this space...I’ll write where I damn well please").

3. Midnight Friday night is (was) deadline for filing income tax returns. Two-week breather. Then on May 1 they start taking it away from you faster under increased schedule of withholding. They don’t want you to spend it, but in Lyndon Johnson’s Great Society, it’s perfectly O.K. for federal govt to blow as much of your dough as they can take away from you—and more.

   
   a. Democrats going down; Republicans going up.
   
   b. Why? Democrats divided on Vietnam—people won’t stand for division within party in power on foreign policy. Want unity on question of achieving peace, maintaining national security.

---

**Basic Speech**

In San Diego, talk mostly about Vietnam; Other pts, about inflation

Following is for San Diego

**J-H Administration Fumbling the Ball on Vietnam**

1. Civil unrest has been shaking Vietnam and hampering war effort.

2. Johnson’s quickie conference with Premier Ky last February at Honolulu bad mistake. Present political troubles in Vietnam stem from fuse made over Ky at Honolulu; fanned fierce political rivalries.

3. Demonstrations started when Ky fired Lt. Gen. (Nguyen Chanh) Thi, 1st corps cmdr at Danang. Widely agreed Ky wouldn’t have dared to purge Thi if Honolulu conference had never taken place.

4. Hope current trouble in Vietnam produces govt with enough popular support to move forward effectively on both the military and social fronts.

5. But new gov’t may emerge in near future which will sue for peace with Viet Cong and demand U.S. forces get out.

---Then the checks hatched at Honolulu will really come home to roost.
REPUBLICANS UNITED ON OBJECTIVE OF STOPPING COMMUNIST AGGRESSION IN VIETNAM

1. Have backed Democratic Administrations on this basic goal since '61.

2. This does not mean GOP cannot make constructive suggestions; has duty to do so as Loyal Opposition.

3. No intention of second-guessing Johnson on day-to-day military decisions. It's his job as commander-in-chief of armed forces to run the war on day-to-day basis.

4. Democrats divided on Vietnam. This dampens our drive to help Vietnam thwart communist aggression. People will turn to party united on Vietnam policy—Republican Party.

Failing fix is for San Diego: Others???

1. Mismanagement in Defense Department.
   a. Shortage of bombs in Vietnam—shortage of 750 and 500-pound iron bombs for dropping by B-52s conceded by McNamara.
   b. Serious deficiencies in men and material reported by Senate subcommittee on preparedness, withdrawal of 15,000 Army specialists from West Germany confirmed the strain.
   c. These deficiencies reported by Sen. Stennis' subcommittee on withdrawal of 15,000 Army specialists from West Germany confirmed the strain.
   d. None of the major National Guard or Reserve units is ready for combat.
   e. There are shortages in clothing, illuminating rounds and certain types of fuses, also in communications equipment.
   f. Many tanks, trucks and other automotive units are for lack of trained maintenance personnel to keep them running.
   g. Stennis subcommittee has warned of dangerous "drawdown" of supplies from West Germany and other NATO allies to meet Vietnam needs.
SLOWING OF WAR, REDUCED COMBAT READINESS OF U.S. FORCES IN EUROPE DENIED BY ADM’N

1. American people losing confidence in Adm'n...credibility gap becoming as wide as the Grand Canyon.

3. Undersecretary of State George Ball on nationwide television/denied civil disorders in Vietnam had hurt the war effort, but next day U.S. officials in Saigon admitted there was bomb shortage and cutback in bombing activity because of the political trouble. (Stevedores at Danang had refused to unload bombs destined for Danang Air Base.)

4. Truth is (according to NY Times military expert Hanson Baldwin) that U.S. forces in Europe are at lower strength level than at any time since before Berlin crisis of 1961.

BASIC SPEECH — Insert—Burbank

For Use in Burbank

TWO ALTERNATIVES ON FORCING STALEMATE, GAINING PEACE IN VIETNAM

1. Under present strategy, it looks like a war without end.

2. Adm'n is planning to send more troops to Vietnam, perhaps double present commitment.

3. Republican alternative is to make fully effective use of our air and sea power. Do this before send even one more of our fine boys to Vietnam. Try this in hope of ending war soon, achieving honorable and lasting peace.

MUST ALSO MOVE QUICKLY ON SOCIAL FRONT IN VIETNAM

1. But pacification, like war effort, disrupted by civil unrest.

2. Also, Johnson plan set at Honolulu looks good on paper but isn't working. Viet Cong come back into villages at night, undo American accomplishments.
VIETNAM WAR AND THE BUDGET

1. War costing a billion dollars a month—still Johnson and Democratic Congress determined to do business as usual and spend an additional $3 billion or move in fiscal 1967 onto Great Society programs.

2. If Congress approves Johnson's budget—and the Democrats probably will add to it instead of cutting it—we'll be in line for...
   a. Higher taxes
   b. Higher prices
   c. Higher deficits

---THE GREAT SOCIETY WILL BECOME THE HIGH SOCIETY.

3. President has deliberately...
   a. Underestimated expenditures
   b. Overestimated revenues
   c. Minimized the deficit

---THE GREAT SOCIETY WILL BECOME THE HIGH SOCIETY.

For use at San Diego

LEJ AND THE ECONOMY

1. Republicans must be right in trying to cut federal spending. The master politician, LBJ, now is pretending to be a realist, talking economy.

2. That is all Johnson has ever done about economy—talk about it.

3. Johnson's kind of economy is THE GREAT HYPOCRISY of the GREAT SOCIETY.

4. Best example of this is the fact that savings from his much-publicized lights-out campaign at the White House have been negligible. On that we have the word of T. Sutton Jeff, National Capital Parks Director, who recently testified before a House appropriations subcommittee that the lights-out savings were very small.

5. Lyndon still goes around turning out the light in the ladies' room at the White House but everybody's on to him now.
LBJ AND FRUMPY BUDGET

1. LBJ's economy phony, so is LBJ budget for fiscal 1967.

2. He came up with a "only" $1.8 billion deficit through not only sleight-of-hand bookkeeping but through fictional spending cuts.

3. He proposed cuts in established, successful programs—reductions he knew no congressman could go for. These were cuts in school lunch and school milk programs, cuts for land grant colleges, the agricultural extension service, meat inspection and impact school aid.

4. He really thinks this money shouldn't be spent on these programs, he doesn't have to spend it even if Congress restores the funds. He can freeze this money, just as Defense Secretary McNamara froze more than $600 million in military construction funds last December—including money for 800 desperately needed units of military housing for our military men and their families.

MORE ON FRUMPY JOHNSON FRUGALITY

4. He still turns off light in empty room at White House, but an Administration official has testified before Senate appropriations committee that savings from entire lights out campaign negligible.

5. Council of State Chambers of Commerce, after careful study, has conservatively estimated that cost of Great Society programs will skyrocket from $3.1 billion in 1965 to $21.5 billion in 1970. These are built-in increases. That's why Republicans oppose "small" programs like Rent Supplements, that start at $12 million this fiscal year.

6. Still playing the game of make-believe, Mr. Johnson last Saturday signed the 4-H bill...Robert Horatio Humphrey House, but said he would not ask Congress this year for money to build it because it is "neither necessary nor appropriate at this time." Bill provides $45,000 in architect's fees to be spent this year.
INFLATION

1. We're in wartime inflation.

2. During four months, November through February, wholesale prices climbed at 6 per cent annual rate. Levelling off in March doesn't mean much. There still will be steady up trend.

3. I predict cost of living will jump at least 3 per cent the rest of this year.

4. Four deficits in a row—49 per cent increase in federal spending since 1960.

5. This fantastic growth in cost of federal government, this unbelievable increase in federal spending is primarily responsible for the inflation we're experiencing today.

Talk about Shell-Game on Tax Cuts

great shell-game operator, LBJ, is now-you-see-it-now-you-don't He has already wiped out part of the excise tax cuts by boosting taxes on telephone and cigarette service and care. Now he's talking about a $5 billion income tax boost—and trying to wish it away by asking governors and mayors to hold back on spending and big businessmen to cut back on expansion plans. As a kind of after-thought, he has talked about cutting federal spending. If he and big spenders in Congress would cooperate, Republicans would be only too glad to help make cuts in non-defense federal spending.
FORCING CUTBACK IN BIG EXPANSION DOESN'T MAKE SENSE

1. You don't fight inflation by reducing the supply of goods.
2. This kind of action invites recession.
3. Cutback in expansion plans is in direct conflict with Administration decision to continue allowing 7 per cent tax credit for investment.
4. White House is getting big business to cut back on expansion plans while Treasury Dept. still is offering tax incentive to go ahead.
5. This underscores the confusion already apparent in Johnson-Humphrey Administration on how to deal with inflation.

Talk About GOP Economy Drive:

We don't have to raise taxes. That's the way the Johnson-Humphrey Administration is headed, but it doesn't have to happen. Republicans have a far better answer—cut federal spending.

Mr. Johnson has talked about a 5 to 7 per cent increase in income taxes. We've got a better idea—cut federal spending by 5 per cent. I've heard it said this is a meat-axe approach. That's nonsense. If Mr. Johnson can tell his cabinet to save $1.1 billion the last three months of this fiscal year, he can find places to save $ billion in the 12 months beginning July 1. That's simple arithmetic even a big spender can understand.
Talk about Phoney Unemployment Tax

Johnson-Humphrey Administration trying to delude the people into thinking the nation is enjoying great peacetime prosperity. It's wartime prosperity, therefore a false prosperity bearing the fruits of inflation, the danger of a bust after boom.

Nothing about fact that 266,000 Americans were drafted in past 12 months. Unemployment dropped by 190,000 in past year among men under 25. During same period, 264,757 men in that age group were inducted into Armed Forces. We have 235,000 men in Vietnam, with prospect number will go to 300,000 or 400,000 or more. By no stretch of imagination can we say we have a peacetime prosperity.

GOP on Way Up, Will be Strong in 90th Congress

1. Johnson may not get GOP Congress but close to it.
2. I predict gain of 40 to 50 seats by GOP; some political writers, as many as 80 new Republicans in House. (Again, I'm a conservative, so I stick with the lower figures.
3. Why GOP on way up, Democrats slipping badly? Johnson has failed to come to grips with inflation, prefers tax increase to federal non-defense spending cuts. Johnson has failed to deal adequately with Vietnam, so war there will drag on for years and years.
GOP CAN MAKE 1966 COMEBACK

1. Wouldn't take this for granted, shouldn't rely on automatic snapback. (You can snap back with Stenback, but in politics you don't just take a pill).
2. Must field attractive candidates—and we're doing it.
3. Must raise enough money to run effective campaign and, as you know, we're doing it. Have good product to sell, but any businessman knows you have to advertise.
4. Attractive candidates, well-financed campaign no substitute for work.
5. Republicans can make solid gains in '66 if everybody marches shoulder-to-shoulder and arm-in-arm to bring the GOP a team victory. Now, out the cheer leaders and let's go.
1. This is Booming area
   a. It's called the "Redwood Empire" –
   b. Expanding at rapid rate

2. Can't tell by looking at you people that you're sharp, hard-working, good solid Americans. I understand this district has the highest level of education of any in the country.

3. Want you to know Clausen is doing good job for you in Washington.
   a. He's looking out for everybody in his district on the Redwood National Park Bill (bill to create redwood park in north end of Clausen's district. It's problem for him, what with some people in district being for the park and others against it, but he has good grasp of the situation, good control over it. He's determined to preserve the redwoods and to preserve the jobs involved, too. I think Congress is going to create this park, so you're lucky you have a man like Clausen in Washington to look after all the interests of the district on this thing.

ED REINCKE insert

1. He scored upset victory in 1964 and he's proved he deserved to win. He's giving you good service. Is one of the hardest-working men in Congress; I can vouch for that.

2. He's on Interior and Insular Affairs Committee—good assignment for a Californian. He's also on Merchant Marine and Fisheries Committee—natural for a fellow who's a skin diver.

3. I'm glad he gave up skydiving, though. I wouldn't want you to lose him. I need him, too. After all, there are only 110 of us Republicans in the House.

4. I'm pleased that Ed is bringing the federal government to you through the "Community Days" he held throughout the district last year and through his mobile office. He's a good man, and don't you forget it when it comes to sending him back to Congress.
1. I agree with Ed that individual initiative should be used to the fullest at the local level. That’s basic Republican philosophy. And I understand it’s the philosophy of all good Californians.

2. You people are concerned about the way the White House is controlling the entire legislative process in Washington. So am I—most concerned.

3. That’s why Republican Party must regain strength. We must put new life into the two-party system.

4. Must bring the political scales back into balance—must elect more men like Ed Reinecke to Congress Nov. 5.

5. Johnson would be better off with GOP Congress. Sounds like he’s campaigning for GOP. He talks of cutting spending but liberal Democrats rebuff GOP attempts to cut all 5 per cent. Has wished out loud that Democrats would give him the Vietnam support he gets from Republicans. His party is split over Vietnam, some Democratic senators even arguing at this late date that we should get out. Republicans, in best tradition of GOP, solidly reflect American people’s determination to halt Communist aggression in Vietnam and throughout the world.
DISUNITY IN ADMINISTRATION BREEDS DISUNITY IN NATION

1. Democrats divided; this hurts nation. Cause is "politics as usual" on part of Johnson-Humphrey Administration.

2. Democrats divided; this hurts war effort. Undermines morale of our boys fighting in Vietnam, encourages Communists to believe they will prevail.

3. Republicans united, would give nation sound policies, not politics.

4. Republicans are going on record for economy, cuts in non-military spending.

5. Democrats are going on record for more spending, for business as usual during Vietnam war, more inflation.

California Faxe Jokes

I have a friend in San Francisco who owns a fishing fleet. Everyone he meets a new girl he buys her mink coats, diamonds, expensive perfumes and all kinds of luxuries. When income tax time comes, he puts all these items down as business expense deductions—You know—bait.

I'm glad the grape pickers strike is over. I'd hate to see the White House go back to serving French wines to its guests.
Speech Card

GOP Associates
San Diego Country

Reincke
Vietnam and inflation are the two biggest issues in the nation today.

Republicans are not making Vietnam an issue. The people are.

I can tell you this: I am firmly convinced that President Johnson's quickie conference with South Vietnamese Premier Ky last February at Honolulu was a bad mistake. I think it is the cause of the current political and civil unrest in Vietnam.

Mr. Johnson stirred up sharp political rivalries in Vietnam by demonstrating all-out support for one individual. Master politician that he is, he should have known better. It was then that the Buddhists began calling Ky "an American puppet."

The current uprisings in Vietnam were touched off when Ky ousted Lt. Gen. Nguyen Chanh Thi from his command at Danang. It is generally agreed Ky would never have dared to purge Thi had the Honolulu conference never taken place.

I hope that out of the present political turmoil in Vietnam will come a government with enough popular support to move forward effectively on the military and socio-economic fronts so that Communist aggression there can be halted.

But there is a distinct possibility the result may be a government which will sue for peace with the Viet Cong and demand that U.S. forces get out. Then the chickens hatched at Honolulu will really come home to roost.

***

President Johnson again is talking economy. That's all he has ever done about making any real cuts in government spending--just talk. His kind of economy is the Great Hypocrisy of the Great Society because it's phony.

We recently heard from a candid man in the Johnson-Humphrey Administration--a refreshing turn of events. National Capital Parks Director T. Sutton Jett said in testimony before a House appropriations subcommittee that the savings from Mr. Johnson's lights-out campaign at the White House had been negligible. Lyndon still goes around turning out the lights in the ladies' room at the White House, but everybody's onto him now.

(MORE)
Turning away from the ridiculous, we learn the Council of State Chambers of Commerce has conservatively estimated that the cost of Great Society programs will skyrocket from $3.1 billion in 1965 to $21.5 billion in 1970. That's why House Republicans oppose "small" programs like Rent Supplements that start at $12 million this fiscal year.

***

The American people are losing confidence in the Johnson-Humphrey Administration. This is a natural consequence of what I call the Credibility Canyon--failure of the Administration to let the people know what's happening.

In that vein, we found Undersecretary of State George W. Ball unblinkingly saying on a recent nationwide television program that the civil unrest in Vietnam was not adversely affecting the conduct of the war. The next day, U.S. officials in Saigon acknowledged that politically riled stevedores at the port of Danang had refused to unload bombs there. That contributed to a cutback in U.S. bombing activity.

We also find Defense Secretary Robert S. McNamara heatedly denying that the combat readiness of U.S. forces in Europe has diminished.

The truth is that U.S. forces in Europe are at a lower strength level than at any time since before the Berlin crisis in 1961. For the last 18 months we have been withdrawing Army specialists and certain types of war material from Europe because of Vietnam needs.

McNamara can issue all the denials he wants to. Our combat readiness in Europe just isn't what he would have the nation believe.

***

Republicans have been backing Democratic administrations since 1961 in this nation's effort to thwart Communist aggression in Vietnam.

This does not mean we cannot offer what we consider to be constructive suggestions concerning overall Vietnam policy. But it does mean we have no intention of second-guessing Mr. Johnson on day-to-day military decisions.

Mr. Johnson should have sole responsibility for day-to-day conduct of the war. He is the elected commander-in-chief of our Armed Forces, acting on advice from the Joint Chiefs of Staff. Of course, he does not always take that advice.

Democrats are divided on Vietnam. This encourages the Communist aggressors to think they can prevail if they just fight long enough. This is damaging to this nation, and the people will not long stand for it. They will turn to a party united on Vietnam policy--the Republican Party.

###
CONGRESSMAN
GERALD R. FORD
HOUSE REPUBLICAN LEADER

FOR RELEASE FRIDAY P.M., APRIL 15, 1966

EXCERPTS OF SPEECH BEFORE REPUBLICAN ASSOCIATES OF SAN DIEGO COUNTY AT SAN DIEGO

Vietnam and inflation are the two biggest issues in the nation today.

Republicans are not making Vietnam an issue. The people are.

I can tell you this: I am firmly convinced that President Johnson's quickie conference with South Vietnamese Premier Ky last February at Honolulu was a bad mistake. I think it is the cause of the current political and civil unrest in Vietnam.

Mr. Johnson stirred up sharp political rivalries in Vietnam by demonstrating all-out support for one individual. Master politician that he is, he should have known better. It was then that the Buddhists began calling Ky "an American puppet."
