CONGRESSMAN  
**GERALD R. FORD**  
HOUSE REPUBLICAN LEADER

**NEWS  
RELEASE**

--FOR RELEASE AT 6:30 P.M.--

Monday, April 17, 1972

Excerpts from a speech by Rep. Gerald R. Ford, R-Mich., Republican Leader, U.S. House of Representatives, before a Republican Dinner at Cassopolis, Michigan.

The entire Republican record during the three years that Richard Nixon has filled the Presidency is a basis for pride. This is a truth we are going to have to carry to the American people this election year.

We can be proud because we are successfully fighting an inflation that roared ahead almost unchecked under the Democrats between 1965 and 1969. The cost of living rose 4.3 per cent in 1971. That is a marked improvement over the 5.5 per cent increase in 1970 and the 6.1 per cent rise in 1969. Through the President's bold program of price and wage controls--a program that is working--we stand a good chance to hold the rise in 1972 to 3 per cent.

We can be proud of the President's New Economic Policy, which will push unemployment down toward the 5 per cent mark by the end of 1972. We are moving from a wartime to a peacetime economy, and the dislocations are severe. Meantime, employment has topped 80 million, an all-time high. With employment steadily growing, unemployment will drop. Sound growth in the economy will soak up the increased number of job-seekers. The economic indicators are pointing upward.

We have to work to make truths like this known because the Democrats are playing a game they are very good at. It's called "viewing with alarm"--seeing the worst of things and blaming the Republicans for it.

There's really only one way to beat the Democrats at their game. That is to recite the real-life accomplishments of our Republican Administration.

We have reason to be proud of the Nixon Administration, and we should let the American people know the truth about it.

The truth is it was the Nixon Administration that reversed the course of the Vietnam War and is ending U.S. involvement in that war in an honorable way.

It is the Nixon Administration that brought about a cease-fire in the Middle East and has helped prevent an outbreak of fresh fighting there.

(more)

It is the Nixon Administration that is engaged in strategic arms limitation talks with the Soviet Union--talks that carry the promise of a near-future agreement.

It was the Nixon Administration that reached agreement in principle with the Soviet Union on access to Berlin.

It was the Nixon Administration that brought about ratification of the Nuclear Non-Proliferation Treaty.

It was the Nixon Administration that renounced biological weapons and the first use of chemical warfare.

It was the Nixon Administration that achieved a treaty prohibiting the emplacement of nuclear weapons in the world's seabeds.

It is President Nixon who transformed the world scene from one of confrontation between the major powers to one of negotiation--who has made the long journey to China on a mission for peace.

It is President Nixon who has developed a new strategy for peace in the world centered around the doctrine of helping those nations willing to help themselves.

These, of course, are all actions aimed at promoting peace abroad. What about progress at home?

It was the Nixon Administration that reordered our national priorities by devoting a greater part of the Federal Budget to human needs than to defense.

It was the Nixon Administration that achieved the most significant improvements in unemployment insurance in our entire history.

It was the Nixon Administration that brought about a massive increase in our manpower programs to provide work experience and training for young people of all races.

It was the Nixon Administration that quadrupled minority hiring for government jobs in higher grades and expanded aid to minority enterprises by more than half--and has since proposed an even greater expansion of such aid.

It was the Nixon Administration that tripled food assistance programs for the needy from \$1.1 million to \$3.5 million a year.

It was the Nixon Administration which proposed \$1.5 billion in funding for school districts with a high concentration of low income families and the doubling of aid to black colleges.

(more)

It was the Nixon Administration which reformed our draft laws to make them more equitable and began moving toward an all-volunteer Army.

It was the Nixon Administration that acted to protect the environment by creating a new Council on Environmental Quality and a new Environmental Protection Agency.

It was the Nixon Administration that won passage of legislation to improve on-the-job safety for America's working men and women.

It was the Nixon Administration that put together an organized assault against organized crime and turned the syndicate into an empire in deep trouble.

It was the Nixon Administration that trebled Federal aid to local communities for law enforcement and court improvements and cut back the rise in crime.

It was the Nixon Administration that has launched the most progressive and most comprehensive Federal attack on drug abuse ever undertaken in the United States.

Now we look to the future. We look for more progress--progress toward peace at home and abroad, and progress toward prosperity in peacetime.

There is much more that Richard Nixon is determined to accomplish.

By a stroke of fate, he has been afforded an opportunity to change the direction in which the Supreme Court was travelling during years when more attention was paid to the rights of criminal defendants than the rights of society.

Richard Nixon is keeping all of his promises to the American people. He wants to do much more than he has already achieved. What he needs to write his whole program into law is a Republican Congress.

There is a whole host of Nixon Administration reforms awaiting congressional action: A workfare program in place of the welfare scandal; Federal revenue sharing, giving the States and cities a percentage slice of Federal tax receipts so they can zero in on their own problems free from Federal red tape; reorganization of cabinet departments so government will be more responsive to the people; a consolidation of manpower training programs, to be turned over to the states and local communities as they become equipped to handle them; a re-examination of Federal aid to schools to achieve quality education; and a revamping of our labor laws to improve handling of national emergency labor disputes in transportation.

Every one of these reforms will be an issue in the 1972 campaign unless the Democrats in Congress join Dick Nixon in his crusade to improve the quality of life in America.

(more)

The best way to help Dick Nixon is to elect Republicans to Congress next November 7 so he will have the team he needs to turn America in the right direction.

The hour of truth is upon us, and the time is now. Truth is our greatest weapon in the 1972 campaign. Our success at the polls will be measured by our success in impressing the truth upon the American people.

So tell the Republican story. Tell the Richard Nixon story. Let the American people know what Dick Nixon has done to bring them peace abroad and progress at home.

That is the truth you must make clear. So let us do the job. Together we can. We are on the march--we and Dick Nixon. Let us prove that our party is a winning one. Let us move forward together.
