AMOUNT AND PURPOSE OF LOAN

The total amount of this loan shall be $35,000.00. The purpose of the loan is to provide financing in the amount of $30,000.00 to purchase the Kamilche Valley School and related property (3.91 acres). An amount of $5,000.00 of the loan will also be used for repair and renovation of the property as deemed necessary.

The school building and property will be used by the Squaxin Island Tribe as a tribal headquarters, office accommodation, and tribal enterprise center that will promote the economic development of the Squaxin Island Tribe and its members.
STATEMENT REGARDING ORGANIZATION

The Squaxin Island Tribe of the Squaxin Indian Reservation, Washington, operates under Constitution and By-Laws approved July 8, 1965, by the Secretary of the Interior, Washington, D. C.

The Squaxin Island Tribe is organized under the I. R. A. Act.

Squaxin Island was designated as an Indian Reservation by the Medicine Creek Treaty of December 26, 1854. Squaxin Island is located in Mason County, five miles north of Olympia, Washington.

The island is slightly over four miles long and varies from somewhat over three tenths of a mile to almost nine tenths of a mile in width.

Most of the Indian people who once lived on the island have returned to the Skookum Inlet area (Kamilche) because of adverse living conditions. There is no electricity on the island and no developed domestic water source. Furthermore, the island may only be reached by boat, a condition which complicates the transportation of school children and working people, especially during the winter months. At the present time, no Indian people live year around on the island, however, some families do spend time there in the summer months.

The majority of the enrolled members of the Squaxin Island Tribe live in twenty-four homes in the Kamilche vicinity, a small community on the mainland, ten miles southwest of Squaxin Island.

ACCOUNTANT'S REPORT
SQUAXIN ISLAND TRIBAL COUNCIL
SHELTON, WASHINGTON
(Field Work Completed November 4, 1973)

We have examined the Cash Receipts and Disbursements of the Squaxin Island Tribal Council for the period July 1, 1972 through June 30, 1973. Our examination was conducted in accordance with generally accepted auditing standards and included such tests of the accounting records considered necessary in the circumstances.

In our opinion, the accompanying exhibits present fairly the cash balance at June 30, 1973, and the Receipts and Disbursements for the year then ended, in conformity with generally accepted accounting principles.

COMMENTS

The Tribe's records consisted of a Check Register for recording deposits and checks written. It was noted that the Tribe has several programs being handled by other organizations; these were not examined by the auditor.

In a discussion with tribal officials it was suggested that an inventory, including a qualified appraisal, be taken of the Tribe's fixed assets; with this information and records of receivables and liabilities, it would be possible to determine the Tribe's financial position.

JUSTIFICATION FOR LOAN

The Indian population of the Kamilche Village realized the need for establishing a facility to effectively deal with the affairs of their tribe. A physical facility with an adequate amount of floor space is necessary to insure the continuation of vital programs, reflective of a progressive Indian society.

The opportunity to acquire such a structure then presented itself in the form of the Kamilche Valley School and property adjacent to the school (3.91 acres).

The Kamilche Valley School had been used in the past for tribal affairs (i.e., Tribal Council meetings, General Council meetings, ...), educational programs (i.e., summer school, adult Indian education, ...), and recreation programs. During that use period we noted that the structure was well suited for the purposes and needs of the Tribe, both now and in the projected future.

Today the Kamilche Valley School is being rented by the Squaxin Island Indian Tribe, and on June 28, 1974 our Business Office will move into the building. Not only is there room for our Business Office, there is room for our coming Manpower program, our proposed Squaxin Island Enterprises project, and our Low Rental Housing project. Then there is room left over for any other economic development programs, as prescribed by our Overall Economic Development Program.

The Tribe's capacity for providing meaningful recreational outlets for its active youth would receive a substantial boost through the acquisition of the property adjacent to the school itself, which includes a soft-ball field, and playground equipment.
In sum, the centralization of the various administrative units, to the projects now underway at Squaxin Island, would provide a more convenient and efficient operation in which to manage our Tribal affairs. The fact that this structure can serve as a community center only tends to increase its value to our tribe.

Numerous applications by the Tribe for funding through grants or loans from various sources to purchase the Kamilche School property has met with no success. The Tribe is, therefore, submitting its application for a Revolving Credit Loan from the United States Government in the amount of $35,000.00.
Exhibit G.

PROCEDURES FOR HANDLING THE LOAN

It is the plan of the Squaxin Island Tribe of the Squaxin Island Indian Reservation to use the Secome-Branch of the Seafirst Bank, Federal Way, Washington as a depository of funds.

Repayment of the loan ($35,000.00) from the United States Government will be made over a thirty-year period in accordance with the following schedule: Annual principal payments of $1,166.00 plus accrued interest for the first ten years of the loan, then annual principal payments of $1,167.00 plus interest over the remaining 20-year term of the loan.

Dear Mr. Bradley H. Patterson Jr.,

I write to you in answer to letter received on 29 Oct.

I am glad you people care enough to write this back.

I just wanted to say that if ever you want to do about a agreement I will listen. So thank you from my people and hope I can work something out before it is too late.

Thank you

Dear Sirs:

Mr. Bradley Patterson has forwarded to me a copy of your letter of October 16, 1976, to President Ford requesting that he recognize the United Cherokee Nation of Georgia and a copy of his response on behalf of the President. In your letter to President Ford, you have also asked that he give you land or money with which you could buy land.

As Mr. Patterson indicated in his October 28 response, the Department of Interior has had the matter of "recognition" of Indian tribes under close review. There continues to be some disagreement among the various legal authorities as to what is meant by "recognition" of an Indian tribe, how that status is acquired, and what criteria should be used to determine whether that status exists. In short, I believe it will still be some time before the matter of "recognition" is resolved.

As to your request that the Federal government set aside some land for your group, I can give you the following information. The only statute I know of which would authorize the Secretary of the Interior to take or set aside land in trust for Native Americans not already on a reservation is Section 5 of the Indian Reorganization Act of 1934 (25 U.S.C. § 465). In order to qualify for the benefits of this statute, Native Americans must come within the definition of "Indian" as set out in Section 19 of the act (25 U.S.C. § 479). We are not familiar with
your group or its members and do not know whether you would qualify under this statute. If you were found to be eligible, then it would have to be determined whether land would be available for acquisition for you under Section 5. Moreover, even if you or your group were found eligible and land was available, the authority of the Secretary of the Interior to take land in trust for Native Americans is purely discretionary under the statute.

I hope these comments have been of some help to you and when the Department issues an opinion on the subject of "recognition" I will see that you receive a copy.

Sincerely yours,

H. Gregory Austin

Re: Squaxin Island Tribe/Status of Kamilche Property  

Dear Mr. Garner:  

This will acknowledge receipt of your letter of November 22, 1976 regarding the status of tribal land of the Squaxin Island Reservation.  

Your first question concerns the history of the reservation. The island, now known as Squaxin Island, was reserved for the Squaxin Indians on December 26, 1854, by the Medicine Creek Treaty. The island is slightly over four miles long and varies from somewhat over one-fourth of a mile to almost three-fourths of a mile in width. The total acreage of the reservation is 1,978.86 acres, approximately 659 acres of which have been alienated to non-Indians. Although the Squaxin Indians are considered to be land based, none of them live permanently on the island. The island is accessible only by boat and seaplane, and there are no utilities available on the island, primarily because of poor drainage conditions with resultant difficulty in sewer construction.  

Your second question deals with the statutory authority under which the Kamilche tract was taken into trust for the tribe. With no settlement of the Squaxin Island Indians on the island itself, settlement has taken place throughout the Southern Puget Sound area with the major concentrations occurring in the small towns of Kamilche and Shelton, both of which are in Mason County and approximately 15 and eight miles respectively from the island. In mid-1974 the Squaxin Island Tribe made application directly to the Bureau of Indian Affairs.
for a loan under the Indian Finance Act (Agreement No. 1, Contract No. 14-20-0500-4279) for the acquisition of the property then owned by the Shelton Public School District. Copies of all pertinent loan application documents are enclosed. On December 11, 1974 the Shelton Public School District gave its quit claim deed to the United States of America in trust for the Squaxin Island Tribe. The precise language of the deed was approved by the Bureau of Indian Affairs, and expressly included the provision: "This conveyance is made pursuant to the Act of June 18, 1934 (48 Stat. 984)." Title was duly accepted by the Bureau of Indian Affairs in February of 1976. A copy of this deed is also enclosed.

Apparently, the state of Washington is taking the position that 25 USC §467 requires a "proclamation" before an area can be considered an "Indian reservation" within the meaning of their Revenue Ruling 192, a copy of which is also enclosed. We are now attempting to convince the state that the language on the deed is itself sufficient to constitute a "proclamation" and we may ultimately be successful in this argument. However, in the event the state will not accept the language of the deed as controlling, we would require a proclamation as you have suggested in your letter of November 22.

Incidentally, I should also state that the tract is apparently 3.91 acres, rather than the 2.5 acres previously referenced.

Thank you very much for your assistance in this matter. The Squaxin Island Tribal Council wishes me to thank you in advance on their behalf.

Sincerely yours,

F. Ross Boundy
