Wright Brothers Day, 1974

By the President of the United States of America

A Proclamation

On December 17, 1903, near Kitty Hawk, North Carolina, Orville and Wilbur Wright revolutionized transportation in America and the world. The two brothers made the first successful flight in a heavier-than-air, mechanically-propelled airplane designed and built by them after years of difficult experimentation.

In the 71 years since their epic flight, aviation and space technology has contributed to closer ties among the peoples of the world by igniting their imagination, promoting commerce, and encouraging travel.

To commemorate the historic achievements of the Wright brothers, the Congress, by a joint resolution of December 17, 1963 (77 Stat. 402), designated the seventeenth day of each December as Wright Brothers Day. It requested that the President issue annually a proclamation inviting the people of the United States to observe that day with appropriate ceremonies and activities.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby call upon the people of this Nation, and their local and national government officials, to observe Wright Brothers Day, December 17, 1974, with appropriate ceremonies and activities to recall the accomplishments of the Wright brothers and to encourage further aviation advances in this country and throughout the world.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-seventh day of November, in the year of our Lord nineteen hundred seventy-four, and of the Independence of the United States of America the one hundred ninety-ninth.

Gerald R. Ford

Gerald R. Ford

Wright Brothers Day, 1975

By the President of the United States of America

A Proclamation

On December 17, 1903, near Kitty Hawk, North Carolina, two brothers made the first successful flight in a heavier-than-air, mechanically propelled airplane they had designed and built after years of experimentation.

Through ingenuity and courage, Orville and Wilbur Wright revolutionized transportation. In the 72 years since their epic flight, aviation and space technology has contributed to closer ties among the peoples of the world by inspiring their imagination, promoting commerce and encouraging travel.

To commemorate the historic achievements of the Wright brothers, the Congress, by a joint resolution of December 17, 1963 (77 Stat. 402, 36 U.S.C. 169), designated the seventeenth day of December of each year as Wright Brothers Day and requested the President to issue annually a proclamation inviting the people of the United States to observe that day with appropriate ceremonies and activities.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby invite the people of this Nation, and their local and national government officials, to observe Wright Brothers Day, December 17, 1975, with appropriate ceremonies and activities, both to recall the accomplishments of the Wright brothers and to provide a stimulus to aviation in this country and throughout the world.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-eighth day of October, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the two hundredth.

Gerald R. Ford

Wright Brothers Day, 1975

By the President of the United States of America

A Proclamation

On December 17, 1903, near Kitty Hawk, North Carolina, two brothers made the first successful flight in a heavier-than-air, mechanically propelled airplane they had designed and built after years of experimentation.

Through ingenuity and courage, Orville and Wilbur Wright revolutionized transportation. In the 72 years since their epic flight, aviation and space technology has contributed to closer ties among the peoples of the world by inspiring their imagination, promoting commerce and encouraging travel.

To commemorate the historic achievements of the Wright brothers, the Congress, by a joint resolution of December 17, 1963 (77 Stat. 402, 36 U.S.C. 169), designated the seventeenth day of December of each year as Wright Brothers Day and requested the President to issue annually a proclamation inviting the people of the United States to observe that day with appropriate ceremonies and activities.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby invite the people of this Nation, and their local and national government officials, to observe Wright Brothers Day, December 17, 1975, with appropriate ceremonies and activities, both to recall the accomplishments of the Wright brothers and to provide a stimulus to aviation in this country and throughout the world.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-eighth day of October, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the two hundredth.

Gerald R. Ford

Wright Brothers Day, 1976

By the President of the United States of America

A Proclamation

On December 17, 1903, near Kitty Hawk, North Carolina, two brothers, Orville and Wilbur Wright, revolutionized transportation when they made the first successful flight in a heavier-than-air, powered aircraft. On that memorable day, 73 years ago, those two Americans laid the foundation for modern aviation. The phenomenal advances in aviation and space technology since that first successful adventure are now portrayed in the new National Air and Space Museum in our Nation's Capital.

It is particularly fitting to recognize, in this year of our Nation's Bicentennial, the determination and ingenuity displayed by the Wright brothers during the years of experimentation in developing their airplane. These traits are symbolic of the American spirit and of the American commitment to make this a better world.

To commemorate the historic achievements of the Wright brothers, the Congress, by a joint resolution of December 17, 1963 (77 Stat. 402, 36 U.S.C. 169), designated the seventeenth day of December of each year as Wright Brothers Day and requested the President to issue annually a proclamation inviting the people of the United States to observe that day with appropriate ceremonies and activities.

NOW, THEREFORE, I GERALD R. FORD, President of the United States of America, do hereby call upon the people of this Nation, and their local and national government officials, to observe Wright Brothers Day, December 17, 1976, with appropriate ceremonies and activities, both to recall the accomplishments of the Wright brothers and to provide a stimulus to aviation in this country and throughout the world.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-fifth day of October, in the year of our Lord nineteen hundred seventy-six, and of the Independence of the United States of America the two hundred and first.

Gerald R. Ford

THE WHITE HOUSE
WASHINGTON

December 14, 1976

MEMO FOR: ROLAND ELLIOTT
FROM: MARGUERITE MCAULIFFE
SUBJECT: Wright Brothers Day

Please arrange to have the attached letter robo-typed to the individuals on the enclosed list for the Wright Brothers Day Proclamation.

Thanks very much.

THE WHITE HOUSE

WASHINGTON

December 2, 1976

Dear

President Ford recently signed a Proclamation designating December 17th as Wright Brothers Day, 1976. In his Proclamation the President states, "It is particularly fitting to recognize, in this year of our Nation's Bicentennial, the determination and ingenuity displayed by the Wright brothers during the years of experimentation in developing their airplane. These traits are symbolic of the American spirit and of the American commitment to make this a better world."

The President has asked that I send you the enclosed duplicate of his Proclamation as a small remembrance of this occasion. It comes to you with his very best wishes.

Sincerely,

William J. Baroody, Jr.
Assistant to the President

December 2, 1976

Dear

President Ford recently signed a Proclamation designating December 17th as Wright Brothers Day, 1976. In his Proclamation the President states, "It is particularly fitting to recognize, in this year of our Nation's Bicentennial, the determination and ingenuity displayed by the Wright brothers during the years of experimentation in developing their airplane. These traits are symbolic of the American spirit and of the American commitment to make this a better world."

The President has asked that I send you the enclosed duplicate of his Proclamation as a small remembrance of this occasion. It comes to you with his very best wishes.

Sincerely,

William J. Baroody, Jr.
Assistant to the President

Dear Pam:

Pursuant to your request, I am pleased to enclose the names of 25 leaders in the field of aeronautics as suggested recipients of the President's forthcoming Proclamation marking the anniversary of the Wright Brothers' historic flight.

In addition, should you wish to broaden the distribution, enclosed is an auxiliary list of other leaders in aeronautics from Government and industry.

Sincerely,

A handwritten signature in cursive script, appearing to read "Herb".
