

FOR IMMEDIATE RELEASE

AUGUST 14, 1974

Office of the White House Press Secretary

NOTICE TO THE PRESS

The President has signed H. J. Res. 1104 which extends until September 30, 1974 the authority of the Export Administration Act of 1969, which expired July 30, 1974.

The basic authority of the Export Administration Act, which is administered by the Department of Commerce and authorizes certain controls over exports from the United States, expired on June 30, 1974. This authority was temporarily extended by an earlier resolution until July 30, 1974 to provide Congress with further time to consider extension of the Act and any necessary amendments. Since Congress has not completed this latter effort, the present resolution provides for a further temporary extension until September 30, 1974.
