

August 29, 1974

Office of the White House Press Secretary

NOTICE TO THE PRESS

The President has signed H. R. 15155--Public Works for Water and Power Development and Atomic Energy Commission Appropriation Act, 1975.

The bill appropriates, for fiscal year 1975, a total of \$4,538,272,000 in budget authority for the activities of the Corps of Engineers - Civil, the Bureau of Reclamation, the Bonneville Power Administration, other power agencies of the Department of the Interior, the Appalachian Regional Development Commission, the Federal Power Commission, the Tennessee Valley Authority, the Atomic Energy Commission, and related independent agencies and commissions.

Although the Public Works Appropriation Bill reduces appropriations by \$20 M below the \$4.56 B requested, outlays are increased \$80 M in 1975 and \$130 M in 1976.

Contract Authority	<u>+ 31.3</u>	<u>+ 1.5</u>	<u>+ 1.5</u>	<u>-</u>
Grand Total	4,558.1	-19.9	+79.0	+130.0

1/ Appropriations reduction does not have dollar-for-dollar outlay impacts.

2/ Reduction in appropriations associated with decision to fund the Mexican Colorado River desalting plant incrementally rather than fully fund it in the first year has no effect on outlays, whereas the addition of appropriations to other projects does have outlay impact.

A major part of the Atomic Energy Commission reduction is a \$30 million cut levied against the unobligated balances actually carried over, which has no programmatic or outlay effect.
