

September 3, 1974

Office of the White House Press Secretary

NOTICE TO THE PRESS

The President has directed the Secretaries of Labor and Commerce to certify the workers and former workers of Sbicca of California, Inc., South El Monte, California, as eligible to apply for adjustment assistance.

The Tariff Commissioners had previously reported they were equally divided on the petitions of Sbicca and its workers for a determination of eligibility to apply for trade adjustment assistance. In taking the action, the President exercised his authority to break ties and chose to accept the affirmative views as the findings of the Commission.

About 100 workers may qualify for benefits.
