

ARKANSAS (1)

Walnut Ridge Magnetic Station, Walnut Ridge, Arkansas; 11 acres; estimated value \$35,000. The property was acquired by the Department of Commerce Weather Service and was reported excess by that Department. It was then assigned to the Department of Health, Education and Welfare (DHEW) for conveyance to the Pocahontas School District, who decided after a holding period of several years, that they could not properly utilize this property and it was subsequently returned to DHEW. The City of Pocahontas plans to develop this property as a picnic area with facilities for baseball, softball, etc.

CALIFORNIA (1)

Presidio of Monterey, Monterey, California; 42.25 acres; estimated value \$1,140,000. The property was acquired by the government for military purposes in 1866. The City of Monterey plans to develop a portion of the property as an open space park, another portion will be used as a highway right-of-way and the remaining acreage will be left undeveloped.

COLORADO (1)

Pueblo Army Depot, Pueblo, Colorado; 360 acres; estimated value \$11,000. The property was reported excess by the Department of the Army in 1972. As a portion of the Pueblo Army Depot, it was utilized as grazing land. The State of Colorado (Division of Parks and Recreation) plans to develop the property as a motorized recreational vehicle course and drag strip, with a portion set aside for environmental education due to the presence of some wildlife.

FLORIDA (1)

Federal Aviation Administration "H" Marker, Key West, Florida; one acre; estimated value \$50,000. The property was acquired by the Federal government in 1898 and 1906 for use by the War Department. Monroe County plans to develop this property in conjunction with a previously conveyed four-acre park. The park will include facilities for tennis, night softball, horseshoe courts, picnic tables and pavilions.

ILLINOIS (3)

Portion, Nike Site C-70, Naperville, Illinois; 14 acres; estimated value \$75,000. The property is a portion of the land originally acquired by the government for the construction of Nike Site C-70, Chicago-Gary Defense Area, and was reported excess in 1966. The City of Naperville plans to develop the property for both passive and active recreation. They plan to construct little league fields, softball, baseball, football and soccer facilities, tot lots, tennis courts, bike and pedestrian pathways, a picnic area, an arboretum/horticultural display area, restroom facilities and a 30-car parking facility.

ILLINOIS (CONT.)

Proposed Naval Housing Site, Arlington Heights, Illinois; 51 acres; estimated value \$2,100,000. The property was acquired by the government in 1944 for use by the Department of the Navy. The Village of Arlington Heights plans to develop the property for use as a community recreation area with a golf course and several storm retention and recreation ponds.

Bushnell Bin Site, Bushnell, McDonough County, Illinois; four acres; estimated value \$2,000. The property was acquired in 1954 by the Commodity Credit Corporation for grain storage. The City of Bushnell plans to develop the property into a community recreation center. Development plans include construction of a shelter house, picnic areas, a comfort station, game courts, a playfield, children's gymnasium equipment and a parking lot.

KENTUCKY (1)

Lock and Dam No. 4, Green River, Butler County, Kentucky; 9 acres; estimated value \$25,000. The property was acquired by the government in 1886 and 1911. The County of Butler plans to develop the property as a multi-use county park. Development plans include picnic areas with tables and grills, a floating pier for fishing and boating, all-weather game courts, horseshoe pits, croquet courts, comfort facilities and a parking lot.

MARYLAND (2)

Washington Aqueduct, Seneca Quarry Site, Montgomery County, Maryland; 50 acres; estimated value \$50,000. The property was acquired by the Federal government in 1854 to provide stone for the aqueducts and other structures. The Department of the Interior's National Park Service plans to use the property to serve as an addition to the Chesapeake and Ohio Canal National Historic Park.

Agricultural Research Center, Beltsville, Maryland; 15 acres; estimated value \$150,000. The property was acquired by the Federal government in 1933. Maryland's National Capital Park and Planning Commission plans to use the property as a nature appreciation addition to the adjacent Powder Mill Recreation Center and Paint Branch Stream Valley Park.

NEW JERSEY (2)

Charles Wood Area, Fort Monmouth, New Shrewsbury, New Jersey; 17 acres; estimated value \$265,000. The property is a sub-installation of Fort Monmouth and was acquired by the United States in 1942 for Camp Charles Wood. In 1945, it was reassigned to the Department of the Air Force, and in 1952 was re-transferred to the Department of the Army. The Borough of New Shrewsbury plans to develop the property as a passive recreation area to include nature trails, picnic areas and a playground.

NEW JERSEY (CONT.)

Fort Dix, Ocean County, New Jersey; 291 acres; estimated value \$320,000. The property was acquired by the government in 1940. The State of New Jersey plans to develop the property as open space for passive recreation in conjunction with the adjoining Lebanon State Forest.

NEW YORK (1)

Hancock Field, Installation No. 4605, Town of Cicero, New York; 12 acres; estimated value \$93,000. The property was originally acquired for the Syracuse Army Air Field. The Town of Cicero plans to develop the property as an active recreation facility for summer, fall and spring activities, with a minimal passive recreational area provided.

NORTH CAROLINA (1)

Veterans Administration Hospital, Fayetteville, Cumberland County, North Carolina; 29 acres; estimated value \$25,000. The property was acquired by the government in 1938 as the result of a donation. The Cumberland County Board of Commissioners intends to lease the property to the City of Fayetteville for park and recreational purposes in conjunction with the existing park which is also leased to the City by the County. The City of Fayetteville plans to use the property for passive recreation such as hiking, picnicking and bicycling.

PENNSYLVANIA (1)

New Cumberland Army Depot, York County, Pennsylvania; 112 acres; estimated value \$35,000. The property was acquired by the Federal government in 1918 and 1928 for use as a reserve storage area. The Township of Fairview plans to develop the property as a passive recreation area to include nature trails, a pavilion, a comfort station, maintenance building, parking lot, fishing area, tables, benches, playground and a multiple-use area.

VIRGINIA (4)

Cape Charles Air Force Station, Northampton County, Virginia; 60 acres; estimated value \$30,000. The property is a portion of the former Fort John Custis in Northampton County and was transferred from the Department of the Army to the Department of the Air Force in 1951. Northampton County plans to mainly leave the property in its natural state for passive recreation. However, some modifications are planned which will include construction of an Interpretative Center where exhibitions of local flora and fauna will be displayed and studied and the development of picnic areas and nature trails.

VIRGINIA (CONT.)

Federal Reformatory, Petersburg, Virginia; four acres; estimated value \$4,000. The property was acquired by the Federal government in 1919 for use by the Department of the Army in its operations at Fort Lee. The City of Hopewell plans to use the property in conjunction with a previously conveyed 18-acre parcel, to include development of tennis, basketball and multi-purpose courts and parking facilities.

Fort Lee, Virginia; 32 acres; estimated value \$290,000. The property was acquired by the Federal government in 1919 for the establishment of Camp Lee. Prince George County plans to develop the property as a passive recreation center, and will be the first park owned and maintained by the County. Development plans include bicycle and nature trails, picnic areas, pavilions, comfort stations, a children's play area and a parking lot.

Naval Research Laboratory, Hybla Valley Site, Fairfax County, Virginia; 1,262 acres; estimated value \$10,000,000. The property was acquired by the Department of the Navy by transfer in 1968. Fairfax County plans to develop the property as a nature conservation and equestrian complex. Development plans include a nature center, an observation tower, stable, two show rings, cross-county course for horses and nature and riding trails, with the existing structures serving as maintenance buildings.

WASHINGTON (1)

Orchard Heights Pit Site, Kitsap County, Washington; 14 acres; estimated value \$55,000. The property was assigned to the Bureau of Public Roads in 1960 and was subsequently conveyed to Kitsap County for road building purposes. Kitsap County Park Department plans to develop the property as an area park to include facilities for picnicking, baseball, and other team and individual games.

WISCONSIN (1)

U.S. Disciplinary Barracks, Milwaukee, Wisconsin; 103 acres; estimated value \$300,000. The property was acquired by the government in 1945 and was used as a penal institution until 1950 when it was deactivated and made a sub-installation of Fort Sheridan, Illinois. The City of Milwaukee plans to develop the property for public recreation, open space and as an Environmental Education Center. Development plans include a multi-use building, archery ranges, water activities, winter sports facilities, garden areas, bike trails, a nature study area with an arboretum and an overnight camping area.
