NOTICE TO THE PRESS

HOSPITAL BULLETIN #7 - 11 AM

Dr. William Fouty, of the National Naval Medical Center at Bethesda reports that Mrs. Ford had an excellent night. Today she is walking about the suite, working on her mail, and talking with members of the family. Dr. Fouty says that the First Lady continues to progress in achieving mobility of her right arm. For dinner last evening, Mrs. Ford enjoyed pork chops, vegetables, fruit cocktail and tea. For breakfast this morning, she had scrambled eggs, toast and tea. Her condition remains excellent.
