NOTICE TO THE PRESS

HOSPITAL BULLETIN # 9 -- 11:00 A.M.

Mrs. Ford had an enjoyable visit Saturday evening with the President and Bob Hope, who spent some time in the hospital suite with the First Lady. Afterwards, she spent a relaxing evening and watched a movie on television.

Dr. William Fouty at the National Naval Medical Center at Bethesda, said she had a restful night and is "bright and chipper" this morning. She has an excellent appetite and is eating anything she desires. Her condition is excellent, Dr. Fouty said.
