NOTICE TO THE PRESS

HOSPITAL BULLETIN NO. 10 - 11:00 A.M.

Mrs. Ford had an excellent night, according to Dr. William Fouty, National Naval Medical Center, at Bethesda. The doctor states she had a very enjoyable evening, having a "sit-down" steak dinner with her eldest son, Michael and his wife Gayle. Later she had a visit from the President.

Dr. Fouty says that Mrs. Ford is up much of the time now, and moving about the suite as she wishes. Her spirits and condition continue to be excellent.
