THE NINETEENTH ANNUAL REPORT ON THE  
HEALTH RESEARCH FACILITIES CONSTRUCTION PROGRAM FOR  
FISCAL YEAR 1974

NINETEENTH ANNUAL REPORT  
ON HEALTH RESEARCH FACILITIES

This 19th Annual Report was prepared in accordance with the technical provisions of Section 710 of the Public Health Service Act, as amended. No appropriation has been made for the Health Research Facilities Construction Program since FY 1969. One award has been made since FY 1970 from recaptured funds. It is recommended that no further annual reports be prepared.

I. Fiscal Year 1974 Activity

Activity for 1974 consisted of the completion of 11 previously awarded projects amounting to \$12 million. No meetings were held by the National Advisory Council on Health Research Facilities. No appropriation was requested for this program and one award, the first since FY 1970, was made for \$223,600 from recaptured funds. Except for the revised status of projects previously awarded and the single additional award, there has been no change since the 18th Annual Report. (Completed projects now total \$411.2 million; uncompleted projects, \$61.8 million.)

II. Recommendation for Discontinuation of Future Reports

Section 710 of the Public Health Service Act, as amended, requiring the preparation and submission of annual reports on the Health Research Facilities Program should be eliminated.
