Grants to States for Unemployment  
Insurance and Employment Services

For an additional amount which may be expended for "Grants to states for unemployment insurance and employment services", from the Employment Security Administration account in the Unemployment Trust Fund, \$364,100,000, to remain available until September 30, 1977, which shall be available only to the extent necessary to meet increased costs of administration resulting from changes in a State law or increases in the number of unemployment insurance claims filed and claims paid or increased salary costs resulting from changes in State salary compensation plans embracing employees of the State generally over those upon which the State's basic grant was based, which cannot be provided for by normal budgetary adjustments.

These additional funds are needed to finance the processing of increased levels of unemployment insurance claims, and related employment service activities, increased in part, by Public Law 94-45.

Advances to the Unemployment  
Trust Fund and Other Funds

For repayable advances to the Unemployment Trust Fund, as authorized by Section 905 (d) and 1203 of the Social Security Act, as amended, and for non-repayable advances to the "Federal unemployment benefits and allowances" account, to remain available until September 30, 1977, \$5,000,000,000.

These funds would provide repayable advances to either the Extended unemployment compensation account or the Federal unemployment account of the Unemployment Trust Fund and would also be available to cover payments from the Federal unemployment benefits and allowances account. These funds are needed under currently anticipated levels of unemployment to assure that advances can

be made to States whose resources for unemployment benefits are exhausted and that the Federal Government can pay its share of extended and supplemental unemployment insurance, as well as unemployment benefits for ex-servicemen, Federal employees, those certified by the Department of Labor as unemployed because of imports, and workers not covered by other unemployment compensation programs.

#### Special Benefits

For an additional amount for "Special benefits",  
\$97,100,000.

For an additional amount for "Special benefits"  
for the period July 1, 1976, through September 30, 1976,  
\$10,800,000.

These funds are needed to cover the increasing numbers and amounts of medical and compensation claims under the Federal Employees Compensation Act and the use of approximately \$29.9 million in 1976 budget authority to meet 1975 needs.
