ENVIRONMENTAL PROTECTION AGENCY

Budget appendix page	Heading	1977 Request pending	1977 Proposed amendment	1977 Revised request
635	Abatement and control	\$329,544,000	\$11,300,000	\$340,844,000

The proposed budget amendment provides the funds necessary to implement a new program to regulate discharges of toxic pollutants. The Environmental Protection Agency (EPA) has recently developed a comprehensive plan to regulate the toxic water pollution discharges from 21 industry categories. This plan calls for the establishment of standards which provide a reasonable balance between environmental and economic considerations. This budget amendment will supplement funds currently available in 1976 and requested in the 1977 budget for the EPA effluent guidelines program.
