

JOINT STATEMENT  
BY PRESIDENT FORD AND PRIME MINISTER TRUDEAU  
ON THE OCCASION OF THE PRESENTATION OF CANADA'S  
BICENTENNIAL GIFT TO THE UNITED STATES

JUNE 17, 1976

---

As we meet at the White House, we are delighted to know that friends in Chicago are gathering at the Field Museum of Natural History to open an exhibition of the photographs from the book, Between Friends/Entre Amis, and to launch its tour of the United States. This very handsome book of photographs taken along our common border symbolizes the friendship between good neighbors. It is another of Canada's many salutes to the United States Bicentennial. It is most appropriate that this exhibition should open in the great metropolitan center of Chicago on the Great Lakes which forms part of the boundary so impressively depicted in Between Friends/Entre Amis.
