

Office of the White House Press Secretary  
(Vail, Colorado)

---

NOTICE TO THE PRESS

The President today directed that Senator Robert Dole be given briefings on national security, domestic, and economic issues.

Senator Dole will be briefed tomorrow by C. I. A. Director George Bush and William Hyland, Deputy Director of the National Security Council on national security matters in Washington. Senator Dole will be briefed on Tuesday by representatives of the Domestic Council, the Economic Policy Board, and the Office of Management and Budget on domestic and economic matters.

Senator Dole is familiar with many of these issues because of his service on various Congressional committees. However, the briefings ordered by President Ford today will more completely familiarize Senator Dole with every aspect of President Ford's foreign and domestic policies.
