MEMORANDUM OF CONVERSATION

PARTICIPANTS: President Ford
Secretary Earl L. Butz, Secretary of Agriculture
Lt. Gen. Brent Scowcroft, Deputy Assistant to the President for National Security Affairs

DATE AND TIME: Tuesday, November 26, 1974
PLACE: The Oval Office
The White House

Butz: Did the Koreans raise the question of the delay in PL 480 shipments?

President: No. But Rhodes mentioned something about Taiwan and Korean cotton.

Butz: I'm sorry about the food snafu. The Senators played to the television. Henry made an excellent speech. There were references made to it throughout the Conference and it dominated the Conference. It was incorporated in most of the resolutions.

It was a tough Conference, with all the consumers there. There were many anti-American references. At the end, though, the Secretary General of the Conference said the U.S. was far and away the most generous contributor.

Let me go over some of the principal areas. This is a brochure we put out. [Tab A].
-- First and most important was the effort to expand food production.

-- Then is the problem of food aid. The Indians are buying wheat but they will need 2 million tons more. They have bought about 3.5 million tons. Someone must move wheat or rice into India and Bangladesh.

-- World Food Security. We want to set up a group which will settle the food reserve problem.

-- Information Systems. Even the Soviet Union said they would consider it. The PRC said no.

-- The World Food Council. That's a coordinating and consulting group.

The flap on food started when Canada started when Canada said it would double its aid; Australia said it would increase it too. The Senators went public with their request. In defense of the Administration, I put out how much we have already done. The brochure has all the figures.

President: I'll probably get a question on this in the press conference Friday. Are the voluntary agencies giving us problems?

Butz: Good. No problems. Our corn may not be as tight as we thought. Wheat is down a dollar from the high; corn is about 3.50. We had a heavy wheat planting. Soybeans are down a bit because livestock feeding is down.

President: What about sugar?

Butz: There will be no relief until the new crop. Next year we will have beets running out of our ears. Industry is the big sugar user. The dairy people are raising hell. The beef people are pretty good.

Beef will be down early next year, but pork and poultry will be up.

President: I was disturbed with the flap in Rome. We have to be better organized.

Butz: We should have held our ground.

President: We got the impression that you supported it from the cable you sent back. It was a bad show.
NOTE TO CORRESPONDENTS:

WASHINGTON, Nov. 18--The attached fact sheets were handed out by Secretary of Agriculture Earl L. Butz at a press conference Nov. 18 in Washington, D.C., following the Secretary's return from Rome, Italy, where he headed the U.S. delegation to the World Food Conference.

The World Food Conference in Brief

Food Production. The Conference agreed that increased food production is essential in both developed and developing areas. In the case of many developing countries, a reordering of programs, priorities, and farmer incentives is required to stimulate production. The Conference also recognized that additional funds will be required to help developing countries increase production. In this connection, the United States has supported the creation of a voluntary fund. In Rome, the OPEC countries recommended establishment of such a fund. General approval was expressed at the Conference, and follow-up work by the UN will include this proposal. No specific dollar amounts were proposed. In addition, a number of resolutions were passed to improve nutrition programs, child feeding, fertilizer development, and to increase the participation of women in solving world food problems.

Food Aid. The Conference recommended that food aid donor countries make all efforts, beginning in 1975, to provide commodities and/or financial assistance to ensure at least 10 million tons of grain per year as food aid. The Conference recommended that grain exporting and importing countries, as well as present and potential financial contributors meet as soon as possible on immediate food problems. A meeting is scheduled for Nov. 29 in Rome.

World Food Security. The Conference endorsed the FAO undertaking for international cooperation in establishing a world network of national grain reserves. This would involve adoption of general guidelines for national stockholding policies for grains and the use of international consultations and exchange of information. The Conference gave strong endorsement to the proposal that cereal producing, consuming, and trading nations join together to accelerate implementation of such a world reserve system. This Reserve Coordinating Group, as it was described by Secretary Kissinger in his speech at the Conference, will meet soon to get this activity under way.

Information. The Conference decided to establish a Global Information and Early Warning System on Food and Agriculture, described by Secretary Butz in his Conference speech as "essential to the whole objective of improved food security around the world." The Conference agreed that FAO is the most appropriate organization to supervise this system. All governments were invited to participate. In the beginning, the system will concentrate on basic foods, particularly grains. Later, a wide range of commodities will be included.
Nov. 18, 1974

The Conference acknowledged that increased food production is needed in developed and developing areas. In the developing countries, a reordering of programs, with incentives required to stimulate production, is required to help developing countries increase food production. The Conference also recognized that additional measures are needed to help developing countries increase food production. The United States has supported the establishment of such a fund. General approval was given to the Multilateral Trade Negotiations under the General Agreement on Tariffs and Trade (GATT), as agreed to in the Tokyo Declaration.

World Food Council. The Conference approved establishment of a World Food Council, an organization to have coordinating, consultative and advisory powers with respect to food aid, investment, and other foreign assistance. About 25 members are to be nominated by the UN Economic and Social Council, and elected by the UN General Assembly.

Trade. The Conference stressed the need for eliminating trade barriers, utilizing the Multilateral Trade Negotiations under the General Agreement on Tariffs and Trade (GATT), as agreed to in the Tokyo Declaration.

World Food Council. The Conference approved establishment of a World Food Council, an organization to have coordinating, consultative and advisory powers with respect to food aid, investment, and other foreign assistance. About 25 members are to be nominated by the UN Economic and Social Council, and elected by the UN General Assembly.
U.S. Food Assistance to Other Countries

U.S. Food Aid:
-- In eight years 1965-72, provided 84 percent of all food aid contributions of developed countries (both bilateral and multilateral aid).
-- 46 percent of all World Food Program aid since beginning in 1962. (Canada second with 13 percent)
-- $25 billion in donations and concessional sales since beginning of P.L. 480 in 1954.
-- 143 million tons of wheat, rice, and other grains since 1954.
-- Current year: Higher spending level on P.L. 480 than a year ago. More wheat and rice in physical quantities in P.L. 480 programs this year than a year ago.

Aid to Bangladesh:
-- U.S. has contributed a third of all food aid to Bangladesh since its independence (1972).
-- Current year U.S. is already programming 250,000 tons of wheat and rice to Bangladesh (Title I).
-- We are watching food situation closely in Bangladesh.

Aid to India:
-- U.S. leading provider of economic development since India's independence.
-- Last year, U.S. sent outright donations of $67 million (far more Title II-type programs than any other country).
-- New shipments of food grains expected soon, in addition to Title II donations.

Aid to Sahel:
-- U.S. made direct donations of over a half million tons of grain in FY 1973 and FY 1974.
-- This year, additional donation of 100,000 tons are now moving to the Sahel.
-- U.S. donated $3.3 million to UN Sahelian Trust Fund through FAO for assuring delivery of food in drought relief programs.
-- U.S. has donated $29 million for aid supplies including medicine, vitamins, tools and equipment.
-- U.S. supplied aircraft to assist in delivery.
-- U.S. is providing technical assistance to improve production in the Sahel.

U.S. Technical and Development Aid:

Fertilizer Development Aid:
-- In FY 1975, U.S. will provide 329,000 tons $164,000,000.
-- This could increase substantially during the year.
-- 2/3 or more of the amount will be purchased from developing countries.

Development aid and technical assistance:
-- U.S. has provided more than $1 1/2 billion for agricultural development.
-- Current year: FY 1975 budget requested 50 percent aid with 60 percent earmarked for agriculture.

Training provided for foreign nationals in U.S.:
-- For 22 years, have averaged over 1000 a year.

Overseas technical assistance since 1966 (be taken as a whole):
-- An average of 300 USDA people serve overseas in FY 1975.
-- Land Grant Colleges have provided more than half of the training.

P.L. 480 Research Grants:
-- Since 1954, P.L. 480 counterpart funds have been used in 32 countries.

Direct Grants to Overseas Research Centers:
-- USDA provides one-fourth of the budgets for research programs in the world, including IRRI (Philippines) and the CIMMYT in Mexico.
-- By 1978, these contributions will double.

P.L. 480 Proceeds for Economic Development:
-- In 20 years, $11 billion has been generated, $1 billion has been generated and used by foreign countries.
U.S. Technical and Developmental Assistance

Fertilizer Development Aid:
-- In FY 1975, U.S. will provide 329,000 tons of fertilizer valued at $164,000,000.
-- This could increase substantially during year.
-- 2/3 or more of the amount will be purchased offshore.

Development aid and technical assistance:
-- U.S. has provided more than $1 ½ billion in last 10 years (much of it for agricultural development).
-- Current year: FY 1975 budget requested a doubling of FY 1974 development aid with 60 percent earmarked for agriculture.

Training provided for foreign nationals in U.S.:
-- For 22 years, have averaged over 1000 a year.

Overseas technical assistance since 1966 (beginning of PAGA):
-- An average of 300 USDA people serve overseas in any given year.
-- Land Grant Colleges have provided more than 1,000 man years since 1960.

P.L. 480 Research Grants:
-- Since 1954, P.L. 480 counterpart funds have provided 1500 research grants in 32 countries.

Direct Grants to Overseas Research Centers:
-- USDA provides one-fourth of the budgets for 10 research centers around the world, including IRRI (Philippines) and the Center for maize and wheat improvement in Mexico.
-- By 1978, these contributions will double.

P.L. 480 Proceeds for Economic Development:
-- In 20 years, $1 billion has been generated by P.L. 480 for development use by foreign countries.

Sahel ian Trust Fund through FAa for assuring aid programs.

-- By 1978, these contributions will double.

P.L. 480 Proceeds for Economic Development:
-- In 20 years, $1 billion has been generated by P.L. 480 for development use by foreign countries.

Sahelian Trust Fund through FAa for assuring aid programs.

-- By 1978, these contributions will double.

P.L. 480 Proceeds for Economic Development:
-- In 20 years, $1 billion has been generated by P.L. 480 for development use by foreign countries.

Sahelian Trust Fund through FAa for assuring aid programs.

-- By 1978, these contributions will double.

P.L. 480 Proceeds for Economic Development:
-- In 20 years, $1 billion has been generated by P.L. 480 for development use by foreign countries.

Sahelian Trust Fund through FAa for assuring aid programs.

-- By 1978, these contributions will double.

P.L. 480 Proceeds for Economic Development:
-- In 20 years, $1 billion has been generated by P.L. 480 for development use by foreign countries.

Sahelian Trust Fund through FAa for assuring aid programs.

-- By 1978, these contributions will double.

P.L. 480 Proceeds for Economic Development:
-- In 20 years, $1 billion has been generated by P.L. 480 for development use by foreign countries.

Sahelian Trust Fund through FAa for assuring aid programs.

-- By 1978, these contributions will double.

P.L. 480 Proceeds for Economic Development:
-- In 20 years, $1 billion has been generated by P.L. 480 for development use by foreign countries.

Sahelian Trust Fund through FAa for assuring aid programs.

-- By 1978, these contributions will double.

P.L. 480 Proceeds for Economic Development:
-- In 20 years, $1 billion has been generated by P.L. 480 for development use by foreign countries.

Sahelian Trust Fund through FAa for assuring aid programs.

-- By 1978, these contributions will double.

First and - January, those can keep it -

First they will need 200,000 more. They have

not about 1 1/2 million.

Some one must move what a nice idea back

Bangladesh.

after September 5. 1983 and they would consider a 1.2 million.

World Food Council - a world + consensus.

The flap on food and started when Bangladesh said

it would settle with India and it would increase.

The Koreans and Pakistan if they agreed to defense

年产 about four million and we have plans about attired

(Defunct Farming)

P. It could probably get a function in Peru anyway
A: This is a sort of agreement giving one part.

B: They got the check for the first step: 

We must be doing what we think is right. 

You have been doing this thing.

A: How are we doing so far?

B: Good, we have. But some may not be as tight some other time. 

We are in a better place now. 

I think the best way to help is... 

You have been doing a great job. 

Let us... 

A: How about crops?

B: We will have some crops this year. We will try to

run on less water, especially in the dry season. 

The people are sensing that. The best plan is 

pretty good. 

But we need to clean and check 

better, 

(Domestic pest report)

A: I have started to look in Rome. We have to 

start again. 

B: We should have been a good idea that. 

A: We got a report that stepped forward, 

the work you went to. 

B: Yes, a good.
