ACTIONS AGAINST BOATS IN THE VICINITY OF
MAYAGUEZ AND KOH TANG
(140000Z - 140530Z May 1975)

140003Z - A-7 made low pass over boat moving NE toward coast; no Caucasians observed.

140005Z - Boat still moving; possibility of 20mm hit (not confirmed).

140012Z - President through SecDef says "if boat cannot be stopped any other way, destroy it." (Scowcroft-Wickham-Pauly)

140018Z - Boat is on fire but still moving.

140023Z - Boat is stopped and burning with secondary explosions; no second pass required.

140029Z - Boat has sunk.

140032Z - One survivor spotted. SAR being prepared for launch, with Cambodian linguist aboard.

140033Z - Launch of SAR authorized; survivor is in life raft.

140040Z - Small boat proceeding toward survivor despite warning shots; about halfway to sunk boat. Possible some aboard are American.

140042Z - Plan to try to stop it with CS.

140045Z - A-7 out of CS, heading home; another will replace it ASAP.

140057Z - Group bundled on bow of moving boat appear to be American.

140107Z - SAR birds estimating launch in 30 min.

140111Z - Next aircraft should be in area in 40 min.

140118Z - Moving boat appears to be bypassing survivor.

140123Z - SAR birds off at 0017; low pass indicates may be as many as 10; small boat passing east of survivors.

140131Z - Group on bow totals 8-9; total unknown.

140144Z - Boat now about 5 miles off Kompong Som.

140149Z - Boat is 30-40 feet with 30-40 aboard.

140152Z - Need authority to disable, sink, or allow to proceed ashore.

140155Z - OSD says do best to disable.

140158Z - A/CJCS sees little hope of disabling without sinking. OSD says hold fire.

140201Z - Revised estimate puts boat about 10 miles out.

140213Z - CS put on boat, boat changed direction momentarily, then continued. CS attack continuing. WH doesn't want to expend.

140215Z - Latest pass couldn't identify any of passengers.

140229Z - Two high-speed boats coming out from Kompong Som to meet inbound boat.

140234Z - Two high-speed boats at 3-mile limit.

140239Z - Two high-speed boats turning away from rendezvous with inbound boat.

140241Z - Inbound boat entering channel about 1 mile out.

140248Z - Watching two high-speed boats to see if they are heading for survivors.

140250Z - SAR nearing survivors.

140306Z - SAR overhead, beginning rescue.

140309Z - Count of small craft near island/ship: 1 patrol boat tied up to ship, two small rowboats, 1 which moved to island to SE.

140324Z - SAR aircraft have lost raft and are now starting area search.

140346Z - Can't find boat that moved to island to SE; still searching for raft.

140403Z - Clear to take small boats under attack and sink them, using extreme care with boat tied to MAYAGUEZ.

140419Z - COL Johnson needs 3 hours of daylight to secure MAYAGUEZ after insertion; two hours would do - hence no later than 0700Z.

140430Z - Propose to terminate SAR within 30 minutes.
