See you write on this the other day

RE

President Gerald Ford
The White House
Washington, District of Columbia

Dear Mr. President:

June and I support you and your decisions concerning pardons and amnesty.

We are much pleased to see that you are praying for guidance and wisdom, for that is our daily prayer for you. Remember that you can't do the will of God without getting a lot of people against you. Always take strength in knowing that God is with you, and when He is with you, men will not stand against you long.

God bless you and your family. If we can ever do anything for you, let us know.

Sincerely,

Johnny Cash
