

Gerald R. Ford Presidential Library

Naval Photographic Center (NPC)

Film, 1974-77

The NPC filmed many of President Ford's activities, especially ceremonial and public events. These included, for example, bill signings, speeches, announcements, photo-opportunity events, state dinners and entertainment, and some domestic and foreign trips. In a few instances, the NPC filmed public events featuring the First Lady or the Ford children.

This film is raw stock 16 mm, having a color reversal image and, sometimes, a magnetic sound track. The Library has dubbed some to video. The film images are in the public domain.

The table below is based on NPC's shot cards. Film running time can be estimated from the film length, at three minutes per 100'.
