

**PHILIP W. BUCHEN PAPERS**  
**Audiovisual Materials Transferred from the Textual Collection**

Audiovisual materials from the Philip W. Buchen Papers consist of approximately 300 photographs. The majority of photographs were taken during Ford's administration, though a small amount both pre- and post-date Ford's presidency. Many of the photos are assumed to be labeled by Philip Buchen's wife, Beatrice "Bunny" Buchen.

Copyright for all items is not known; restrictions may exist on the use and reproduction of the materials. If copyright is known, it is listed in [brackets] following the description of the item. If a photo was taken by a photographer from the White House Photo Office (WHPO) it is identified with its contact sheet and negative numbers.

Items are listed below, with a brief description. Each item is accompanied by a transfer sheet that lists its corresponding folder in the Manuscript portion of the collection. Photographs that are related or grouped together have general descriptive information preceding their individual listings.

Beginning each description are the dimensions of each photograph (in inches) and the film type used. Certain photographs have been removed to oversize storage and must be requested for viewing. For descriptive purposes, the names of Gerald R. Ford and Betty Ford have been abbreviated to "GRF" and "EBF," respectively.

Prepared by Jill Zawacki, July 2007.
