

Gerald R. Ford Presidential Library

White House Communications Agency (WHCA): Videotapes of Public Affairs, News, and Other Television Broadcasts, 1973-77

WHCA selectively created, or acquired, videorecordings of news and public affairs broadcasts from the national networks CBS, NBC, and ABC; the public broadcast station WETA in Washington, DC; and various local station affiliates. Program examples include: news special reports, national presidential addresses and press conferences, local presidential events, guest interviews of administration officials, appearances of Ford family members, and the 1976 Republican Convention and Ford-Carter debates.

In addition, WHCA created weekly compilation tapes of selected stories from network evening news programs.

[Click here for a detailed description of each "Weekly News Summary"](#)

All WHCA videorecordings are listed in the table below according to approximate original broadcast date. The last entries, however, are for compilation tapes of selected television appearances by Mrs. Ford, 1974-76. The tables are based on WHCA's daily logs. "Tape Length" refers to the total recording time available, not actual broadcast duration.

Copyright Notice: Although presidential addresses and very comparable public events are in the public domain, the broadcaster holds the rights to all of its own original content. This would include, for example, reporter commentaries and any supplemental information or images. Researchers may acquire copies of the videorecordings, but use of the copyrighted portions is restricted to private study and "fair use" in scholarship and research under copyright law (Title 17 U.S. Code).

Use the search capabilities of your PDF reader to locate specific names or keywords in the table below.

Date	Time Aired	Network	Content	Tape Length (minutes)	Tape Number
