Control File, 1965-73.

(Boxes C1-C96, 38.4 linear feet)

This file serves as an index by correspondent name to communications in select files of the Congressional Papers. Carbon copies of outgoing letters are marked to show the location of the complete correspondence set and arranged alphabetically by name of correspondent. Separate A-Z control files exist for each six month period with the exception of 1965 and 1966, which have one file for the entire year.

The files indexed include the post-1964 portions of:

- Series A - General and Case File
- Series B - Legislative File
- Series F - Bills and Voting Record File
- Series J - Special File
- Series K - Fifth District Post Office File
- Series M - Washington Office File (office interns, suspense, visa, and office accounts series only)
- Series P - Service Academy File

In addition, occasional letters are indexed from the following files:

- Series G - Campaign File
- Series N - Trip File
- Series O - Invitations File

A series which has a separate control file located with the material is:

- Series I - Legislative Assistant (Josephine Wilson) File

Series which have no control files are:

- Series D - Press Secretary and Speech File
- Series E - Warren Commission File
- Series H - Committee File
- Series L - Grand Rapids Office File

This control file indexes only correspondence answered by Ford or his staff and is not useful in locating unanswered letters, speeches, schedules, and other types of documents. In addition to the alphabetical index there is a chronological index covering January to April 1965 only. Apparently, the chronological index was

discontinued by the Ford staff after that time.

This file was stored at the White House until January 20, 1977, when it was received by the Ford Library. Upon request specific segments may be examined for opening. Please consult the archivist.
