## **President Ford Committee Records, Series K: Vice Presidential Campaign Files, 1976**

### **Collection Type**

Personal Papers

### **Record Type**

Textual

### **Scope and Content Note**

The Vice Presidential Campaign Office collection is primarily a reference file. It consists almost entirely of several small, routine, and likely incomplete, files, the bulk of which is contained in a large background book. Material of interest to researchers are selected Dole speech and interview transcripts, the Senator's voting record, and position papers on various campaign topics. The collection is otherwise lacking in substantial research material. Virtually no original material is present, and no staff files for individuals mentioned above are included.

Related Materials (c. 1991):

Small amounts of related PFC material are found in the General Counsel's Political File, the Research Office's Desk Subject File, and in the unprocessed files of the Chairman's Office. Additionally, related material is found in White House Central Files codes for Political Affairs/Dole (PL/Dole) and Political Affairs/Debates of Political Candidates (PL/7), and selected folders from the staff files of William Nicholson, David Gergen, Robert Hartmann, and the papers of Ron Nessen and Michael Raoul-Duval. Folders exist for most staff members in White House Central Files Name File.
