THE WHITE HOUSE

WASHINGTON

June 5, 1976

MEMORANDUM FOR:

MAX FRIEDERSDORF

THROUGH: CHARLES LEPPERT, JR.

FROM:

.

SUBJECT:

TOM LOEFFLER

Calls to Minority Members, House Banking and Currency and Interstate and Foreign Commerce Committees --Synthetic Fuel Legislation

Most Members were "out of pocket" on Saturday. I will continue to place calls over the weekend.

I did, however, receive the following reactions:

Rep. Garry Brown

Has not had a chance to focus on the legislation. Stated he would review it promptly. I informed him of the Administration's support for the Science and Technology legislation and asked for any assistance he might be able to provide.

Rep. Chalmers Wylie

Has testified in favor of this legislation. Said he will work to get it out of the Banking and Currency Committee just as it was reported from Science and Technology.

Rep. John Heinz

Has not taken a position. I relayed the Administration position and asked for any assistance he might be able to provide in the Energy and Power Subcommittee, as well as in the Full Interstate and Foreign Commerce Committee.

Rep. Matt Rinaldo

• •

Has not focused on the legislation. I explained the Administration's position. Matt said he would take a look at the legislation and would try to help.

THE WHITE HOUSE

WASHINGTON

June 5, 1976

Charlie

Except for the Synthetic Fuel calls, Saturday was quiet and routine.

- We contacted Jim Jones' office to notify him of the President's declaration of Tulsa, Oklahoma for disaster relief.
- Re. Revenue Sharing -- was not able to get ahold of Congressman Pepper in Florida. Will continue to try to reach him.
- 3) In Max's absence, I relayed the Speaker's announced retirement to Jack Marsh after we learned of said announcement via radio. We got the two wire announcements to Jack immediately.

FYI -- Attached are notes I made concerning the Synthetic Fuels. I will work on them through the weekend. I am, however, doubtful that I will have a great deal to add prior to Monday morning.

Al. Johnson-45 expected at D.C. Residence bet/ 5-le pm. this Afternon

J. William Stanton - 6/5 expected at D.C. asidence later today

Carry Brown - has not had a chance to focus on leg. - stated he would review it promptly -I informed him of Aden's. support of Sto leg. I and Asked for his help. Chalinees Wylie - has two tiplied in proce of this leg. -will work to get it out of Bx Committee just as it was syntial from Sx T.

John Rousselot - in p.c. - but could not reach -

Sta McKinney - in Com.

R. FOR

John Conlæn - compaigning in ArizonA

George Hansen - out of touch in Idako -

Dick Schulze - participating in parade

Bill Gradison - in Ohio - not in Residence -

Henry Hyde - during weekend will be traveling them out state of Illinois - Left word that we would contact kim

Richard Kelly - back Sunday nite from F/A.

Chuck GRASS/ey-back Sunday p.m. (10:30 mppinx)

Millicent Fenewick

Ron Paul

Sam Devine - Campaigning

Jim Broyhill - I am to call him on Monday - J.B. Touring district this weekend.

Tim Lee Carter - could not be reached in Kentucky.

Bud Brown - Compaigning

JOE Skubitz- camping

Jim Collins - in Texas - in office 8 pm. Sunday (D.C.)

Low Frey-in N.Y.

John McCollistor - Denver-in route to Neb - back Sunday pm.

Norm Lent - in N.Y. - Lack Sunday P.m.

John Heinz - kes not taken a position - stated the Adm. position and aded fore any Azzostance he might be able to posite in the Guery and power subcommitte as well as the full Interstate + Torign Committee Committee.

Ed Madigton - lift word we

Corlos Moonehead -

Matt Rinaldo - has not focused on the leg. - Explained Adm. printin - Matt said he formula take a look at the leg. and try to help.

Henson Mooke

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

June 4, 1976

Office of Congressional Relations

NOTE TO MAX FRIEDERSDORF

Attached is the best list we have so far on the SynFuel vote. I have marked the ones we could use the most help with -- especially the more conservative Members and the Members of the three Committees presently considering the bill. Add three must report out by June 18th and we look for Floor action in the House the last week of June.

I am sending copies to Hal Eberle and Stan Hildago asking for their assistance too.

We have this one won IF and WHEN it gets to the Floor provided it isn't gutted enroute.

H. Hollister Cantus

William T. Murphy, Jr. Director Congressional Relations

May 18, 1976

Mr. Glenn R. Schleede Associate Director, Domestic Council Room 228, Old Executive Office Building Washington, D. C. 20500

Dear Glenn:

I am enclosing a breakdown of the votes of Republican Congressmen on the synfuel loan guarantee bill. The first column shows the members' position on the December 11, 1975 vote on Section 103 of the ERDA Authorization Bill. The numerical code is as follows: 1 equals vote in support of the legislation; 5 equals opposition; NV indicates not voting. An asterisk by a 5 or a NV indicates members who for various reasons are thought to be persuadable on this issue. The numbers in column two indicate our present assessment of members position on H.R. 12112, the synfuel loan guarantee bill, as of now. A l equals support for the legislation, 2 equals leaning for, 3 equals undecided, 4 equals leaning against, and 5 equals opposition to the bill. Once again an asterisk denotes members who are thought to be persuadable on this legislation.

As you know a number of conservative Republicans who normally support industry legislation voted against this bill in December. From my discussions with some of these members and their staffs it is clear that some strong signals from the White House in support of H.R. 12112 would have a great effect.

If you have any updates on positions of any Republican members I would appreciate hearing from you, as it would help us target our communications effort more effectively. I will be sending you any updates that we may have on this list as we get more returns in from our Grass Roots communication efforts. Page 2 Glenn R. Schleede May 18, 1976

If you have any questions about any of these evaluations, please give me a ring and we can go over them.

Sincerely,

٠.

Bill Munphy William T. Murphy Jr.

THE WHITE HOUSE

WASHINGTON

June 7, 1976

MEMORANDUM FOR:

MAX FRIEDERSDORF

FROM:

.

CHARLES LEPPERT, JR. CAP.

SUBJECT:

Responses to Synthetic Fuel Inquiries - HR-12112

Pursuant to our inquiries, listed below are breakdowns of positions of Minority Members on the Banking and Currency and Interstate and Foreign Commerce Committees.

Banking and Currency Committee

For	Against	Undecided
A. Johnson J. Stanton Wylie McKinney	Rousselot Schulze Kelly G ra ssley	G. Brown J. Conlan G. Hansen B. Gradison Hyde
		Fenwick
		Paul

In view of the large "no" and "undecided" responses, I suggest that it may be advantageous to contact John Rousselot. He seems to be genuinely interested in reporting out a compromise bill which would be accepted by the conservatives.

Interstate and Foreign Commerce Committee

•••

Against	Undecided
Broyhill Collins	Devine Skubitz Heinz Rinaldo Moo r e
	Broyhill

Al Johnson

. •

Will support legislation as reported by the Science and Technology Committee.

J. William Stanton

Most likely will support Science and Technology bill, but really hasn't focused on it yet.

Garry Brown

Has not had a chance to focus on the legislation. Stated he would review it promptly. Informed him of the Administration's support for the Science and Technology legislation and asked for any assistance he might be able to provide.

Chalmers Wylie

Has testified in favor of this legislation. Said he will work to get it out of the Banking and Currency Committee just as it was reported from Science and Technology.

John Rousselot

Opposed in the present form, but would like to work something out along the lines of the Lockheed guarantee bill. If assets were pledged, he could support this legislation.

Stu McKinney

As ranking minority member on the Economic Stabilization Subcommittee, he supports Synthetic Fuel legislation. However, he is presently working with Bill Moorhead (Chairman of the Economic Stabilization Subcommittee) in an attempt to prepare a compromise prior to Banking and Currency mark-up. This compromise could consist of a reduction in the total \$4 billion loan guarantee and could allow for only one project per district. Asked that we touch base with him on Wednesday, June 9, for further status report.

John Conlan

• •

• ·

Hasn't studied the legislation.

George Hansen

Has extended his stay in Idaho for two to three days as a result of the Teton disaster -- could not be reached.

Dick Schulze

A politically stupid bill. Might come around for the reason that Rousselot would change.

Bill Gradison

Presently is undecided as to whether he will support the Science and Technology legislation. Indicated that he was giving strong thought to vote in favor of the legislation in Committee while perhaps voting against the bill during floor consideration.

Henry Hyde

Leaning toward support, but needs more information on the bill. Would appreciate someone dropping it off in his office.

Richard Kelly

Will oppose. However, he has supported loan guarantees for solar energy, but feels that this one is different because it is a big oil company ripoff.

Charles Grassley

Opposed, but will reconsider if we can provide additional information.

Millicent Fenwick

Undecided. She would oppose the bill if big oil gets the money, but really doesn't know what is in the bill and would appreciate more information.

Ron Paul

Leaning toward opposing Science and Technology legislation due to the cost factor. However, stressed he was not locked into his opposition.

RESPONSES TO SYNTHETIC FUEL INQUIRIES -- MINORITY MEMBERS - HOUSE INTERSTATE AND FOREIGN COMMERCE COMM.

Sam Devine

Hasn't looked at the legislation. Will look at it after subcommittee reports are out.

Jim Broyhill

Opposed. The government has no business doing this and is sorry we support it.

Tim Lee Carter

Strong supporter of Synthetic fuel legislation.

Bud Brown

Ranking minority member on Energy and Power Subcommittee. Has stated he will do whatever is necessary to see that the best legislation reaches the floor.

Joe Skubitz

Hasn't focused on the bill, but stated that we have gone overboard on these "energy bills".

Jim Collins

Extremely concerned about the cost figure. Therefore, is inclined to oppose because coal gassification technology is not well enough advanced to merit a loan guarantee.

Lou Frey

As a member of Science and Technology and Interstate and Foreign Commerce Committees, he strongly supports the Science and Technology legislation.

John McCollister

Will support Science and Technology legislation.

Norm Lent

Will support Science and Technology legislation.

John Heinz

, • , •

Has not taken a position. Relayed the Administration position and asked for any assistance he might be able to provide in the Energy and Power Subcommittee, as well as in the full Interstate and Foreign Commerce Committee.

Ed Madigan

Will support Science and Technology legislation.

Carlos Moorhead

Will support legislation reported from Science and Technology. Is concerned about lack of support in Energy and Power Subcommittee. Hopes that the Energy and Power Subcommittee will simply issue an adverse report and not request amendments.

Matt Rinaldo

Has not focused on the legislation. Explained the Administration's position. Said he would take a look at the legislation and would try to help.

Henson Moore

Has reservations with the concept of assisting business ventures which cannot support themselves. Has not taken a position on the Science and Technology bill.

HUÉ Syntoers

THE WHITE HOUSE WASHINGTON

June 10, 1976

JUN 1 2 1976

TO:

FROM:

•

CHARLIE_ LIPPERT GLENN

Here's another vote analysis for the Syn Fuels Bill.

As I understand it, your help is solicited with respect to:

- Rhodes
- Michel
- Republicans marked for 3 Committees on attachment

Does this square with what you're getting from others?

JUN 1 5 1976

MEMORANDUM FOR RECORD

SUBJECT: WAYS AND MEANS COMMITTEE ACTION ON SYNFUELS BILL

The House Ways and Means Committee took the following action on HR 12112 today:

Adopted the Waggoner Amendment to deny subsidies to any bonds quaranteed under the bill...in essence this removes the tax-free status of possible municipal bonds. (Ss).

Adopted the Steiger Amendment to remove all reference to the Second Liberty Bond Act. I am uncertain as to the impact of this amendment however, I believe it may remove the ability of the Treasury Department to raise revenues to pay off defaulted loan guarantees, making Treasury return to the Congress for appropriations as needed for default and for the maintenance of a revolving fund. (S n).

Adopted the bill, as amended; voted to report it favorably to the House; voted to ask for a closed rule on these amendments

H. Hollister Cantus, Director Office of Congressional Relations

June 15, 1976

MEMORANDUM FOR RECORD

SUBJECT: BANKING & CURRENCY COMMITTEE ACTION ON SYNFUELS

The House Banking, Currency and Housing Committee (Chairman Reuss) today favorably reported out the bill, H.R. 12112 with amendments in the nature of a substitute. Essentially the Committee endorsed the HS&T bill with the following changes:

1. Of the \$4 billion dollars, \$500 million is set aside for price guarantees.

2. The loan guarantees are limited to 75% at any time...as opposed to the HS&T version which permitted up to 90% during the construction phase.

3. Loan guarantees may be issued for cost overruns (up to 60%) on a full recourse basis.

4. Maximum maturity of the loan guarantees is 20 years or 90% of the useful life of the plant, which ever is less, as opposed to HS&T's 30 or 90 provision.

5. The obligation under the loan guarantee must be fully amortised over the life of the loan.

6. A call feature, permitting the Administrator to determine when a project is conmercially viable and providing a mechanism for the withdrawal of the federal guarantee, was adopted.

7. While the HS&T patent provisions remained intact, the Committee decided to fight that fight on the floor.

8. While the 1% administrative fee remained intact, the Committee report language will express the Committee's intent that that fee be no less than 1%.

9. The President could overrule anti-competitive findings of AG and FTC. Rejected were two amendments offered by Mr. Schulze:

1. To limit loan guarantees to 60% of the project costs and 80% of all overrun costs on a full recourse basis.

2. To increase the administrative fee to 2%.

Attached is the final vote on the passage of the Committee version of the bill. While three conservative Members voted against the bill, Mr. Schulze voted in favor and Mr. Rousselot voted present. The Committee will file its report on the 18th. Several Members are expected to offer deregulation and decontrol amendments to the bill when it reaches the House Floor.

Also adopted was a provision to have HUD administer the community assistance program.

H. Hollister Cantus, Director Office of Congressional Relations

MEMORANDUM FOR RECORD

SUBJECT: BANKING & CURRENCY COMMITTEE ACTION ON SYNFUELS

The House Banking, Currency and Housing Committee (Chairman Reuss) today favorably reported out the bill, H.R. 12112 with amendments in the nature of a substitute. Essentially the Committee endorsed the HS&T bill with the following changes:

1. Of the \$4 billion dollars, \$500 million is set aside for price guarantees.

2. The loan guarantees are limited to 75% at any time...as opposed to the HS&T version which permitted up to 90% during the construction phase.

3. Loan guarantees may be issued for cost overruns (up to 60%) on a full recourse basis.

4. Maximum maturity of the loan guarantees is 20 years or 90% of the useful life of the plant, which ever is less, as opposed to HS&T's 30 or 90 provision.

5. The obligation under the loan guarantee must be fully amortised over the life of the loan.

6. A call feature, permitting the Administrator to determine when a project is commercially viable and providing a mechanism for the withdrawal of the federal guarantee, was adopted.

7. While the HS&T patent provisions remained intact, the Committee decided to fight that fight on the floor.

8. While the 1% administrative fee remained intact, the Committee report language will express the Committee's intent that that fee be no less than 1%.

9. The President could overrule anti-competitive findings of AG and FTC. Rejected were two amendments offered by Mr. Schulze:

1. To limit loan guarantees to 60% of the project costs and 80% of all overrun costs on a full recourse basis.

2. To increase the administrative fee to 2%.

Attached is the final vote on the passage of the Committee version of the bill. While three conservative Members voted against the bill, Mr. Schulze voted in favor and Mr. Rousselot voted present. The Committee will file its report on the 18th. Several Members are expected to offer deregulation and decontrol amendments to the bill when it reaches the House Floor.

Also adopted was a provision to have HUD administer the community assistance program.

MEMORANDUM FOR RECORD

SUBJECT: BANKING & CURRENCY COMMITTEE ACTION ON SYNFUELS

The House Banking, Currency and Housing Committee (Chairman Reuss) today favorably reported out the bill, H.R. 12112 with amendments in the nature of a substitute. Essentially the Committee endorsed the HS&T bill with the following changes:

1. Of the \$4 billion dollars, \$500 million is set aside for price quarantees.

2. The loan guarantees are limited to 75% at any time...as opposed to the HS&T version which permitted up to 90% during the construction phase.

3. Loan guarantees may be issued for cost overruns (up to 60%) on a full recourse basis.

4. Maximum maturity of the loan guarantees is 20 years or 90% of the useful life of the plant, which ever is less, as opposed to HS&T's 30 or 90 provision.

5. The obligation under the loan guarantee must be fully amortised over the life of the loan.

6. A call feature, permitting the Administrator to determine when a project is commercially viable and providing a mechanism for the withdrawal of the federal guarantee, was adopted.

7. While the HS&T patent provisions remained intact, the Committee decided to fight that fight on the floor.

8. While the 1% administrative fee remained intact, the Committee report language will express the Committee's intent that that fee be no less than 1%.

9. The President could overrule anti-competitive findings of AG and FTC. Rejected were two amendments offered by Mr. Schulze:

1. To limit loan guarantees to 60% of the project costs and 80% of all overrun costs on a full recourse basis.

2. To increase the administrative fee to 2%.

Attached is the final vote on the passage of the Committee version of the bill. While three conservative Members voted against the bill, Mr. Schulze voted in favor and Mr. Rousselot voted present. The Committee will file its report on the 18th. Several Members are expected to offer deregulation and decontrol amendments to the bill when it reaches the House Floor.

Also adopted was a provision to have HUD administer the community assistance program.

H. Hollister Cantus, Director Office of Congressional Relations

MEMORANDUM FOR RECORD

SUBJECT: HOUSE ACTION ON PUBLIC WORKS APPROPRIATION BILL

The House today passed the public works appropriation bill which included portions of the ERDA Appropriations (Title II). The final vote was 378-20. Two amendments were considered:

By a voice vote the Conte Amendment was adopted adding \$95 M to the Committee's recommended level for Solar Energy programs. This brings the bill's total appropriations for Solar to \$309M for FY77.

By a voice vote defeated the Hechler amendment to reduce the \$25 K appropriation for ERDA entertainment expenses to \$10 K.

The bill, HR 14236, now goes to the Senate for consideration. Of note is the amendment added to another Title of the Bill which provides some \$200 M in disaster relief to the State of Idaho for the Teton Dam disaster. This appropriation, an emergency measure, will place great pressure on the Senate to act quickly on the ERDA Authorization Bill which is a prerequisite to the appropriation bill and thus a prerequisite to the emergency funds.

H. Hollister Cantus, Director Office of Congressional Relations

MEMORANDUM FOR RECORD

SUBJECT: HOUSE ACTION ON PUBLIC WORKS APPROPRIATION BILL

The House today passed the public works appropriation bill which included portions of the ERDA Appropriations (Title II). The final vote was 378-20. Two amendments were considered:

By a voice vote the Conte Amendment was adopted adding \$95 M to the Committee's recommended level for Solar Energy programs. This brings the bill's total appropriations for Solar to \$309M for FY77.

By a voice vote defeated the Hechler amendment to reduce the \$25 K appropriation for ERDA entertainment expenses to \$10 K.

The bill, HR 14236, now goes to the Senate for consideration. Of note is the amendment added to another Title of the Bill which provides some \$200 M in disaster relief to the State of Idaho for the Teton Dam disaster. This appropriation, an emergency measure, will place great pressure on the Senate to act quickly on the ERDA Authorization Bill which is a prerequisite to the appropriation bill and thus a prerequisite to the emergency funds.

MEMORANDUM FOR RECORD

SUBJECT: COMMERCE COMMITTEE MARK-UP OF SYNFUELS

The House Interstate and Foreign Commerce Committee (Chairman Staggers) continued its mark-up of the bill, HR 12112, today and took the following actions:

1. Defeated the Carter Amendment which would have restored to the Dingell Substitute the authority to issue loan guarantees for two pipeline coal gasification plants.

2. Defeated the Dingell Amendment which would have restored loan guarantees for a half-scale coal gasification plant with an option for a full-scale plant with a 60% loan guarantee.

3. Defeated, 18-15 with 1 voting present, the Brown Amendment which would have restored one full-scale loan-guaranteed high-Btu coal gasification plant. Record vote attached.

The Committee meets again tomorrow at 10:00 to continue its mark-up. Pending is the Brown Amendment to restore the HS&T patent policy. The Committee will consider Titles II & III of the Dingell Substitute which deal with deregulation of gas from coal and with price guarantees for deregulated and unregulated gas from coal.

The Committee has been granted an extension, until June 25th, to report out their bill. Since the Minority has requested their rightful 3-days in which to file their views, the Committee must finish its mark-up by next Wednesday.

Assuming the above timetable is met, and assuming a generally favorable indication from Majority and Minority Whip Checks to be taken on Monday and Tuesday, June 28/29, Chairman Teague hopes to go to Rules Committee on the 29th and to the Floor the 30th -- before the July Recess.

MEMORANDUM FOR RECORD

SUBJECT: FURTHER MARK-UP OF SYNFUELS BILL IN HOUSE COMMERCE

The House Commerce Committee continued its mark-up of the Bill, HR 12112, today and took the following actions:

1. By a straight party-line vote of 22-13, rejected the Brown of Ohio Amendment which would have restored the patent provisions of the House Science and Technology bill. The vote results in adoption of the Dingell substitute language which provides for public possession of more patents than the HS&T version permitted. A floor fight is scheduled on this issue when the bill reaches that point.

2. The Committee failed to resolve the Moss Amendment on proprietary information subject to public release under the Freedom of Information Act when it failed to obtain a quorum. The Point of Order was made by Mr. Brown and, failing to get the required number of Members, the Committee recessed until 10:00 a.m. tomorrow, June 18th.

Attached are the record vote and the quorum call.
