CALENDER ONE

The schedule for the President as complete as possible, highlighting Bicentennial events, for the period July 1-5 (remembering the Queen's visit begins the 7th).

CALENDER TWO

The other events for those days of things that will be happening in Washington to include such things as: (1) the Peoples Bicentennial, (2) Honor America Parade, (3) American Nazi Party, (4) activities of the D.C. Government, any other related event (example, the Baptist Church may have an event planned.)

There are too many events that are not national events which will impact on Washington, D.C.

What's happening in Washington, D.C. and its environs (inside the Beltway).

CALENDER THREE

What major events are being planned by the Departments and Agencies of the Federal Government on July 1-5 in Washington and elsewhere. Particularly interested in the Interior Department (because of the National Park Service--lots of events in the parks). What might they be doing? I think it would be helpful to know this. Milt can get this information through people on the Federal Agency Bicentennial Task Force.

CALENDER FOUR

Events that are happening nationally. Jean McKee can get this. These are events in which there is no Federal participaion. Just people participating. (Wagon Train is an example, bell ringing, etc.)

CALENDER FIVE

What hapenning internationally.

UNSCHEDULED EVENTS FOR JULY

-- Revised Economic Forecast

OTHER ISSUES BREWING

- Busing
- Food Stamp Suit
- B1 Bomber issue in conference
- PL 480 Debate in Congress
- Expiration of Temporary Tax Decrease and Senator Long's new Tax Bill
- Congressional Debate on Arab Boycott Legislation
- Senate Vote on Natural Gas De-regulation (Week of June 7) FEA Preparing paper for the President
- Presidential decision on Social Security de-coupling.
- Synder Amendment on the State Department Authorization Bill. This Amendment would prohibit departmental funds from being used for the Panama Canal negotiations. Synder may offer his amendment -- the bill hasn't been called up yet. If he does, the Administration will try to kill it in conference.
- NIH tentatively scheduled publication of research guidelines for DNA (creating life in the "test tube") for 6/21. Mathews questions guidelines and is sending memo to the President. Possible leak.
- 6/11: COWPS will release report on recent steel price increase which will go into effect 6/14. (Report findings not yet available.)
- FEA will submit proposal to Congress week of 6/7 to decontrol heating oil and diesel fuel. Major opposition is expected.
- Clean Air: Pending in both House and Senate. Pollution requirements have implications for the automotive industry and industry in general.

OTHER ISSUES BREWING (Continued)

- The report of the Haskell Senate Interior Subcommittee on Bo Callaway's Crested Butte Ski Resort is at the printers and may be released shortly.
- Drafting Subcommittee of Democratic Platform Committee begins 3 day session (Friday 6/11)
- Outer Continental Shelf Legislation: Administration opposes
- Valley Forge Historical Park Legislation: President wants to sign this on July 4th at Valley Forge. Senator McClure (D-Idaho) wants to amend the legislation to require the purchase of 800 acres of land to the southwest which would cost approximately \$57 million. The Administration will attempt to defeat the amendment but may not succeed.
- Security Assistance Legislation: Up for vote. Several problem areas:
 - 1) \$9 Billion ceiling on arms sales
 - 2) Arms transfer controls -- the issue is Congress' ability to control Presidential decisions on government-to-government sales.
 - 3) Human Rights Provision -- Congress can cut off aid if it disagrees with the receiving country's policies.
 - 4) Korean funding level
 - 5) Assistance to Chile
 - 6) Greece-Turkey issue
- Economic Summit: Working sessions 6/14-6/16; Presidential Party departs 6/26
- July 4th Preparations: Schedule virtually approved; speech work underway.
- Corporation Payoffs Abroad: Richardson to present Administration position on 6/10.
- Antitrust Bill: Bill incorporating parens patriae is working its way through the Congress now.

OTHER ISSUES BREWING (Continued)

- Employment Bill: Administration must decide whether to support Esch-Kemp bill, its own separate bill, or generally oppose all public works efforts
- Idaho Flood: Question of whether further Federal action should be taken by the White House.
- Italian Elections on June 20: Administration response?

Do we have prepared in one place a complete list of every Presidential statement from the first day of July through July 5? This will include speeches, proclamations, special messages, remarks, acknowledgments, etc.

THE WHITE HOUSE

WASHINGTON

June 7, 1976

MEMORANDUM FOR: RUSS ROURKE

FROM: JACK MARSH

Can you get from Jean McKee the number of events that will be occurring on a national scale on the Fourth of July? If this can be broken down by State it would be helpful. I'm not interested in identification of all of the events, but I would like to know how many events are occurring that day which have come to the attention of ARBA.

In this regard, if it's available, it would be helpful to know how many may be occurring internationally. As I said before, I'm interested in total numbers rather than a description of each event. Notwithstanding what I said about total numbers, if they have a summary sheet of what will be major events of national importance, she may wish to name those in order to give the President a cross-section of types of things that are occurring from rodeos to parades to building dedications to outdoor drama, etc. For example, the bell ringing, or some other special highlights that are unusual and of special consequence.
