UNITED STATES-CHINA BUSINESS COUNCIL RECORDS, 1972-1981 (1986) Audiovisual Materials Accretion

Summary Description

The United States-China Business Council audiovisual materials accretion consists of photographs and audio tapes removed from the textual records of the US-China Business Council (formerly the National Council for United States-China Trade, or NCUSCT) as well as photographic materials that were received in separate containers. The materials relate to various Council activities, including delegations from the United States to China, delegations from China to the United States, staff at work, and meetings and receptions. Some images from among these materials were used in the China Business Review or other Council publications.

QUANTITY

Approximately 2,920 photographic prints; 558 contact sheets; 10,432 35mm negatives; 31 126 film negatives; 182 medium format negatives; 26 copy/large format negatives; 195 35mm slides; 86 audio cassettes; 9 microcassettes; and 25 audio tapes (7-inch reels)

DONOR

The National Council for United States-China Trade (84-40, 86-30, 91-37)

ACCESS

Open in part. Photographic materials are open, but audio recordings require review before they can be accessed. Researchers should contact the Library to request that specific audio recordings be added to the access review queue. Some items may be temporarily restricted under terms of the donor's deed of gift, a copy of which is available on request, or under National Archives and Records Administration general restrictions (36 CFR 1256).

COPYRIGHT

The Council has donated to the United States of America its copyrights in all of its unpublished writings in National Archives collections but retains copyright interests in its publications. Works prepared by U.S. Government employees as part of their official duties are in the public domain. The copyright interest to materials produced by other individuals or organizations is presumed to remain with them. Known copyright holders are identified in brackets.

Prepared by Kenneth Hafeli, December 17, 1987; revised by Chloe Koscheva-Scissons, June 1, 2016. Additional materials incorporated by Elizabeth Druga, September 2022; revised June 2023.

Series Descriptions

Series A: Selected Contact Sheets, 1972-1979. (Boxes A1-A2; 415 contact sheets)

This series contains contact sheets related to various subjects including delegations to China; delegations to the United States; Kwangchow (Canton) Fairs; Council staff and offices; Council Annual Meetings; and other Council activities. The majority were received in binders, presumably organized by Council staff. Textual materials received with the contact sheets include tables of contents and item lists that provide high level descriptions of the images. Some contact sheets listed on the tables of contents were not received. One binder, labeled "Merkle Photos," was received empty. The corresponding negatives for some, but not all, of the contact sheets are available in other series. Unless otherwise noted, contact sheet prints are 8x10 in black and white.

Arranged in order created by Council staff.

Series B: Selected Negatives, 1973-1980. (Box B1; 4,133 35mm negatives, 84 medium format negatives, 6 copy/large format negatives, and 13 photographic prints)

This series contains selected negatives related to various subjects including delegations to the United States; Council staff and offices; Council Annual Meetings; historic sites in Washington, DC; and various products. They correspond to a set of notecards created by National Council staff that provide basic description information for rolls of film, each of which was given a five-digit identifier. An identifier may correspond to more than one roll of film from the same event. In many cases there are contact sheets in other series that correspond to negatives filed here; it is noted if contact sheets are not available. Partial contact sheet prints for two rolls of portraits of the editorial staff were filed with the negatives. All negatives are 35mm in black and white unless otherwise noted.

Arranged in order created by Council staff.

Series C: Event Photograph Files, 1972-1978. (Box C1; 257 photographic prints, 88 35mm negatives, 31 126 film negatives, and 1 medium format negative)

This series contains photographic materials, mostly prints but also some negatives, related to various delegations to the United States, delegations to China, and international trade exhibitions. These materials were received grouped together in folders, presumably organized by Council staff. The original folder titles were retained. The dates included in the original folder titles sometimes do not match up with the dates on the materials they contained.

Arranged in order created by Council staff.

Series D: Photographic Materials Related to Council Activities, 1975-1980. (Boxes D1-D6; 1,912 photographic prints, 131 contact sheets, 5,165 35mm negatives, 97 medium format negatives, 15 copy/large format negatives, 1 35mm slide, and 10 picture postcards)

This series contains photographic prints, contact sheets, negatives, and slides related to various Council activities. These include U.S. delegations to China; Chinese delegations to the United States; and meetings and receptions. Some photos were sent to the Council by companies that their sponsored delegations had visited. The materials were received unarranged in a box labeled "Nat'l Council Photo File, 1981." Library staff grouped the images by event and arranged them in roughly chronological order. A small portion of the materials had no caption or date information available; the undated materials are described at the end of the series. Some of the prints show signs of staining, and a small number of prints are stuck together due to water damage.

Arranged chronologically.

Series E: Audiovisual Transfers from the Textual Materials, 1973-1981 (1986). (Boxes E1-E6; 58 audio cassettes, 9 microcassettes, 4 audio tape reels, 738 photographic prints, 12 contact sheets, 1,046 35mm negatives, 5 copy/large format negatives, and 194 35mm slides)

This series includes items that were found among the textual portion of the collection and transferred to AV. The original file location is noted in the descriptions. Audio recordings include sessions from the 1979 Annual Meeting, the December 1979 Selling Technology to China conference, and "The China Trader: Interviews by Julian Sobin." The photographic materials include images of Chinese delegations visiting the United States, individuals from member companies, Council staff, and U.S. delegations visiting China.

Arranged parallel to the textual collection by format.

Series F: Audio Recordings, 1974-1977. (Boxes F1-F2; 28 audio cassettes and 21 audio tape reels)

This series contains audio recordings that were received with the records separately from the textual portion of the collection. Events covered in the recordings include the National Council's inaugural meeting in 1973, the 1974 Spring Fair; the National Council's 1974 annual meeting; and official talks between the National Council and the China Council for the Promotion of International Trade (CCPIT) in September 1975.

Arranged by format, and thereunder chronologically.

Container List

Series A: Selected Contact Sheets, 1972-1979

Binder labeled "Delegations to China contact sheets, Book I"

- A1 1 Theroux Trip, 04/1975, Page 1
